Subject: PRIA Label Amendment – Addition of Carpenter Ant Claims and Other Label Edits
Product Name: CSI 16-105 DELTA+TEKKO PRO AEROSOL
EPA Registration Number: 53883-415
Application Date: November 25, 2020
Decision Number: 568554

Dear Ms. Adamson:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is attached for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

EPA Reg. No. 53883-415
Decision No. 568554

with FIFRA section 6. If you have any questions, please contact David Gardner by phone at (703) 347-8599, or via email at gardner.david@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "David Gardner".

NOVALURON	GROUP	15	INSECTICIDE
DELTAMETHRIN	GROUP	3A	INSECTICIDE
PYRIPROXYFEN	GROUP	7C	INSECTICIDE

CSI 16-105 Delta + Tekko Pro Aerosol

[ABN: D-Fense NXT]

[Aerosol] [Insecticide] [For Indoor/Outdoor Use] [Contains Tekko Technology]
[Pressurized Solutions]

[KILLS: Ants Bees, Bed Bugs, Boxelder Bugs, Carpenter Ants, Carpenter Bees, Carpet Beetles [(Black and Varied)], Centipedes, Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Cockroaches, Confused Flour Beetles, Crickets, Drugstore Beetles, Earwigs, Elmleaf Beetles, Firebrats, Fleas, Flies, Fruit Flies, Gnats, Grain Mites, Granary Weevils, Ground Beetles, Hornets, House Flies, Indian Meal Moths, Lady Beetles, Lesser Grain Borers, Mediterranean Flour Moths, Midges, Millipedes, Mole Crickets, Mosquitoes, Mud Daubers, Odorous House Ants, Pavement Ants, Pillbugs, Red Flour Beetles, Rice Weevils, Saw-toothed Grain Beetles, Silverfish, Small Flying Moths, Sowbugs, Spiders, Spider Beetles, Springtails, Stink Bugs, Stored Product Pests, [Termites† (Subterranean, Formosan & Drywood),] Ticks, Tobacco Moths, Wasps, and Webbing Clothes Moths.]

FOR USE IN AND AROUND: Apartments, Campgrounds, Non-Food Storage Areas, Homes, Hospital†, Hotels, Motels, Nursing Homes†, Resorts, Restaurants and other Food Handling Establishments†, Schools, Supermarkets, Transportation Equipment (Buses, Boats, Ships, Trains, Trucks, [Planes†]), Utilities, Warehouses, and other Commercial and Industrial Buildings.

† See special instructions for these sites under Directions for Use.

ACTIVE INGREDIENTS:

Novaluron	0.20%
Deltamethrin	0.06%
Pyriproxyfen	0.02%
OTHER INGREDIENTS*:	<u>99.72%</u>
TOTAL:	100.00%

*Contains petroleum distillates

[FOR INTERNAL PURPOSES ONLY – NOT TO BE INCLUDED ON THE LABEL: 1 second of spray contains approximately 0.001 grams deltamethrin, 0.003 grams of Novaluron, and 0.0003 grams of Pyriproxyfen.]

KEEP OUT OF REACH OF CHILDREN

CAUTION

[Alternate text – all or in part: See [side] [back] panel(s) for First Aid, Precautionary Statements, Directions for Use and Storage and Disposal.]

FIRST AID	
IF ON SKIN:	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact SafetyCall® International for emergency medical treatment at (866) 897-8050.	
NOTE TO PHYSICIAN: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.	

[Note to label editor: Table format will be used if space allows for the first aid section; otherwise, paragraph format will be used.]

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms. Do not apply directly to any body of water. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. **Protect pollinating insects by following label directions intended to minimize drift and to reduce risk to these organisms.**

PHYSICAL AND CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Do not use in the vicinity of open flame or pilot lights. Do not apply to plastic, painted or varnished surfaces or directly into electronic equipment such as radios, TVs, computers, etc. Do not apply where electrical shock hazards exist.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

- Remove pets, birds, and cover fish aquariums before spraying.
- Test first for staining on an inconspicuous area prior to use.
- **DO NOT** spray up into air.

