CONTROL SOLUTIONS, INC.

Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Revise label with optional graphics and a claim  
Product Name: LAMBDA 0.5% CONCENTRATE  
Admin Number: 53883-197  
EPA Receipt Date: 07/22/2024  
Action Case Number: 00622778

Dear Lisa Adamson:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Elizabeth Andrews via email at [andrews.elizabeth@epa.gov](mailto:andrews.elizabeth@epa.gov).

Sincerely,

Elizabeth Andrews, Risk Manager  
IVB1, RD  
Office of Pesticide Programs

## Sub-label A: Concentrate Packaging

**LAMBDA-CYHALOTHRIN****GROUP****3A****INSECTICIDE**

### LAMBDA 0.5% CONCENTRATE

[alt. name Martin's Cyonara™ Home &amp; Garden Insect Control]

[alt. name Martin's Cyonara™ Home &amp; Garden Insect Control Ready To Spray]

For outdoor use around the home only.

**Active Ingredient:**

Lambda-cyhalothrin ..... 0.5%

Other Ingredients: ..... 99.5%

Total: ..... 100.0%

Contains 0.04 lbs. Lambda-cyhalothrin per gallon.

### KEEP OUT OF REACH OF CHILDREN CAUTION

[See attached [back panel] booklet for additional precautionary statements. **OR**  
Open for Precautionary Statements, First Aid and Complete Directions for Use.]

EPA Reg. No. 53883-197

EPA Est. No.

**NOTIFICATION**

53883-197

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

Net Contents \_\_\_\_\_

### PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

**CAUTION**

Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

**First Aid**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**If swallowed:**

- Call a Poison Control Center or doctor immediately for treatment advice.
- Have a person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a Poison Control Center or doctor.
- Do not give anything by mouth to an unconscious person.

**If in eyes:**

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

You may also contact SafetyCall® International (866) 897-8050 for emergency medical treatment information.

## ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish. Do not contaminate water when disposing of equipment washwaters. Do not apply directly to water. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

## RESTRICTIONS

- Do not apply as a broadcast application using a backpack sprayer on landscaping and turf.
- Do not apply to residential lawns and turf in residential settings (e.g. homes, parks, schools, athletic fields, or any other area frequented by the general public).
- Treat surfaces to ensure thorough coverage but avoid runoff.
- To treat insects harbored in voids and cracks-and-crevices, applications must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants.
- Do not allow children or pets into the treated area until dry.
- Do not apply when the wind speed is greater than 10mph.
- Do not treat pets with this product.
- Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.
- Spot treatments must not exceed two square feet in size (for example, 2 ft. by 1 ft. or 4 ft. by 0.5 ft.).
- All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
  1. Application to pervious surfaces such as soil, lawn, turf, and other vegetation;
  2. Perimeter band treatments of 7 feet wide or less from the base of a man-made structure to pervious surfaces (e.g., soil, mulch, or lawn);
  3. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure;
  4. Applications to vertical surfaces (such as the side of a man-made structure) directly above impervious surfaces (e.g., driveways, sidewalks, etc.), up to 2 feet above ground level;
  5. Applications to vertical surfaces directly above pervious surfaces, such as soil, lawn, turf, mulch or other vegetation) only if the pervious surface does not drain into ditches, storm drains, gutters, or surface waters.
- For soil or foliar applications, do not apply by ground within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries and commercial fish farm ponds.
- Do not apply the product into fish pools, ponds, streams, or lakes. Do not apply directly to sewers or storm drains, or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur.
- Do not allow the product to enter any drain during or after application.
- Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack-and-crevice treatment.
- Do not apply or irrigate to the point of runoff.

- Do not make applications during rain. Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours). Rainfall within 24 hours after application may cause unintended runoff of pesticide application.

**In New York State, this product may not be applied to lawns within 100 ft. of a coastal marsh, or stream that drains directly into a coastal marsh.**

#### **READ THE ENTIRE LABEL BEFORE USE.**

#### **PRODUCT INFORMATION**

Lambda 0.5% Concentrate kills ants, fleas, chinch bugs, centipedes, mosquitoes, fire ants, spiders and other listed insects.

#### **MIXING AND APPLICATION**

1. Apply as directed.
2. In a CLEAN sprayer, measure and mix the amount of product and water as stated in the tables below.
3. When handling pesticide products, wear chemical resistant gloves made of barrier laminate, butyl rubber  $\geq 14$  mils, nitrile rubber  $\geq 14$  mils, neoprene rubber  $\geq 14$  mils, natural rubber  $\geq 14$  mils, polyethylene, polyvinyl chloride (PVC)  $\geq 14$  mils, and viton  $\geq 14$  mils. Do not use kitchen utensils such as measuring cups and spoons for food purposes after they have been used with pesticides.
4. Spray as directed to achieve complete coverage.
5. Flush sprayer with clean water following each use.

Treat when insects begin to appear and repeat treatment to maintain control only as directed. Apply as directed, keeping in mind that complete coverage is crucial. Make certain to follow the important use limitations such as, the amount of spray to apply and the PHI (Pre-Harvest Interval) for the particular vegetable you are treating.

#### **MEASUREMENT CONVERSIONS**

1 tablespoon = 3 teaspoons

1 fl. oz. = 6 teaspoons or 2 tablespoons

6 fl. oz. =  $\frac{3}{4}$  cup

1  $\frac{1}{2}$  tablespoons in 3 gallons of water = 1  $\frac{1}{2}$  teaspoons in 1 gallon of water

2 tablespoons in 3 gallons of water = 2 teaspoons in 1 gallon of water

**NOTE:** This product is non-staining to most home siding depending on age and cleanliness. Prior to applying this product to areas that may contact home siding (vinyl siding in particular), test in a hidden area and recheck in a few hours. If any staining is observed, do not use this product.

