DEGUSSA CORPORATION - CHEMICAL DIVISION
Ridgefield Park, NEW JERSEY

Net Contents: 540 g. (1.19 lbs., 18 tubes)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For use as a remedial treatment in large structural timbers such as utility poles, piling, bridge timbers and laminated wood products. May be applied to areas of timbers where decay is suspected.

Large structural timbers have so many different end uses that the groundline area of 40" circumference standing poles is taken as a guide and example for application of this product.

For interior decay bore a pattern of holes about 2 1/2 times the radius of the wood in length at about a 45° angle downward. The first hole should be at the groundline and succeeding holes about 6"-12" higher and 90° rotated from the next lower hole.

1. Always open tin and tubes in the open area.
2. Have both the opening device and tube with active ingredient arm's reach.
3. Open tin carefully. Place opening device on top of the tube. Remove cap from tube.
4. Insert tube into pre-drilled hole. For poles, it is recommended that the open end of the tube be placed downwards. For other timbers, it may be appropriate to insert with the open end up. Plug hole with a tight fitting plug using the precautions of wearing safety goggles and gloves to prevent exposure to the product.
5. Repeat application procedure for each hole.

DOSAGE RATE: 1 tube (30 grams) per drill hole.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Fatal if inhaled or absorbed through skin. May be fatal if swallowed. Corrosive. Causes irreversible eye damage and skin burns. When applying in enclosed areas, wear a mask or pesticide respirator jointly approved by the Mining Enforcement and Safety Administration and the National Institute for Occupational Safety and Health. Wear goggles, safety glasses or face shield, protective clothing and rubber gloves. Wash thoroughly after handling before eating or smoking. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

3 } 2

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near an open flame.

STORAGE AND DISPOSAL

STORAGE

- Store only in closed original container to prevent leakage.
- Store only in cool, well-ventilated, locked areas, away from food and feed-stuff, out of reach of children and irresponsible persons.
- Avoid exposure to heat and/or direct sunlight.
- Do not drop container onto or slide across sharp objects.

CONTAINER DISPOSAL

- Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or by other approved state and local procedures.
- Do not reuse container for any purpose.

PESTICIDE DISPOSAL:

- Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
