DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Restrictions:

- In New York State, this product may not be applied to any grass or turf area within 100 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch).
- In New York State, do make a single repeat application of Fire Ant Killer if there are signs of renewed insect activity, but not sooner than two (2) weeks after the first application.

WHERE TO USE

Fire Ant Killer is for use to kill Fire Ants (including Argentine, Odorous, Pyramid, Pavement, and Red Harvester) on residential lawns only. Applications may be made as broadcast or as individual mound treatments.

FOR MOUND TREATMENT

HOW TO USE

Make applications in the early morning or late evening hours when it is cool and the ants are most active. Apply when temperatures are between 65° and 80° F.

HOW TO APPLY

Treat mound and an area 4 ft. in diameter around the mound. Apply ½ cup of Fire Ant Killer over each fire ant mound. Irrigate the soil before application if it is dry. After application, apply 1 to 2 gallons of water over each mound.

NOTE: Food utensils such as teaspoons and measuring cups must not be used for food purposes after use with pesticides.

FOR BROADCAST TREATMENT

HOW TO USE

Apply during the morning or late evening when it is cool and the ants are most active. Treat the entire lawn area to prevent reinfestation of fire ants from neighboring areas. For best control of foraging workers and newly mated fly-in queens, use both broadcast applications and mound treatments that will kill existing colonies.

HOW TO APPLY

Apply uniformly over your lawn using the suggested spreader settings. Water lawn after application to wash granules from the lawn foliage. Irrigate the soil before application if it is dry.

NOTE: People and pets may enter treated areas after granules have been watered in and the treated area has dried.

SPREADER SETTINGS

Mow lawn first for best results.

| Spreader Model | Spreader Settings Covers 5,000 sq. ft. | Application Instructions |
|---|---|---|
| Drop Spreaders [optional list of additional models here] | [available at printing] | Apply granules with spreader going in the same direction as the longest part of the lawn. Apply two (2) header strips first. To ensure thorough coverage, make sure to overlap wheel marks. Shutoff the spreader when finished or when the header strips have been |
| EasyGreen® Rotary [optional list of additional models here] | [available at printing] | reached. Spreader stops and starts automatically (slide shut-off lever on the right side). To ensure thorough coverage, space each pass approximately 30 inches from the one previous. |
| SpeedyGreen® Rotary [optional list of additional models here] | [available at printing] | To ensure thorough coverage, space each pass approximately 5 feet from the one previous. Shut off spreader when stopped or finished. Do not apply this product on vegetables. |

[Optional additional Spreader Settings:

EZDrop, Republic (#530)------(X) EZBroadcast, Republic (#540)------(X) Scotts® Handy Green® II ------(X) Scotts® EasyTM Hand Held Spreader ------(X) ORTHO® Whirlybird® Multipurpose Spreader -----(X) List of any additional spreader models and settings]

NOTE: Spreader settings are approximate. You may need to adjust for proper coverage.

[Optional illustrations for spreader application patterns]

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through the skin. Avoid contact with skin, eyes or clothing.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 -20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Note to Physician: This product is a pyrethroid. If large amounts have been ingested, milk, cream and other digestible fats and oils may increase absorption and so should be avoided.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in original bags/containers only. Store in a cool, dry place and avoid excess heat. Carefully open bags/containers. After partial use close tightly. **Container Disposal:** If empty: Do not reuse this bag/container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Emergency Assistance Call: [ENTER PHONE NUMBER]

NOTICE: Buyer assumes all risks of use, storage or handling of this product not in accordance with directions.