- [Remove protective cap and] [D][d]irect spray away from face.
- Hold can 12-15 inches from surface being sprayed.
- [Press button down and spray as directed.]
- For both indoor and outdoor uses.

RESISTANCE MANAGEMENT: For resistance management, please note that CSI 16-105 Delta + Tekko Pro Aerosol contains Group 15/Novaluron, Group 3A/Deltamethrin and Group 7C/ Pyriproxyfen insecticides/acaricides. Any insect/mite population may contain individuals naturally resistant to CSI 16-105 Delta + Tekko Pro Aerosol and other Group 15, Group 3A or Group 7C insecticides/ acaricides. The resistant individuals may dominate the insect/mite population if these insecticides/acaricides are used repeatedly in the same fields. Appropriate resistance-management strategies should be followed.

For further information or to report suspected resistance, contact Control Solutions, Inc. at 800-242-5562.

SPRAY DRIFT ADVISORIES: THE APPLICATOR IS RESPONSIBLE FOR AVOIDING OFF-SITE SPRAY DRIFT. BE AWARE OF NEARBY NON-TARGET SITES AND ENVIRONMENTAL CONDITIONS.

WIND: Avoid applications during gusty wind conditions.

HANDHELD TECHNOLOGY APPLICATIONS: Take precautions to minimize spray drift.

INDOOR RESIDENTIAL USES:

DO NOT allow to enter indoor or outdoor drains.

No permita la entrada a desagües internos o externos

† **IN HOSPITALS AND NURSING HOMES:** **DO NOT** apply this product in hospital or nursing home rooms while occupied. Patients should be removed from room prior to treatment. [Apply according to specific directions for pest(s) to be treated.] Room should be thoroughly ventilated after spraying. Do not return patients to room until after ventilation.

† **FOOD/FEED HANDLING ESTABLISHMENTS** (Places other than private residences in which food is held, processed, prepared or served. [Including areas for receiving, storing, packing (canning bottling, wrapping, boxing) preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) of food/feed. Serving areas where food/feed is exposed, and the facility is in operation.]: Cover or remove exposed food/feed from the treatment area prior to application. All food processing surfaces in the treated area should be covered during treatment or thoroughly washed before use. **DO NOT** apply directly to food or food handling surfaces. This product is for use in federally inspected meat and poultry plants, shell egg grading, and egg production plants as a crack and crevice treatment. Except in federally inspected meat and poultry plants, spot or crack and crevice applications may be made while the facility is in operation. [1

second spray per spot.] General surface applications must be used only when the facility is not in operation provided exposed food/feed and all food/feed processing and/or handling equipment has been covered or removed prior to application. After application in food/feed processing plants, cafeterias and similar facilities, wash all equipment, benches, shelving and other surfaces in the treated area which food/feed will contact.

Non-Food/Non-Feed Areas: Examples of non-food/non-feed areas include garbage rooms, lavatories, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, mop closets and storage (after packaging, canning or bottling). All areas that insects inhabit or through which insects may enter should be treated.

[† **PLANES: DO NOT** apply in aircraft cabins. **DO NOT** spray on plastic, painted, or varnished surfaces or directly into any electronic equipment such as radios, televisions, computers, etc. **DO NOT** use this product in electrical equipment (where there is exposed wiring or contact points) due to possibility of short circuits and shock hazard. Product should only be used when can temperature is above 60°F. If can temperature is below 60°F, store at room temperature until a temperature above 60°F is reached.