#### **PESTS OUTSIDE THE HOME**

Lambda 0.5% Concentrate is for use on ornamental plants next to building foundations and to perimeters and surfaces of buildings.

**BARRIER APPLICATION INSTRUCTIONS:** Treat when insects begin to appear and repeat treatment to maintain control as directed. Apply a continuous band of insecticide around the foundation of the building up to a maximum height of 2 ft to significantly decrease possible access by crawling pests. For optimum results, remove any leaf litter and debris around the foundation. Cut back any branches or vegetation that come into contact with the foundation. Rake back deep mulch and remove any other material that may serve as harborage sites for pests.

**Outdoor Surfaces Use**

Pests	Rate	Comments
Ants*(except for fire, pharaoh, harvester and carpenter ants) Centipedes Cockroaches Crickets Fleas Kudzu bugs Millipedes Mosquitoes Palmetto bugs Scorpions Sowbugs Pillbugs Spiders Waterbugs	Mix 0.5 fl. oz. (1 tablespoon) in 1 gallon of water to treat 250 sq. ft.	Apply a 3 ft. band around the building and upwards along the foundation to 2 feet . Apply as a coarse spray to thoroughly and uniformly wet the foundation and/or band area so that the insecticide will reach the soil or thatch level where pests may be active.  1 gallon will treat 250 sq. ft. of surface area.  Repeat treatment every 8 weeks (2 months) at the 2 fl. oz. per 1,000 sq. ft. rate as needed.
*Argentine, Southern, Field, Allegheny mound, Florida carpenter, Cornfield, Honey, Pavement, Nuisance, Odorous, Pyramid, Black turf, White-footed, Crazy, Little Black, Ghost, Thief, Acrobat, Citronella, Big-headed, Lasius.		

**Restrictions:**

- Do not apply more than 2 fl. oz (0.00063 lbs. Lambda-cyhalothrin) per 1,000 sq. ft. per application.
- Do not make more than 14 applications per year per location.

**FIRE ANT MOUNDS**

Mix 1.0 fl. oz. (2 tablespoons) in 1 gallon of water and thoroughly wet each mound and a 4 ft. diameter surrounding the mound. To achieve optimum results, treat in cool weather (65°-80°F), or in the early morning or late evening hours. Apply to new mounds as they appear and do not disrupt mounds before treatment. Kills the entire mound and the queen in 24 hours.

**[MOSQUITO CONTROL:**

**Application Instructions:** Measure the area to be sprayed and follow the mixing instructions in the tables below. Treat when insects begin to appear and repeat treatment to maintain control as directed. Apply as directed, keeping in mind that complete coverage is crucial.

**Outdoor Surfaces:** ornamental plants next to building foundations, buildings, screens. Mix 0.5 oz (1 tablespoon) in 1 gallon of water. Apply up to a 7 ft. band around the building and upwards along the foundation to 2 feet . Thoroughly and uniformly wet the foundation and/or band area so that the insecticide will reach the soil or thatch level where pests may be active. One gallon treats 250 square feet. Repeat treatments every 8 weeks (2 months).]

**ORNAMENTAL TREES, SHRUBS AND FLOWERS**

**APPLICATION INSTRUCTIONS:** Apply thoroughly as a foliar cover spray to both sides of plant leaves and all plant surfaces where insects are present. For optimum results, apply early prior to high insect populations. Repeat applications as directed to maintain control.

**NOTE:**

- For **Scale** control, treat the whole plant, including the stem, trunks, and twigs.
- For **Bagworm** control, apply when bagworm larvae start to hatch.

Use Sites	Rate	Insects Controlled
For use on ornamental trees, shrubs and flowers: Ageratum, Ash, Aster, Arborvitae, Arizona Cypress, Azaleas, Begonia, Birch, Boxwood, Box Elder, Camellias, Cherry (ornamental), Non-bearing Citrus, Chrysanthemums, Carnations, Coleus, Common Ninebark, Conifers, Douglas Fir, Elm, English Ivy, Euonymus, Exacum, Weeping Fig, Fir, Gladioli, Gold Bells, Hawthorn, Holly, Honeysuckle, Hypoestes, Ivy, Juniper, Lilac, Locust, Maple, Marigold, Mimosa, Mock Orange, Nannyberry, Oak, Orchid, Palm, Pansy, Pea Shrub, Petunia, Philodendron, Pine, Ornamental Plum, Poinsettia, Poplar, Tulip Poplar, Rhododendron, Roses, Snapdragon, Snowberry, Spruce, Taxus, Willow, Zinnia.	Mix 0.25 fl. oz. (1/2 tablespoon) in 1 gallon of water to treat 250 sq. ft.	Ants*, Armyworms, Aphids <sup>b</sup> , Azalea caterpillar, Bagworms, Black vine weevil (Adult), California oakworm, Boxelder bugs, Budworms, Cankerworms, Cicadas, Cockroaches, Crickets, Cutworms, Eastern tent caterpillar, Elm leaf beetles, European sawfly, Fall webworm, Flea beetles, Forest tent caterpillar, Gypsy moth larvae, Japanese beetles (Adults), June beetles (Adults), Lace bugs, Ladybeetles, Leaf feeding caterpillars, Leafhoppers, Leafminers (Adults), Leaf rollers, Leaf skeletonizers, Kudzu bugs, Midges, Moths, Oleander moth larvae, Pillbug, Pine sawfly, Pine shoot beetles, Pinetip moths, Root weevil, Sawfly, Scale insects (crawlers), Spiders, Spittlebugs, Striped beetles, Striped oakworm, Thrips, Tip moth, Tussock moth larvae
	Mix 0.5 fl. oz. (1 tablespoon) in 1 gallon of water to treat 250 sq. ft..	Broadmites, Brown softscale, California redscale (crawler), Clover mites, Mealybugs, Pineneedle scale (crawler), Spider mites, Whiteflies
* Allegheny mound, Argentine, Black carpenter, Cornfield, Field, Florida carpenter, Harvester, Honey, Pavement, Southern, Sugar, Nuisance, Odorous, Pyramid, Black turf, White-footed, Crazy, Little Black, Ghost, Thief, Acrobat, Citronella, Big-headed, Lasius.		

