Subject: Kleen Pool Algicide
EPA Registration No.: 54564-2
Application Date: April 5, 2007
Receipt Date: May 23, 2007

Dear Mr. Smith

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

Proposed Amendment

- Updated First Aid Statement in accordance with PR notice 2001.1.
- Updated Disposal directions in accordance with PR notice 2001.6.

General Comments

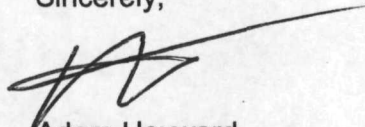

A stamped copy of the accepted labeling is enclosed.

Other Comments

Please note that as your company is located outside the United States, you must designate a party residing within the US to act as your agent, as required by paragraph (b) (3) of 40 CFR §152.50. Please obtain a US agent for future FIFRA related business.

Should you have any questions or comments concerning this letter, please contact me by telephone at (703) 308-6422 or email at heyward.adam@epa.gov.

Sincerely,

Adam Heyward

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNINGS: Causes substantial temporary eye injury. Do not get eyes or on clothing. Harmful if swallowed. Wear protective eyewear (goggles or face shield). Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Chemical: 1-800-424-9300.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Chemical: 1-800-424-9300. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Chemical: 1-800-424-9300.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, if necessary. Call a poison control center or doctor for further treatment advice. Chemical: 1-800-424-9300.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

MISC: Chlorinated pool water can cause discoloration to blonds, bleached or damaged hair.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Treated effluent should not be discharged into lakes, ponds or streams.

STORAGE AND DISPOSAL: Do not reuse empty container. Disposal instructions: Call your local solid waste agency or 1-800-CLEANUP (253-2687) for proper disposal of empty containers and unused product.

NOTICE: Household Consumer Products for the safe use of this product. Do not use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding the container.

Haviland Consumer Products, Inc.
Grand Rapids, MI 49504

WARNING
KEEP OUT OF REACH OF CHILDREN
(See First Aid statement and other precautions on back panel)

EPA Reg. No. 54564-2-57787

EPA Est. No. 57787-MI-1

KLEEN POOL[®] Algaecide

Kleen Pool Algaecide will maintain your pool free of most algae for periods up to six months. One simple application will free you from the problems caused by algae blooms, discoloration and hazes, which can affect the appearance of your pool. When your pool is not being used for swimming, such as vacation times and winter lay-ups, Kleen Pool will keep your pool clear and free of most algae without the use of other chemicals.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DOSAGE RATES: One six-month treatment: 1 Quart of Kleen Pool Algaecide per 5,000 gallons of pool water. To calculate volume for rectangular pools, multiply length x width x average depth x 7.5. For oval pools, multiply long diameter x short diameter x average depth x 5.9. For round pools, multiply diameter x diameter x average depth x 5.9. When algae reappears, then a further treatment is necessary. Kleen Pool Algaecide level should be maintained between 0.2 and 2.0 units as measured by a copper test kit. These test kits are available from your pool supplier.

APPLICATION: Kleen Pool Algaecide comes concentrated. Pour Kleen Pool directly into pool. Maintain continuous pool circulation for at least eight hours after application.

IMPORTANT: Adjust your pool pH level to 7.2 before adding Kleen Pool. Maintain the pH level in the range of 7.2 to 7.6 to ensure maximum effectiveness. Kleen Pool Algaecide is not recommended for use in pools where the pH cannot be maintained in the 7.2 to 7.6 range. Badly scaled pools may cause elevated pH conditions above the recommended range. Pools with scale should be de-scaled before using Kleen Pool. This product may not be compatible with other algaecides. Check with manufacturer before use. Kleen Pool Algaecide should not be mixed with other chemicals and should be added directly to the pool water as instructed above.

ACCEPTED
JUL 10 2007
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 54564-2
