UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs  
Antimicrobials Division (7510P)  
1200 Pennsylvania Avenue NW  
Washington, D.C. 20460

EPA Reg. Number: 54564-2  
Date of Issuance: JUL 8 2011

Term of Issuance:  
Unconditional

Name of Pesticide Product:  
Kleen Pool Algicide

NOTICE OF PESTICIDE:

Registration  
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Florida WaterWorks, Inc.  
P.O. Box 471267  
Lake Monroe, FL 32747

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Coppers RED, the EPA has reregistered this product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2) of the Federal Insecticide, Fungicide and Rodenticide Acts, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. The EPA may require submission of data at any time to maintain the registration of the subject product.

A stamped copy of the label is enclosed for your records. Submit two (2) copies of the revised labeling bearing the labeling revisions listed above.

If these conditions are not complied with, this registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

If you have questions concerning this matter, please contact me at (703) 308-6416 or by email at [Campbell-McFarlane.Jacqueline@epa.gov](mailto:Campbell-McFarlane.Jacqueline@epa.gov) or Jaclyn Carl at (703) 347-0213 or [carl.jaclyn@epa.gov](mailto:carl.jaclyn@epa.gov).

NOTES to label manufacturer.

Words in yellow are to be the corrected words, exactly as typed.  
Words in green are to be deleted completely.

# KLEEN POOL®

## Algicide

Kleen Pool Algicide will maintain your pool free of most algae for periods up to six months. One simple application will free you from the problems caused by algae blooms, discoloration and hazes which can affect the appearance of your pool. When your pool is not being used for swimming, such as vacation times and winter lay-ups, Kleen Pool will keep your pool clear and free of most algae without the use of other chemicals.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**DOSAGE RATES:** One six month treatment: 1 Quart of Kleen Pool Algicide per 5,000 gallons of pool water. To calculate volume for rectangular pools, multiply length x width x average depth x 7.5. For oval pools, multiply long diameter x short diameter x average depth x 5.9. For round pools, multiply diameter x diameter x average depth x 5.9.

When algae reappears, then a further treatment is necessary.

Kleen Pool Algicide Level should be maintained between 0.2 and 2.0 units as measured by a copper test kit. These test kits are available from your pool supplier.

**APPLICATION:** Kleen Pool Algicide comes concentrated. Pour Kleen Pool directly into pool. Maintain continuous pool circulation for at least eight hours after application.

**IMPORTANT:** Adjust your pool pH level to 7.2 before adding Kleen Pool. Maintain the pH level in the range of 7.2 to 7.6 to ensure maximum effectiveness. Kleen Pool Algicide is not recommended for use in pools where the pH cannot be maintained in the 7.2 to 7.6 range. Badly scaled pools may cause elevated pH conditions above the recommended range. Pools with scale should be de-scaled before using Kleen Pool. This product may not be compatible with other algicides-check with manufacturer before use. Kleen Pool Algicide must not be mixed with other chemicals and should be added directly to the pool water as instructed above. Refer to the "Understanding Pool" booklet for more detailed information.

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER: Corrosive.** Causes irreversible eye damage and skin irritation. Harmful if absorbed through the skin or swallowed. Do not get in eyes, on skin, or on clothing. Wear protective eyewear (goggles or faceshield), protective clothing, and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

#### FIRST AID:

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes.

\* Remove contact lenses, if present after the first 5 minutes, then continue rinsing eye.

\* Call a poison control center or doctor for treatment advise.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing.

\* Rinse skin immediately with plenty of water for 15-20 minutes.

\* Call poison control center or doctor for treatment advise.

**IF SWALLOWED OR INHALED:** Call poison control center or doctor immediately for treatment advise.

\* Have a person sip a glass of water if able to swallow.

\* Do not induce vomiting unless told to do so by the poison control center doctor.

\* Do not give anything by mouth to an unconscious person.

**Have the Product container or label with you when calling a poison control center or Doctor or going for treatment. You may contact 1-800-222-1222 for emergency medical treatment information.**

**NOTE TO PHYSICIAN:** Probably mucosal damage may contraindicate the use of a gastric lavage.

**MISC:** Chlorinated pool water can cause discoloration to blonde, bleached or damaged hair. Kleen Pool™ Algaecide in pool water may further highlight this discoloration should it occur.

#### ENVIRONMENTAL HAZARDS:

(Containers 5 gallons or less) Pesticide is toxic to fish and aquatic invertebrates.

(Containers greater than 5 gallons) Pesticide is toxic to fish and aquatic invertebrates.

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact State Water Board or Regional Office of the EPA.

**STORAGE and DISPOSAL: (Residential)** Store in original container in an area inaccessible to children and persons unfamiliar with its use. Nonrefillable container. Do not reuse or refill empty container. ~~Clean container promptly after emptying.~~ Offer for recycling or puncture and dispose of in a sanitary landfill or by other procedures allowed by state and local authorities.

**STORAGE and DISPOSAL: (Commercial or Institutional)**

Do not contaminate water, food or feed by storage and disposal

**Pesticide Storage:** Store in original container in an area inaccessible to children and persons unfamiliar with its use. **Pesticide Disposal:** Pesticide wastes maybe acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your state Pesticide or Environmental control Agency or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

**Container Handling:** Nonrefillable container. Do not reuse or refill empty container. Clean container promptly after emptying. Offer for recycling or puncture and dispose of in a sanitary landfill or by other procedures allowed by state and local authorities.