**Restrictions:**

- Do not apply more than 4 fl. oz (0.00063 lbs. Lambda-cyhalothrin) per 1,000 sq. ft. per application.
- Do not make more than 14 applications per year per location at 2 fl. oz per 1,000 sq. ft. rate.
- Do not make more than 7 applications per year per location at 4 fl. oz per 1,000 sq. ft. rate.

## VEGETABLES

**APPLICATION INSTRUCTIONS:** Apply when insects first appear or when damage occurs. For complete coverage, spray all plant surfaces that are infested with pests. Follow the important use limitations such as, the amount of spray to apply and the PHI (Pre-Harvest Interval) for the particular vegetable you are treating.

**RATE:** Measure the area to be sprayed. Mix 0.5 fl. oz. (1 tablespoon) in 1 gallon of water per 300 sq. ft.

<b>Vegetables</b>	<b>Insects Controlled</b>	<b>PHI*</b>
Broccoli Brussels Sprouts Cabbage Cavalo Broccoli Cauliflower Chinese Broccoli Chinese Cabbage Chinese Mustard Kohlrabi	Alfalfa Looper, Aphid, Armyworm, Beet Armyworm, Cabbage Looper, Cabbage Webworm, Corn Earworm, Cutworm, Diamondback Moth, Fall Armyworm, Flea Beetle, Grasshopper, Imported Cabbageworm, Japanese Beetle (Adult), Leafhopper, Lygus Bug, Meadow Spittlebug, Plant Bug, Southern Cabbageworm, Spider Mite, Stink Bug, Thrips, Yellow-striped Armyworm, Whitefly	1
Corn (sweet and pop)	Armyworm, Bean Leaf Beetle, Beet Armyworm, Cereal Leaf Beetle, Chinch Bug, Corn Earworm, Corn Leaf Aphid, Cutworm, English Grain Aphid, European Corn Borer, Grasshopper, Green Bug, Green Cloverworm, Hop Vine Borer, Japanese Beetle (Adult), Meadow Spittlebug, Mexican Corn Rootworm Beetle (Adult), Northern Corn Rootworm Beetle (Adult), Sap Beetle (Adult), Southern Corn Rootworm Beetle (Adult), Southwestern Corn Borer, Stalk Borer, Stink Bug, Tobacco Budworm, Western Bean Cutworm, Western Corn Rootworm Beetle (Adult)	21
Corn (sweet only)	Aphid, Aster Leafhopper, Corn Silkfly (Adult), Southern Armyworm, Spider Mite, Tarnished Plant Bug, Western Bean Cutworm	21
Lettuce (head and leaf)	Aphid, Alfalfa Looper, Armyworm, Beet Armyworm, Cabbage Looper, Corn Earworm, Cutworm, Diamondback Moth, European Corn Borer, Fall Armyworm, Flea Beetle, Grasshopper, Green Cloverworm, Imported Cabbageworm, Japanese Beetle (Adult), Leafhopper, Meadow Spittlebug, Plant Bug, Saltmarsh Caterpillar, Southern Armyworm, Spider Mite, Stink Bug, Tobacco Budworm, Vegetable Weevil (Adult), Whitefly	1

Tomato and Tomatillo	Aphid, Beet Armyworm, Cabbage Looper, Colorado Potato Beetle, Cutworm spp., European Corn Borer, Fall Armyworm, Flea Beetle, Grasshopper, Hornworm, Leafhopper, Leafminer, Meadow Spittlebug, Plant Bug, Southern Armyworm, Stink Bug, Tobacco Budworm, Tomato Fruitworm, Tomato Pinworm, Yellow-striped Armyworm, Whitefly	5

\* PHI = Pre-Harvest Interval. Number of days to wait between the last application and harvest.

**Restrictions:**

- Do not apply more than 1.67 fl. oz (0.00053 lbs. Lambda-cyhalothrin) per 1,000 sq. ft. per application.
- Do not make more than 9 applicatoins per year per location.
- Do not make more than 5 applications per year per location for corn.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in cool, dry area away from children and domestic animals.

**CONTAINER HANDLING: If empty:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. If recycling is not available: then dispose of container in a sanitary landfill. **If partly filled:** Call your local solid waste agency for disposal instructions. Unless otherwise instructed, place in trash. Never pour unused product down the drain or on the ground.

**LIMITATION OF WARRANTY AND LIABILITY**

The Directions for Use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather, presence of other materials or other influencing factors in the use of the product, which are beyond the control of Control Solutions, Inc. or Seller. To the extent consistent with applicable law, all such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Control Solutions, Inc. and Seller harmless for any claims relating to such factors.