BED BUGS: Remove linens and wash before reuse. Take bed apart and treat cracks, joints and interior of framework. Treat mattresses and box springs; especially tufts, folds, and edges. Also treat picture frames, baseboards, moldings and all cracks and crevices in the room. Allow to dry before remaking bed. Do not use in patient rooms in hospitals and nursing homes for treatment of bed bugs while occupied by the patient, elderly or infirm. May be used in conjunction with a bed bug proof mattress encasement. [To treat furniture, such as couches and upholstered chairs, turn the piece upside down, lift the dust cover from the bottom and treat the interior frame.] To treat medical equipment, transport chairs and wheelchairs: Spray the seat, especially folds and edges, and allow to dry thoroughly before using. Additionally, apply the frame and any areas where bed bugs may hide. Always ensure that the equipment is thoroughly dry before using.

INDOOR/OUTDOOR

CRACK AND CREVICE APPLICATION: Use CSI 16-105 Delta + Tekko Pro Aerosol with supplied actuator and injection tubes. Inject CSI 16-105 Delta + Tekko Pro Aerosol into cracks and crevices [or void spaces] where insects may be harboring, living or breeding. Place injector tip into cracks, crevices, holes and other small openings. Apply product for one second. For light infestations move injector tip along cracks while treating at a rate of three linear feet per second. For heavy infestations move injector tip along at one linear foot per second. For wall and equipment voids calculate the void's cubic area and treat at the rate of five to ten seconds per three cubic feet. Several holes may be required in long-running voids.

SPOT AND VOID TREATMENT: For spot treatments, place actuator in down position. [Apply to storage areas, closets, around water pipes, doors and windows, behind and under refrigerators, cabinets, sinks, stoves and other equipment, shelves, drawers and similar areas. Contact as many insects as possible.] Hold actuator away from face and apply at the rate of 1 second per 2 sq. ft. For voids, place actuator in the up position, calculate the void's cubic area and treat at the rate of five to ten seconds per three cubic feet. Several holes may be required in long-running voids.

[**GENERAL SURFACE APPLICATION:** Apply to areas where insect activity is expected and crawling pests may be found. Hold actuator away from face and apply a light spray at the rate of 10 seconds per 100 sq. ft.]

[INDOOR TREATMENTS]

{Note to reviewer: the above heading will appear if any of the below pests are printed on the label}

[KILLS CRAWLING INSECTS (INCLUDING: ANTS, INCLUDING CARPENTER ANTS, BOOKLICE, CARPET BEETLES, CENTIPEDES, CLOVERMITES, CRICKETS, MILLIPEDES, ROACHES, SILVERFISH, SOWBUGS, SPRINGTAILS, AND SPIDERS): Apply as a crack and crevice treatment into cracks and crevices in all hiding places behind baseboards, sinks, cabinets, meter boxes, door frames, windows and closets. Apply as a spot treatment or general surface application to areas where insect activity is expected and crawling pests may be found. General surface applications are not intended to control ant colonies.]

[FLEAS AND TICKS ON SURFACES: [Remove pet bedding and destroy or clean thoroughly.] Treat pet resting quarters. Adult fleas and larvae contacted by applications will be killed. [Put fresh bedding down once spray has dried.] **DO NOT** spray animals directly. Hold product 36" above floor and direct toward floor and lower walls at a rate of 10 seconds per 100 sq. ft. making sure that all [floor (rugs and carpets), sofa and chair] surfaces are contacted. Treat adjacent cracks and crevices [such as behind baseboards and edges of carpet and floor covers]. Treat higher cracks [such as upper door jams and window framing, behind pictures and other areas] where females may crawl to lay eggs. Treatment may be repeated daily if necessary. Keep area closed for 15 minutes. Open and ventilate thoroughly before reoccupying. [The insect growth regulators in CSI 16-105 Delta + Tekko Pro Aerosol work for up to 7 months by inhibiting the development of the immature stages of the flea and preventing them from reaching the biting adult stage.] [For best results, pets should be treated with an appropriate product before allowing them to return to the treated area.] Reapply every 21 days if necessary.]

