Enclosure

Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. MAX QUAT - 12 is formulated for this problem area. It both cleans and disinfects effectively and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-contamination from environmental surfaces.

When used as directed, MAX QUAT - 12 will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and will inhibit the growth of mold and mildew and their odors when used as directed.

### Precautionary Statements