Control Solutions, Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to or beyond the control of Seller or Control Solutions, Inc., and Buyer and User assume the risk of any such use. To the extent permitted by applicable law, **CONTROL SOLUTIONS, INC. MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.**

**IT IS CONTROL SOLUTIONS INC., AND SELLERS INTENTION THAT** in no event shall Control Solutions or Seller be liable for any incidental, consequential or special damages resulting from the use or handling of this product. **TO THE EXTENT CONSISTENT WITH APPLICABLE LAW THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF CONTROL SOLUTIONS, INC., AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF CONTROL SOLUTIONS, INC. OR SELLER, THE REPLACEMENT OF THE PRODUCT.**

Control Solutions, Inc. and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitation of Warranty and Liability, which may not be modified except by written agreement signed by a duly authorized representative of Control Solutions, Inc.

Control Solutions, Inc.  
5903 Genoa-Red Bluff Road

**Net Contents** \_\_\_\_\_

**PRECAUTIONARY STATEMENTS  
Hazards to Humans and Domestic Animals**

**CAUTION**

Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

First Aid	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
<b>If swallowed:</b>	<ul style="list-style-type: none"><li>• Call a Poison Control Center or doctor immediately for treatment advice.</li><li>• Have a person sip a glass of water if able to swallow.</li><li>• Do not induce vomiting unless told to do so by a Poison Control Center or doctor.</li><li>• Do not give anything by mouth to an unconscious person.</li></ul>
<b>If in eyes:</b>	<ul style="list-style-type: none"><li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li><li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
You may also contact SafetyCall® International (866) 897-8050 for emergency medical treatment information.	

## **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

## **ENVIRONMENTAL HAZARDS**

This product is extremely toxic to fish. Do not contaminate water when disposing of equipment washwaters. Do not apply directly to water. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

## **PRODUCT INFORMATION**

This product provides control against listed backyard nuisance pests: mosquitoes, ants, cockroaches, fleas, [and other listed pests]. Simply connect to hose and spray for 8 weeks protection.

### **RESTRICTIONS:**

- Do not apply as a broadcast application using a backpack sprayer on landscaping and turf.
- Do not apply to residential lawns and turf in residential settings (e.g. homes, parks, schools, athletic fields, or any other area frequented by the general public).
- Treat surfaces to ensure thorough coverage but avoid runoff.
- To treat insects harbored in voids and cracks-and-crevices, applications must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants.
- Do not allow children or pets into the treated area until dry.
- Do not apply when the wind speed is greater than 10mph. Do not apply to residential lawns and turf in residential settings (e.g. homes, parks, schools, athletic fields, or any other area frequented by the general public).
- Do not treat pets with this product.
- Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.
- Spot treatments must not exceed two square feet in size (for example, 2 ft. by 1 ft. or 4 ft. by 0.5 ft.).
- All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
  1. Application to pervious surfaces such as soil, lawn, turf, and other vegetation;
  2. Perimeter band treatments of 7 feet wide or less from the base of a man-made structure to pervious surfaces (e.g., soil, mulch, or lawn);
  3. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure;
  4. Applications to vertical surfaces (such as the side of a man-made structure) directly above impervious surfaces (e.g., driveways, sidewalks, etc.), up to 2 feet above ground level;
  5. Applications to vertical surfaces directly above pervious surfaces, such as soil, lawn, turf, mulch or other vegetation) only if the pervious surface does not drain into ditches, storm drains, gutters, or surface waters.

- For soil or foliar applications, do not apply by ground within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries and commercial fish farm ponds.
- Do not apply the product into fish pools, ponds, streams, or lakes. Do not apply directly to sewers or storm drains, or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur.
- Do not allow the product to enter any drain during or after application.
- Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack-and-crevice treatment.
- Do not apply or irrigate to the point of runoff.
- Do not make applications during rain. Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours). Rainfall within 24 hours after application may cause unintended runoff of pesticide application.

**In New York State, this product may not be applied to lawns within 100 ft. of a coastal marsh, or stream that drains directly into a coastal marsh.**

### **APPLICATION INSTRUCTIONS**

Determine the area to be treated. For trees, shrubs and flowers, apply as a thorough cover spray. Treat when insects begin to appear and repeat treatment to maintain control only as directed. Apply as directed, keeping in mind that complete coverage is crucial. Follow the important use limitations such as, the amount of spray to apply and the PHI (Pre-Harvest Interval) for the particular vegetable you are treating.

- One quart (32 oz.) (0.01 lbs. Lambda-cyhalothrin) to treat up to 8,000-16,000 sq. ft.
- Do not make more than 7 applications per year per location at the one quart (32 oz.) per 8,000 sq. ft. rate
- Do not make more than 14 applications per year per location at the one quart (32 oz.) per 16,000 sq. ft. rate

### **Ready Spray Nozzle Instructions**

1. Shake container well before use.
2. Connect the Ready to Spray nozzle to a hose, making sure that the dial on the nozzle is in the "OFF" position with the (green) safety tab in the valve notch.
3. Turn on water. Begin treatment on the furthest area and work back toward the faucet so that you do not come in contact with treated areas.
4. To START spraying, direct nozzle toward treatment area and bend the (green) safety tab back (located at the right of the yellow dial) and hold while turning the yellow dial counter clockwise until it stops. Water will automatically mix with the product.
5. Spray desired area until wet to control insect pests. Evenly spray the area by walking at a steady pace and sweep evenly, slightly overlapping treated areas.
6. To STOP spraying, turn the dial counter clockwise **quickly** until it stops and the safety tab engages into the notch on the valve. Turn the water off. To ease pressure before removing nozzle from the hose, bend the safety tab back and dial "ON" until water stops spraying.
7. Make sure the dial is in the "OFF" position with (green) safety tab in the valve notch to store unused product. Keep in a cool area away from heat, sunlight or open flame.