[STORED PRODUCT PESTS: FOR EXPOSED ADULT AND LARVAL STAGES OF CARPET BEETLES, CIGARETTE BEETLES, CONFUSED FLOUR BEETLES, DRUGSTORE BEETLES, GRAIN MITES, GRANARY WEEVILS, RED FLOUR BEETLES, RICE WEEVILS, AND SAWTOOTHED GRAIN BEETLES: Apply as a Crack and Crevice treatment into cracks and crevices of pantries, cabinets, food processing and handling equipment and other places where insects harbor. Apply around cartons, and containers, and other areas as where these insects tend to congregate. Infested stored products should be treated by other effective methods using an approved product intended for this purpose. Repeat application in 90 days.]

OUTDOOR TREATMENTS

RESTRICTIONS

- All outdoor spray applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
 1. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure;
 2. Applications around potential exterior pest entry points into man-made structures such as doorways and windows, when limited to a band not to exceed one inch;
 3. Applications to vertical surfaces (such as the side of a man-made structure) directly

above impervious surfaces (e.g., driveways, sidewalks, etc.), up to 2 feet above ground level;

- Spot treatments must **NOT** exceed two square feet in size.
- **DO NOT** spray the product into fish pools, ponds, streams, or lakes. Do not apply directly to sewers or storm drains, or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur.
- **DO NOT** allow the product to enter any drain during or after application.
- **DO NOT** apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack-and-crevice treatment.
- **DO NOT** apply or irrigate to the point of runoff.
- **DO NOT** make applications during rain. Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours).
- Rainfall within 24 hours after application may cause unintended runoff of pesticide application.
- Treat surfaces to ensure thorough coverage but avoid runoff.
- To treat insects harbored in voids and cracks-and-crevices, applications must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants.

OUTDOOR SITES AND [OUTSIDE] [EXTERIOR] SURFACES OF BUILDINGS: Treat foundations of building where insects are active and may find entrance up to a height of 2 feet. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. [Focus on areas such as screens, door frames window frames, eaves, porches, patios, picnic areas, garages and refuse dumps.] [Treat infested surfaces of patio or picnic areas, contacting as many insects as possible. Also, treat legs of tables and chairs to repel ants.] Apply as a residual application inside irrigation or water meter valve boxes. [**For ants:** Apply to ant trails, foundations, around doors and windows and other places where ants may be found. **For carpenter bees:** Following treatment, the entrance holes must be left open 24 hours to be certain that returning adult bees are killed. When there is no activity, the hole may be sealed with a suitable sealant. **For flying/stinging insects:** Make applications [to localized resting areas or] where these pests may rest or enter the structure. Reapply every 14 days.]

[KILLS ANTS, including Carpenter Ants: Apply to ant trails, foundations, around doors and windows and other places where ants may be found.] This product is meant to manage foraging ant workers. For colony level control the entire colony must be treated with a registered product approved for this use.

[FLYING AND STINGING INSECTS: Use only on outdoor surfaces. Treat outside surfaces of windows and door frames and other areas where these pests may enter the home. Also make applications onto localized resting areas, such as under eaves, porches, light fixtures and cords, railings, etc. where these insects may rest. Insects coming to rest on treated surfaces will be killed. Reapply every 14 days if necessary.]

[WOOD INFESTING INSECTS]

{Note to reviewer: the above heading will appear if any of the below pests are printed on the label}

[[CARPENTER ANTS, CARPENTERS BEES, AND TERMITES+ (SUBTERRANEAN, FORMOSAN AND DRYWOOD):] The following applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but merely a supplement for controlling active infestations of wood destroying insects including Subterranean, Formosan, and Drywood termites. This product is not recommended as sole protection against termites. [For active indoor termite infestations, get a professional inspection.] For control inside and outside of structures, apply as general surface, spot, crack and crevice or wall void application. To kill wood destroying insect infestations in localized above-ground areas of the structure, inject into galleries or voids in damaged wood, or into spaces between damaged wooden structural members. [Locate galleries by visual signs of wood destroying insect infestation through the use of mechanical sounding techniques.] Where necessary, penetrate the galleries or voids by drilling holes to receive the injector tip. Distribute drill holes to adequately treat the infestation. Applications must be made to inaccessible structure voids by drilling and then injecting into the infested void. Reapply if treated areas become disturbed but no sooner than 7 days after initial application.]

