DIRECTIONS FOR USE

It is a Misdeamnor of Federal Law to use this product in manner inconsistent with its labeling. **LAWN FLEA AND TICK CONTROL**. To kill fleas and ticks infesting lawns and kennel yards, use Bengel Lawn Flea & Tick Killer with the attached 1/2-gal. spray nozzle. 1) Attach nozzle and spray to hose. Make sure spray nozzle is in the "ON" position. 2) Attach bottle of Bengel Lawn Flea & Tick Killer to the hose and sprayer. (Squeeze to open unused product after treatment). 3) Turn 2" water supply. 4) Begin treatment, open hose and sprayer valve to the "ON" position. 5) Spray at the rate of 2.25 oz. of Bengel Lawn Flea & Tick Killer per 1,000 square feet of lawn to be treated. Use the square foot treatment scale as a guide when spraying. 5a) For best results, lawn should be mowed a day or two before spraying. Spray in a slow, even sweeping motion, being sure to cover the entire lawn. Walk behind pets and normally handle. Spray under ornamentals and trees, but avoid coating young or heavily pruned plants. Repeat treatments may be necessary at 7 to 14 day intervals. Keep pets and children out of treated area until after the spray has dried. Do not spray animals in conjunction with this application, dogs and cats should be treated with Bengel Flea & Tick Spray for Pets and the animal or bedding should be treated with Bengel Indoor Flea & Tick Killer. 6) After treatment, turn off water flow and remove bottle from hose and sprayer. Replace cap on bottle and store any unused product in a good place. Remove hose and sprayer from hose and lines with clear water. **FOR OUTDOOR PESTS:** Mix Bengel Lawn Flea & Tick Killer in a compressed air sprayer or watering can at the rate of two (2) fluid ounces per one (1) gallon of water to control on contact ants, cockroaches (including German and Asian cockroaches), crickets, earwig, grasshoppers, sowbugs, spiders, and ticks. Use at the rate of one (1) gallon (fluid ounce) per 1,000 square feet to outside surfaces of buildings, porches, patios, garages and other areas where pests might have been seen or are found. Do not spray in or near fish ponds or other bodies of water. Do not allow spray to contact ornamental plants or animals because of possible injury.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or poison control center immediately. Do not induce vomiting because of aspiration pneumonia hazard. If ON EYES: Flush with plenty of water. Get immediate medical attention. If ON SKIN OR CLOTHING: Remove contaminated clothing and wash before re-use. Wash skin with soap and warm water. Get medical attention if irritation persists. If INHALED: Remove victim to fresh air. Apply artificial respiration if indicated. Get medical attention.

STATEMENT OF PRACTICAL TREATMENT

DO NOT USE IN CHILDREN because of aspiration pneumonia hazard. If in eyes, get immediate medical attention. If on skin or