### **SPECIFIC USE DIRECTIONS**

<b>How to Use the Ready to Spray</b>	<ul style="list-style-type: none"> <li>• [Connect ] [Hose]</li> <li>• [1.] Shake Well.</li> <li>• [2.] Make sure control lever is in the OFF position. Attach to hose.</li> <li>• [3.] Turn on water. Extend hose to furthest place around perimeter or in</li> </ul>
--------------------------------------	---

	<p>garden, so you can work backwards and limit exposure to spray.</p> <ul style="list-style-type: none"> <li>• [Spray] [Apply mix]</li> <li>• [1.] Aim towards direction of application and away from you.</li> <li>• [2.] Turn control lever to ON to begin spraying.</li> <li>• [3.] Spray evenly and as directed for specified type of treatment area.] [ Garden ] [ trees][shrubs][flowers][perimeter]</li> <li>• [Finish] [Stop] [Store]</li> <li>• [1.] When finished turn control lever to OFF.</li> <li>• [2.] Turn faucet OFF. <b>APPLICATION INSTRUCTIONS</b>	<ul style="list-style-type: none"> <li>• Apply where insects are expected to appear or when insects or damage are seen. Repeat as necessary according to site-specific directions listed below.</li> <li>• Apply in calm weather.</li> <li>• Begin spraying at the farthest point of the treatment area and work backward to avoid contact with wet treated surfaces.</li> <li>• Spray thoroughly to wet plant surfaces up to the point of runoff.</li> <li>• Sprays must be dry in treated areas before people or pets re-enter.</li> <li>• Do not apply to trees taller than 10 feet. Consider hiring a licensed professional.</li> <li>• Follow the important use limitations such as, the amount of spray to apply and the PHI (Pre-Harvest Interval) for the particular vegetable you are treating.</li> <li>• Keep in a cool area away from heat, sunlight or open flame.</li> </ul>

{**NOTE TO REVIEWER:** Table above is optional and if used, will replace the text directly above. Final label will only contain either the box or the text above the box.}

**NOTE:** This product is non-staining to most home siding depending on age and cleanliness. Prior to applying this product to areas that may contact home siding (vinyl siding in particular), test in a hidden area and recheck in a few hours. If any staining is observed, do not use this product.

## PESTS OUTSIDE THE HOME

Lambda 0.5% Concentrate is for use on ornamental plants next to building foundations, to surfaces of buildings and screens.

**BARRIER APPLICATION INSTRUCTIONS:** Treat when insects begin to appear and repeat treatment to maintain control as directed. Apply a continuous band of insecticide around the foundation of the building and to a maximum height of 2 ft. to significantly decrease possible access by crawling pests. For optimum results, remove any leaf litter and debris around the foundation. Cut back any branches or vegetation that come into contact with the foundation. Rake back deep mulch and remove any other material that may serve as harborage sites for pests.

### Outdoor Surfaces Use

Pests	Comments
Ants*(excluding fire, pharaoh, harvester, and carpenter ants) Centipedes Cockroaches Crickets	<p>Apply a 3 ft. band around the building and upwards along the foundation to 2 feet. Apply as a coarse spray to thoroughly and uniformly wet the foundation and/or band area so that the insecticide will reach the soil or thatch level where pests may be active.</p> <p>32 ounces (1 bottle) treats 16,000 sq. ft.</p>

Fleas Millipedes Mosquitoes Palmetto bugs Scorpions Sowbugs Pillbugs Spiders Waterbugs	Repeat treatment every 8 weeks (2 months).
*Argentine, Southern, Field, Allegheny mound, Florida carpenter, Conrfield, Honey, Pavement, Nuisance,odorous, pyramid, black turf, white-footed, Crazy, Little Black, Ghost, Thief, Acrobat, Citronella, Big-headed, Lasius.	

**Restrictions:**

- Do not make more than 14 applications per year per location at the 1 quart (32 fl. oz.). per 16,000 sq. ft. rate.

**FIRE ANT MOUNDS**

Thoroughly wet each mound and a 4 ft. diameter surrounding the mound. To achieve optimum results, treat in cool weather (65°-80°F), or in the early morning or late evening hours. Apply to new mounds as they appear and do not disrupt mounds before treatment. Kills the entire mound and the queen in 24 hours.

- **Restrictions:**Do not make more than 14 applications per year per location at the one quart (32 oz.) per 16,000 sq. ft. rate

**[MOSQUITO CONTROL:**

**Application Instructions:** Measure the area to be sprayed. Treat when insects begin to appear and repeat treatment to maintain control as directed. Apply as directed, keeping in mind that complete coverage is crucial.

**Restrictions:**

- Do not make more than 14 applications per year per location at the one quart (32 oz.) per 16,000 sq. ft. rate

**Outdoor Surfaces:** ornamental plants next to building foundations, buildings, screens. Apply a 3 ft. band around the building and upwards along the foundation to 2 feet. Thoroughly and uniformly wet the foundation and/or band area so that the insecticide will reach the soil or thatch level where pests may be active. Repeat treatments every 8 weeks (2 months).]