[For termites: The purposes of such applications is to kill workers or winged forms which may be present in the treatment areas at the time of application.]

[For carpenter bees: Following treatment, the entrance holes must be left open 24 hours to be certain that returning adult bees are killed. When there is no activity, the hole may be sealed with a suitable sealant.]

[Wood Destroying Insects Living Inside Trees, Utility Poles and Fences: Use CSI 16-105 Delta + Tekko Pro Aerosol as a spot treatment for control of above-ground termites inside trees, utility poles, fencing and decking materials and similar structural members. Wherever possible, locate an inferior infested cavity and inject in appropriate quantities. Repeat applications as needed to maintain control of re-infestations.]

[Aerial Termite Carton Nests in Trees: Termite carton nests in trees must be injected with CSI 16-105 Delta + Tekko Pro Aerosol using an injection applicator. Multiple injection points to varying depths may be necessary.]

Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Do not dispose of down-the-drain or sewer. Call your local solid waste agency for local disposal options.

STORAGE: Store upright at room temperature. Do not store near heat or open flame. Store in an area away from children and pets.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Do not puncture or incinerate! Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

[Optional Warranty Statement 1]

NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

LIMITATION OF WARRANTY AND LIABILITY

The Directions for Use of this product should be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather, presence of other materials or other influencing factors in the use of the product, which are beyond the control of Control Solutions, Inc. or Seller. To the extent consistent with applicable law, all such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Control Solutions, Inc. and Seller harmless for any claims relating to such factors.

Control Solutions, Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to or beyond the control of Seller or Control Solutions, Inc., to the extent consistent with applicable law, Buyer and User assume the risk of any such use. **TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, CONTROL SOLUTIONS, INC. MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.**

IT IS CONTROL SOLUTIONS INC., AND SELLERS INTENTION THAT TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, in no event shall Control Solutions or Seller be liable for any incidental, consequential or special damages resulting from the use or handling of this product. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF CONTROL SOLUTIONS, INC., AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF CONTROL SOLUTIONS, INC. OR SELLER, THE REPLACEMENT OF THE PRODUCT.

Control Solutions, Inc. and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitation of Warranty and Liability, which may not be modified except by written agreement signed by a duly authorized representative of Control Solutions, Inc.

[Optional Warranty Statement 2]

WARRANTY

Read the entire Directions for Use and Warranty before using this product. By using this product, user or buyer accepts the following warranty. The directions for use of this product are believed to adequate and must be followed carefully. It is impossible to eliminate all risks associated with the use of this product. Unintended consequences may result because of unknown factors. All such risks shall be assumed by the user or buyer. The seller is committed to providing high quality products. To the extent consistent with applicable law, the seller makes no warranties, express or implied, of merchantability or of fitness for a particular purpose or otherwise, that extend beyond statements

on this label. To the extent consistent with applicable law, the manufacturer or the seller shall not be liable for indirect, special, incidental or consequential damages. To the extent consistent with applicable law, the exclusive remedy of the user or buyer shall not exceed the purchase price paid.

