

U.S. ENVIRONMENTAL PROTECTION AGENCY  
OFFICE OF PESTICIDES PROGRAMS  
REGISTRATION DIVISION (WH-567)  
WASHINGTON, D.C. 20460

EPA REGISTRATION NO.  
54577-1

DATE OF ISSUANCE

TERM OF ISSUANCE

AUG 27 1985

NOTICE OF PESTICIDE:  REGISTRATION  
 Reregistration  
(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

MCP-1920 Microbiocide

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Chemical Control, Inc.  
P.O. Box 142  
Carenovic, LA 70520

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 54577-1" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

MCB-1920 Microbiocide

**ACTIVE INGREDIENT:**

Potassium dimethyldithiocarbamate ..... 16.6

**INERT INGREDIENTS** ..... 83.4

This product contains 1.48 lb. of active ingredient per gallon and weighs 8.93 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

**STATEMENT OF PRACTICAL TREATMENT:** In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician. Never induce vomiting or give anything by mouth to an unconscious person.

*Note to physician:* Probable mucosal damage may contraindicate gastric lavage.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product inconsistent with its labeling.

MCB-1920 Microbiocide is used in industrial cooling tower systems and industrial air-washing systems. Prior to the use of MCB-1920 Microbiocide in recirculating cooling tower systems, systems should be cleaned to remove biological slimes and other deposits. Then make an addition of 10.5 fl. oz. of MCB-1920 Microbiocide to 60 to 90 ppm of MCB-1920 Microbiocide of water in the system. Repeat initial dosage until an addition of 3.5 to 10.5 fl. oz. of MCB-1920 Microbiocide per gal. of water (30 to 90 ppm MCB-1920 Microbiocide) is reached. The frequency of addition depends on the bleedoff and the severity of the microbiological problem in the sump of recirculating cooling tower systems.

MCB-1920 Microbiocides used in industrial cooling towers should be cleaned to remove bacterial slimes and other deposits. Then make an addition of 21.0 fl. oz. of MCB-1920 Microbiocide to 12.3 to 21.0 fl. oz. of MCB-1920 Microbiocide of water should be employed every 1 to 5 days, or depends upon the relative amount of bleedoff and additions may be made to the sump or the water.

MCB-1920 Microbiocide is used in industrial waterflooding operations. In systems fouled with bacteria, MCB-1920 Microbiocide should be added as a slug of 24 to 48 ppm (2.9 to 5.8 fl. oz. per 100 gal. of water treated). This should be followed by a continuous addition of MCB-1920 Microbiocide employing a concentration of 24 ppm, based on total water flow, to the heater-treater dump, gathering lines, or receiving tanks upstream to the filter.

MCB-1920 Microbiocide is also used in industrial water-based drilling fluids, completion fluids, and cement-based drilling fluids containing starch, gums, sugar, and other additives. MCB-1920 Microbiocide is added at a concentration of 0.05 to 0.25% gal. per 100 barrels of fluid.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Do not expose to extreme temperatures. Do not store drums should be placed in overpack drums for disposal. Spills should be cleaned up in a sanitary landfill. Keep container closed when not in use.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. If these wastes are not properly disposed of, they may pollute surface waters. If these wastes are not properly disposed of, they may pollute surface waters. If these wastes are not properly disposed of, they may pollute surface waters. If these wastes are not properly disposed of, they may pollute surface waters. If these wastes are not properly disposed of, they may pollute surface waters.

**CONTAINER DISPOSAL:**  
 **PLASTIC:** Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.  
 **METAL:** Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.