## ORNAMENTAL TREES, SHRUBS AND FLOWERS

**APPLICATION INSTRUCTIONS:** Apply thoroughly as a foliar cover spray to both sides of plant leaves and all plant surfaces where insects are present. Penetrate dense foliage. Wet leaves and branches to the point of runoff. For optimum results, apply early prior to high insect populations. Repeat applications as directed to maintain control.

**NOTE:**

- For **Scale** control, treat the whole plant, including the stem, trunks, and twigs.
- For **Bagworm** control, apply when bagworm larvae start to hatch.

Use Sites	Insects Controlled
For use on ornamental trees, shrubs and	Ants*(excluding fire, pharaoh, harvester and

flowers including:  Ageratum, Ash, Aster, Arborvitae, Arizona Cypress, Azaleas, Begonia, Birch, Boxwood, Box Elder, Camellias, Cherry (ornamental), Non-bearing Citrus, Chrysanthemums, Carnations, Coleus, Common Ninebark, Conifers, Douglas Fir, Elm, English Ivy, Euonymus, Exacum, Weeping Fig, Fir, Gladioli, Gold Bells, Hawthorn, Holly, Honeysuckle, Hypoestes, Ivy, Juniper, Lilac, Locust, Maple, Marigold, Mimosa, Mock Orange, Nannyberry, Oak, Orchid, Palm, Pansy, Pea Shrub, Petunia, Philodendron, Pine, Ornamental Plum, Poinsettia, Poplar, Tulip Poplar, Rhododendron, Roses, Snapdragon, Snowberry, Spruce, Taxus, Willow, Zinnia.	carpenter) , Armyworms, Aphids, Azalea caterpillar, Bagworms, Black vine weevil (Adult), California oakworm, Boxelder bugs, Budworms, Cankerworms, Cicadas, Cockroaches, Crickets, Cutworms, Eastern tent caterpillar, Elm leaf beetles, European sawfly, Fall webworm, Flea beetles, Forest tent caterpillar, Gypsy moth larvae, Japanese beetles (Adults), June beetles (Adults), Lace bugs, Ladybeetles, Leaf feeding caterpillars, Leafhoppers, Leafminers (Adults), Leaf rollers, Leaf skeletonizers, Kudzu bugs, Midges, Moths, Oleander moth larvae, Pillbug, Pine sawfly, Pine shoot beetles, Pinetip moths, Root weevil, Sawfly, Scale insects (crawlers), Spiders, Spittlebugs, Striped beetles, Striped oakworm, Thrips, Tip moth, Tussock moth larvae  Broadmites, Brown softscale, California redscale (crawler), Clover mites, Mealybugs, Pineneedle scale (crawler), Spider mites, Whiteflies
* Allegheny mound, Argentine, Black carpenter, Cornfield, Field, Florida carpenter, Harvester, Honey, Pavement, Southern, Sugar, Nuisance, Odorous, Pyramid, Black turf, White-footed, Crazy, Little Black, Ghost, Thief, Acrobat, Citronella, Big-headed, Lasius.	

**Restrictions:**

- One quart (32 oz.) (0.01 lbs. Lambda-cyhalothrin) to treat up to 8,000-16,000 sq. ft.
- Do not make more than 7 applications per year per location at the one quart (32 oz.) per 8,000 sq. ft. rate
- Do not make more than 14 applications per year per location at the one quart (32 oz.) per 16,000 sq. ft. rate

## VEGETABLES

**APPLICATION INSTRUCTIONS:** Apply when insects first appear or when damage occurs. For complete coverage, spray all plant surfaces that are infested with pests and penetrate dense foliage. Make certain to follow the important use limitations such as, the amount of spray to apply and the PHI (Pre-Harvest Interval) for the particular vegetable you are treating.

Vegetables	Insects Controlled	PHI*
Broccoli Brussels Sprouts Cabbage Cavalo Broccoli Cauliflower Chinese Broccoli Chinese Cabbage Chinese Mustard Kohlrabi	Alfalfa Looper, Aphid, Armyworm, Beet Armyworm, Cabbage Looper, Cabbage Webworm, Corn Earworm, Cutworm, Diamondback Moth, Fall Armyworm, Flea Beetle, Grasshopper, Imported Cabbageworm, Japanese Beetle (Adult), Leafhopper, Lygus Bug, Meadow Spittlebug, Plant Bug, Southern Cabbageworm, Spider Mite, Stink Bug, Thrips, Yellow-striped Armyworm, Whitefly	1

* PHI = Pre-Harvest Interval. Number of days to wait between the last application and harvest.]		

#### Restrictions:

- One quart (32 oz.) (0.01 lbs. Lambda-cyhalothrin) to treat up to 16,000 sq. ft.
- Do not make more than 9 applications per year per location for vegetable treatment
- Do not make more than 5 applications per year per location for corn

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in cool, dry area away from children and domestic animals.

**CONTAINER HANDLING: If empty:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. If recycling is not available: then dispose of container in a sanitary landfill. **If partly filled:** Call your local solid waste agency for disposal instructions. Unless otherwise instructed, place in trash. Never pour unused product down the drain or on the ground.

### LIMITATION OF WARRANTY AND LIABILITY

The Directions for Use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended

consequences may result because of such factors as manner of use or application, weather, presence of other materials or other influencing factors in the use of the product, which are beyond the control of Control Solutions, Inc. or Seller. To the extent consistent with applicable law, all such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Control Solutions, Inc. and Seller harmless for any claims relating to such factors.