[OPTIONAL MARKETING STATEMENTS]

General Statements

- CSI Pressurized Solutions
- [With] Tekko Inside
- [With] Tekko Technology
- For use on mattresses, furniture and carpets
- For use on mattresses [and] [&] box springs
- Safe for use on fabric, plastic [and][&] wood surfaces
- Dual mode of action
- Broad spectrum insecticide with 2 IGRs
- Contact kill [and][&] residual control
- For indoor/outdoor use
- Combination Chemistry™ [from Control Solutions][, Inc.]
- Residual insecticide
- Pressurized Combination Chemistry™ [from Control Solutions][, Inc.]
- Labeled for use in food areas of food handling establishments.
- Labeled for Spot and Crack and Crevice use in food-handling establishments.
- Contains adulticide and [two] [2] insect growth regulators [IGRs]
- Effective long-term control

Ant Claims

- Kills carpenter ant workers
- Dried deposits kill carpenter ant workers
- Controls carpenter ant workers
- Residual control of carpenter ant workers
- Effective long-term control of worker ants (excluding fire, pharaoh and harvester ants)

Bed Bug Claims

- Kills Bed Bugs
- Kills Bed Bugs in 30 seconds
- Prevents Bed Bug Eggs from Hatching
- Reduces 1st Instar Viability of Bed Bugs
- Kills bed bugs within 30 seconds, when directly sprayed
- Bed bug mortality in 30 seconds when directly sprayed

Flea Claims

- Inhibits re-infestation by fleas for up to 7 months.
- Kills pre-adult [larval] fleas, including eggs for up to [210 days] [30 weeks] [7 months]
- Stops [prevents] the flea from developing into egg laying adults.
- Inhibits re-infestation by fleas for up to [210 days] [30 weeks] [7 months]
- If adult fleas are introduced from untreated areas, their offspring will not become biting [reproductive] adult
- Disrupts the life cycle of fleas
- Two [2] applications per year, keep fleas under control
- Prevents larval fleas from developing into the biting adult stage
- Prevents [new] [tomorrow's] fleas from growing up to bite

Roach Claims

- [CSI 16-105 Delta + Tekko Pro Aerosol] [K][k]eeps working on cockroaches for up to [180 days] [26 weeks] [6 months]
- [Interrupts] [breaks] the life cycle of cockroaches
- Inhibits reinfestation by cockroaches for [180 days] [26 weeks] [6 months]
- Effectively controls [eliminates] cockroach populations by preventing reproduction [thereby eliminating future generations]
- Prevents [stops] [inhibits] nymphal cockroaches from becoming adults [breeding adults][reproductive adults] [egg laying adults]]
- [One treatment stops cockroaches from generating reproductive offspring for up to [180 days] [26 weeks] [6 months]]

Other Insect Claims

- **KILLS:** [Ants] [, Bees][, Bed Bugs][, Carpenter Ants][, Carpenter Bees][, Carpet Beetles (Black and Varied)][, Centipedes][, Chocolate Moths][, Cigarette Beetles][, Clover Mites][, Cluster Flies][, Cockroaches][, Confused Flour Beetles][, Crickets][, Drugstore Beetles][, Earwigs][, Elmleaf Beetles][, Firebrats][, Fleas][, Flies][, Fruit Flies][, Gnats][, Grain Mites][, Granary Weevils][, Ground Beetles][, Hornets][, House Flies][, Indian Meal Moths][, Lesser Grain Borers][, Mediterranean Flour Moths][, Midges][, Millipedes][, Mole Crickets][, Mosquitoes][, Mud Daubers][, Pillbugs][, Red Flour Beetles] [, Rice Weevils][, Saw-toothed Grain Beetles][, Silverfish][, Small Flying Moths][, Sowbugs][, Spiders][, Spider Beetles][, Termites+ (Subterranean, Formosan & Drywood)][, Ticks][, Tobacco Moths][, Wasps][, and Webbing Clothes Moths]
- Effective long-term control of Fleas, [Cockroaches] [Roaches], Flies, Mosquitoes, Gnats, [&] Crickets [& Worker Ants (excluding fire, pharaoh and harvester ants)]
- Reduces egg production in houseflies and prevents development of larvae into adults.
- Continuous protection against stored product pests for 3 months.
