DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. EMERGENCY DISINFECTION: When boiling water for one minute is not practical, water can be made potable by using this product. Prior to addition of the sanitizer, remove all suspended material by filtration or by allowing it to settle to the bottom. Decant the clarified, contaminated water to a clean container and add 1/10<sup>th</sup> gram or ¼ gram Redi Chlor Tablets in accordance with the dosage charts b below. Redi Chlor Tablets are scored and can be divided into halves or quarters. Allow the treated water to stand for 30 minutes. Properly treated water should have a slight chlorine odor. If a slight odor cannot be detected, repeat the same dose and allow the water to stand an additional 15 minutes. The treated water can then be made palatable by pouring it between clean containers several times.