Control Solutions, Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to or beyond the control of Seller or Control Solutions, Inc., and Buyer and User assume the risk of any such use. To the extent permitted by applicable law, **CONTROL SOLUTIONS, INC. MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.**

**IT IS CONTROL SOLUTIONS INC., AND SELLERS INTENTION THAT** in no event shall Control Solutions or Seller be liable for any incidental, consequential or special damages resulting from the use or handling of this product. **TO THE EXTENT CONSISTENT WITH APPLICABLE LAW THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF CONTROL SOLUTIONS, INC., AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF CONTROL SOLUTIONS, INC. OR SELLER, THE REPLACEMENT OF THE PRODUCT.**

Control Solutions, Inc. and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitation of Warranty and Liability, which may not be modified except by written agreement signed by a duly authorized representative of Control Solutions, Inc.

Control Solutions, Inc.

189. Leafhoppers - Variegated larvae
190. Leafhoppers - Virginia creeper
191. Leafhoppers - Western grape
192. Leafhoppers - Whitebanded elm
193. Leafminer (Adult)
194. Leafminers (Adults) - Alder
195. Leafminers (Adults) - Boxwood
196. Leafminers (Adults) - Corn blotch
197. Leafminers (Adults) - Holly
198. Leafminers (Adults) - Oak
199. Leafminers (Adults) - Spruce needle
200. Leafminers (Adults) - Tentiform
201. Leafminers (Adults) - Vegetable
202. Leafrollers - Oblique banded
203. Leafrollers - Red-banded
204. Leafrollers - Variegated
205. Lesser Peach Tree Borer
206. Lygus Bug
207. Meadow Spittlebug
208. Mealybugs
209. Mealybugs – Citrus
210. Mealybugs – Comstock
211. Mealybugs – Grape (crawlers)
212. Mealybugs – Hawthorne
213. Mealybugs – Longtailed
214. Mealybugs – Madiera
215. Mealybugs - Maple
216. Mealybugs - Obscure

- 217. Mexican Corn Rootworm Beetle (Adult)
- 218. Midges
- 219. Millipedes
- 220. Millipedes - Almond
- 221. Millipedes – Flat
- 222. Millipedes – Florida
- 223. Millipedes – North American
- 224. Millipedes - Soft
- 225. Mites - Banks grass
- 226. Mites – Broad
- 227. Mites - carmine
- 228. Mites - European
- 229. Mites - Grain
- 230. Mites - Pacific
- 231. Mites – Pecan Leaf Scorch
- 232. Mites – Pecan Scorch
- 233. Mites - Russet
- 234. Mites - Spruce
- 235. Mites – Spider
- 236. Mites – Two-Spotted Spider
- 237. Moths
- 238. Moths – Abrupt Epiblema
- 239. Moths – Alligator Weed Stem Borer
- 240. Moths - Arch
- 241. Moths - Artichoke plume
- 242. Moths – Aster-head Phaneta
- 243. Moths – Bald Cypress Coneworm
- 244. Moths – Banded Sunflower
- 245. Moths – Bidens Borer
- 246. Moths – Black Dash Epinotia
- 247. Moths – Black-Blotched Bactra
- 248. Moths – Black Bordered Lemon
- 249. Moths – Black-headed Birch Leaf folder
- 250. Moths – Bougainvillea Caterpillar
- 251. Moths – Broad-patch Carolella
- 252. Moths – Buff-tipped Phaneta
- 253. Moths – Cactus
- 254. Moths – Carmine Snout
- 255. Moths – Catkinworm
- 256. Moths – Clover Hayworm
- 257. Moths – Codling
- 258. Moths – Constricted Sonia
- 259. Moths – Corn Earworm
- 260. Moths – Crescent-Winged Caudellia
- 261. Moths – Dagger
- 262. Moths – Dame's Rocket
- 263. Moths – Darker Moodna
- 264. Moths – Delightful Bird Dropping
- 265. Moths – Diamondback
- 266. Moths – Dotted Ecdytolopha
- 267. Moths – Eublemmine
- 268. Moths – Evergreen Coneworm
- 269. Moths – Exposed Bird Cropping
- 270. Moths – Eye-spotted
- 271. Moths – Filbertworm
- 272. Moths – Fingered Dagger

- 273. Moths – Four-spotted Bird-Dropping
- 274. Moths – Fruit-tree Leafroller
- 275. Moths – Fruitworm
- 276. Moths – Goldenrod Gall Moth
- 277. Moths – Grape Berry
- 278. Moths – Grape leafroller
- 279. Moths – Gray Dagger
- 280. Moths – Gray Half Spot
- 281. Moths – Green Leuconycta
- 282. Moths - Gypsy
- 283. Moths – Half Yellow
- 284. Moths – Hickory Leafroller
- 285. Moths – Hickory Shuckworm
- 286. Moths – Hyenines
- 287. Moths – Hyenodine
- 288. Moths – Iris Borer
- 289. Moths – Jack Pine Budworm
- 290. Moths – Kimball's Leafroller
- 291. Moths – Labyrinth
- 292. Moths – Lacuna
- 293. Moths – Lantana Leaf-tier
- 294. Moths – Lantana
- 295. Moths – Lesser Loblolly Pineconeworm
- 296. Moths – Locust Leafroller
- 297. Moths – Locust Twig Borer
- 298. Moths – Macrame
- 299. Moths – Maple Bud Borer
- 300. Moths – Maple Tip Borer
- 301. Moths – Maple Webworm
- 302. Moths – Maple Basswood Leafroller
- 303. Moths – Marbled-Green Leuconycta
- 304. Moths – Nantucket Pine Tip
- 305. Moths – Oak Leafroller
- 306. Moths – Oak Leaf-tier
- 307. Moths – Oriental
- 308. Moths – Pale Glyph
- 309. Moths – Palm Bud
- 310. Moths – Pecan Bud
- 311. Moths – Pine Tube
- 312. Moths – Sallow
- 313. Moths – Sculptured
- 314. Moths – Sunflower
- 315. Moths – Sunflower Bud
- 316. Moths – Tip
- 317. Moths -Verbena
- 318. Moths - Waterlily
- 319. Moths – Wedgling
- 320. Moths – Yellow Headed Cutworm
- 321. Moths - Zimmerman pine
- 322. Northern Corn Rootworm Beetle (Adult)
- 323. Oleander moth larvae
- 324. Onion Maggot (Adult)
- 325. Onion Thrips
- 326. Palmetto bugs
- 327. Peach Tree Borer
- 328. Peach Twig Borer

