US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 54310-4	DATE OF ISSUANCE MAR 30 1987
	TERM OF ISSUANCE	NAME OF PESTICIDE PRODUCT AQUACIDE 400
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)		
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)		
Gotham Technologies Corporation 10 Rugby Street Stanford, CA 94304		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:		
<ol style="list-style-type: none"> 1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data. 2. Add the phrase "EPA Registration No. 54310-4" to your label before you release the product for shipment. 3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-76 enclosure for a further description of final printed labeling. 		
If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 3(c). Your release for shipment of the product constitutes acceptance of these conditions.		
A stamped copy of the label is enclosed for your records.		
		 John H. Lee Product Manager (31) Disinfectants Branch Registration Division (TS-767C)

AQUACIDE 400

ACCEPTED
with COMMENTS
in EPA Letter Dated:

MAR 30 1987

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

54310-4

BEST AVAILABLE COPY

ACTIVE INGREDIENT:

2-(Thiocyanomethylthio)benzothiazole 30%

INERT INGREDIENTS 70%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Causes irreversible eye damage. Causes skin irritation. This product may cause allergic skin reactions. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

STATEMENT OF PRACTICAL TREATMENT: *If in eyes,* flush with plenty of water. Get medical attention. *If on skin,* wash with plenty of soap and water. Get medical attention. *If swallowed,* drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Get medical attention.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with labeling.

COOLING TOWERS: AQUACIDE 400
cooling tower wood against soft or surface rot and staining or painting a dispersion containing 0.5 to 0.7% in water onto the clean wood surfaces. The amount of AQUACIDE 400 per 100

gal. of water can also be inhibited by periodic shock doses of 0.6 to 0.7% to the recirculating cooling water at the tower base. Apply 1.25 lb. of AQUACIDE 400 per 100 gal. of water. Bleedoff should be stopped for 4 to 6 hr. after treatment. Repeat every four months.

COOLING WATER: AQUACIDE 400
bacteria, and fungi in industrial recirculating cooling water systems. When treatment has begun, the system should be cleaned thoroughly of slimes, scale, and other deposits. System should be treated with an initial dose of 0.6 to 3.7 fl. oz. of AQUACIDE 400 per 1000 gal. water in the system. Subsequent treatments should be made every 1 to 5 days and severity of microbiological fouling.

DRILLING FLUIDS: To inhibit bacterial and fungal degradation of wells, AQUACIDE 400 concentrations of 0.06 to 0.26% based on the total wet weight of the fluid. **PETROLEUM SECONDARY RECOVERY:** AQUACIDE 400 can be used to control sulfate-reducing bacteria, slime-forming bacteria, micellar floods, water-disposal systems, and other oil-field problems. Add 0.6 to 3.7 fl. oz. of AQUACIDE 400 per 1000 gal. of water. Control can be made continuously or intermittently by means of a metering pump before or after injection pumps and injection well headers. If the system is noticeably fouled, add 0.6 to 3.7 fl. oz. of AQUACIDE 400 per 1000 gal. of water continuously until desired degree of control is achieved.

CUTTING FLUIDS: AQUACIDE 400
fungal degradation of water-based and water-soluble cutting fluids in metalworking operations. It should be added to the cutting fluid at a rate of 0.6 to 3.7 fl. oz. of AQUACIDE 400 per 1000 gal. of water. Add to the concentrate before dilution at a rate of 125 times the required concentration in the diluted fluid.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **PESTICIDE STORAGE:** Do not expose to extreme temperatures. Drums should be opened in well-ventilated areas. Use in overpack drums for disposal. Spills should be absorbed and disposed of in a sanitary landfill.

PESTICIDE DISPOSAL: Pesticide wastes are acutely toxic. If you cannot dispose of them as a solid waste, a liquid pesticide, spray mixture, or rinseate is a violation of Federal law. For more information, contact your State or the Hazardous Waste representative at your EPA Regional Office.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and then puncture and dispose of in a sanitary landfill, or by other means approved by local authorities.
