

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 54614-9	DATE OF ISSUANCE MAY 9 1996
	TERM OF ISSUANCE Conditional	
	NAME OF PESTICIDE PRODUCT Mini Pucks	

NOTICE OF PESTICIDE:  REGISTRATION  
 REREISTRATION  
 (Under the Federal Insecticide, Fungicide,  
 and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Purity Biochemical  
 13408 76th Avenue  
 Surrey, British Columbia  
 V3W 7A9, Canada

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c) (7) (A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c) (5) and section 4 when the Agency requires all registrants of similar product to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
  - a. Add the phrase "EPA Registration No. "54614-9".
  - b. Under the Active Ingredient: "Trichloro-s-Triazinetrione" delete "& Related Compounds".
  - c. Revise the Precautionary Statements to Read:  
 "Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".

DATE

d. Revise the Statement of Practical Treatment to read:

If Swallowed: Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything my mouth to an unconscious person. Call a physician or poison control center immediately.

If in Eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

If on Skin: Wash with plenty of soap and water. Get medical attention.

If Inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

Note to Physician: Probably mucosal damage may contraindicate the use of gastric lavage.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Walter C. Francis  
Acting Product Manager (32)  
Antimicrobial Program Branch  
Registration Division (7505C)

EPA Reg. No. 54614-~~nya~~ *o*  
EPA Est. No.

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

MAY 9 1996

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended for the pesticide  
registered under EPA Reg. No.

54614-9

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves and only thoroughly clean dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

#### STATEMENT OF PRACTICAL TREATMENT

If swallowed: Drink large quantities of water. Do not induce vomiting. Avoid alcohol. Call a physician immediately.

If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention.

If in eyes: Flush with water for at least 15 minutes. Get immediate medical attention.

If inhaled: Remove person to fresh air. Get immediate medical attention.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

**CHEMICAL HAZARDS. DANGER:** Strong oxidizing agent. Use only clean dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

**ENVIRONMENTAL HAZARD:** This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is designed to dissolve slowly, providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants.

READ THE PRECAUTIONARY STATEMENTS BEFORE USE.

### METHOD OF APPLICATION:

Use in a floating dispenser, automatic chlorinator or feeder designed for this product or place in skimmer. Use in a new chlorinating device or any device which has previously contained only this product or whose active ingredient is trichloro-s-triazinetrione. If placed in the skimmer, run the pump a minimum of eight hours daily.

DO NOT: REUSE floaters or feeders from other dry chlorinating products.

DO NOT: Throw tablets directly into pool.

DO NOT: Permit tablets to contact plastic pool linings or metal objects.

DO NOT: Use with any *other* tablets or sticks in the same skimmer, floater, or feeder.

DO NOT: Use in any chlorinating device which has been used with other chlorinating compounds.

### WATER BALANCE:

To provide optimum product performance, swimmer comfort and crystal clear water, always maintain pH from 7.2 to 7.8 total alkalinity from 90 to 125 parts per million (ppm), and calcium hardness above 200 ppm. Test frequently using a reliable test kit that measures all these ranges. Make any necessary adjustments promptly with the appropriate Purity Pool Care Products.

### ROUTINE CHLORINATION:

Add one tablet per 10,000 gallons of pool water every week or as often as needed to maintain a chlorine residual at 1.0 to 3.0 ppm. Follow "Method of Application." This dosage may vary depending upon bather load, water temperature and other conditions. Pool should not be entered until the chlorine residual is 1 to 3 ppm as measured with a reliable test kit. Reentry into treated swimming pool is prohibited above levels of 3 ppm available chlorine.

As a preventative treatment, you should shock treat your pool once per week to prevent pool problems. In addition to weekly shock treatment, you should shock treat to remedy problems which may occur when bathing loads are high, water appears hazy or dull, unpleasant odors or eye irritation occur, after heavy wind and rainstorms, or if algae does develop with resulting green color and slimy feeling.

To Determine Your Pool Capacity In U.S. Gallons, Use The Appropriate Formula Below:  
(Use Measurements In Feet Only)

Rectangular:

$$\text{Length X Width X Average Depth X 7.5 = Total Gallons}$$

Round:

$$\text{Diameter X Diameter X Average Depth X 5.9 = Total Gallons}$$

Oval:

$$\text{Maximum Length X Maximum Width X Average Depth X 5.9 = Total Gallons}$$

Freeform:

$$\text{Surface Area (Sq. Feet) X Average Depth X 7.5 = Total Gallons}$$

#### STORAGE and DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

**STORAGE:** Keep product dry in tightly closed container when not in use. Store in a cool dry well-ventilated area away from heat or open flame. Do not reuse empty container.

**DISPOSAL:** Rinse empty container thoroughly with water to dissolve all material before discarding. Securely wrap container in several layers of newspaper and discard in trash.