- 329. Pillbug
- 330. Pine sawfly
- 331. Pine shoot beetles
- 332. Pinetip moths
- 333. Root weevil
- 334. Saltmarsh Caterpillar
- 335. Sap Beetle (Adult)
- 336. Sawflies
- 337. Sawflies – European
- 338. Sawflies – European Pine
- 339. Sawflies – Redheaded
- 340. Sawflies – Redheaded Pine
- 341. Scale insects (crawlers)
- 342. Scales – Beech
- 343. Scales – Black
- 344. Scales - Calico
- 345. Scales – California Red
- 346. Scales – Cottony Cushion
- 347. Scales – Cottony Maple
- 348. Scales – European Elm
- 349. Scales – Euonymous
- 350. Scales – Fletcher
- 351. Scales - Hemispherical
- 352. Scales - Magnolia
- 353. Scales – Pine needle/Crawlers
- 354. Scales – San Jose
- 355. Scales – Brown Soft
- 356. Seedcorn Maggot (Adult)
- 357. Southern Armyworm
- 358. Southern Cabbageworm
- 359. Southern Corn Rootworm Beetle (Adult)
- 360. Southwestern Corn Borer
- 361. Sowbugs
- 362. Soybean looper
- 363. Spiders – American House
- 364. Spiders – Ant mimic
- 365. Spiders – Barn
- 366. Spiders – Black and Yellow Argiope
- 367. Spiders – Bola
- 368. Spiders – Branch yip
- 369. Spiders – Brown Daddy Long Legs
- 370. Spiders – Brownish Grey Fishing
- 371. Spiders – Burrowing Wolf
- 372. Spiders – California Trapdoor
- 373. Spiders – Carolina Wolf
- 374. Spiders – Crablike Spiny Orb Weaver
- 375. Spiders – Daddy Long Legs
- 376. Spiders – Daring Jumping
- 377. Spiders – Desert Loxosceles
- 378. Spiders – Desert Tarantula
- 379. Spiders – Dimorphic Jumping Spider
- 380. Spiders – Eastern Daddy Long Legs
- 381. Spiders – Elegant Crab
- 382. Spiders – Elongate Long- Jawed Orb Weavers
- 383. Spiders – Forest Wolf
- 384. Spiders – Garden (Cross)

- 385. Spiders – Golden Huntsman
- 386. Spiders – Goldenrod
- 387. Spiders – Golden-silk (Calico)
- 388. Spiders – Grass
- 389. Spiders – Green Lynx
- 390. Spiders – Green Lyssomanes
- 391. Spiders - Hammock
- 392. Spiders – Huntsman
- 393. Spiders – Inconspicuous Crab
- 394. Spiders – Jumping
- 395. Spiders – Jumping Lynx
- 396. Spiders – Long-jawed Orb Weaver
- 397. Spiders – Mabel Orchard
- 398. Spiders – Marbled Orb Weaver
- 399. Spiders – Metaphid Jumping
- 400. Spiders – Nursery Web
- 401. Spiders – Orb Weavers
- 402. Spiders – Rabid Wolf
- 403. Spiders – Red spotted Crab
- 404. Spiders – Selenopid Crab
- 405. Spiders – Shamrock
- 406. Spiders – Silver Argiope
- 407. Spiders – Six Spotted Fishing
- 408. Spiders – Six Spotted Orb Weaver
- 409. Spiders – Spitting
- 410. Spiders -Thin legged Wolf Spider
- 411. Spiders – Thrice banded Crab
- 412. Spiders – Turret
- 413. Spiders – Venusta Orchard
- 414. Spiders - Wandering
- 415. Squash Stalk Borer
- 416. Squash Vine Borer
- 417. Spittlebugs
- 418. Stalk Borer
- 419. Stink Bug
- 420. Stink Bug – Green
- 421. Stink Bug – Two spotted
- 422. Striped beetles
- 423. Striped oakworm
  
- 424. Tarnished Plant Bug
- 425. Thrips
- 426. Thrips-Grape Thrips
- 427. Thrips-Grass Thrips
- 428. Thrips-Greenhouse Thrips
- 429. Thrips-Introduced Basswood Thrips
- 430. Thrips-Iris Thrips
- 431. Thrips-Lily Bulb Thrips
- 432. Thrips-Melon Thrips
- 433. Thrips-Mullein Thrips
- 434. Thrips-Pear Thrips
- 435. Thrips-Privet Thrips
- 436. Thrips-Redbanded Thrips
