NOTICE OF PESTICIDE: ☒ REGISTRATION  
☒ REREISTRATION  
(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Brita (USA) Inc.

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

cg # 54625-1. PM 31 117  
The Clorox Company, Inc.  
P. O. Box 493  
Pleasanton, CA 94566-0803

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

**BEST AVAILABLE COPY**

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product. Make the following labeling changes before you release the product for shipment:

1. Place the statement, "Keep Out of Reach of Children" directly above the signal word "Caution."
2. The correct EPA registration number for this product is " 54625-1."
3. The correct EPA establishment number for this product is " 54625-CN-1" not "54811-CN-001" as it currently appears on the product labeling.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

4. Place the statement "Keep Out of Reach of Children" directly above the signal word "Caution."
3. Revise the subheading "Instructions" to read as follows "Directions For Use."
4. Place the misuse statement to read as follows; "It is a violation of Federal Law to use this product in a manner inconsistent with its labeling" directly below the subheading "Directions for Use."
6. The "Net Contents" statement should read as follows;  
" Net Contents: One Bacteriostatic Water Filter Cartridge"
7. On the "Filter-Single Pack, Panel 3, Back", delete the phrase "inhibits the growth of bacteria within the filter cartridge" from the product labeling.
- 8.

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

## GREAT TASTE:

- The Brita Water Filter System makes crisp, fresh tasting drinking water.
- Reduces chlorine taste, odor, and sediment.
- Makes it a pleasure to drink the recommended 8 glasses of water a day.

## 93% LEAD AND COPPER REDUCTION

- Brita eliminates 93% of Lead and Copper. Lead in tap water occurs primarily from corrosion of lead solder, brass faucet fixtures, and lead pipes in the household plumbing system. Copper in tap water occurs primarily from corrosion of copper pipes in the household plumbing system.

## MANY USES

Drinking Water

Cooking

Coffee & Tea

Juices & Drink Mixes

Cats & Dogs

## MANY PLACES

Home

Work

Vacation Home

RVs & Campers

School & College

Filter replacement is essential for the product to perform as represented. The average family should replace filter every 35 gallons (70 pitchers) or 2 months, whichever comes first.

## THIS FILTER FITS ALL BRITA SYSTEMS

### ACTIVE INGREDIENT:

METALLIC SILVER ..... 0.016%  
INERT INGREDIENTS ..... 99.984%  
Prevents growth of bacteria within the filter cartridge.

Made in CANADA by BRITA Limited  
Distributed by BRITA (USA) Inc.  
1221 Broadway, Oakland, CA 94612 1888

It is a violation of Federal law to use this product in a manner that is inconsistent with its labeling.

The Brita Replacement Filter (Model #0003) has been tested and certified by NSF International for:

- Standard No. 53 Health Effects
  - Lead Reduction
- Standard No. 42 Aesthetic Effects
  - Taste, Odor, and Chlorine Reduction Class I
  - Particulate Reduction Class V
  - Bacteriostatic Effects
  - Copper Reduction
  - Zinc Reduction

COMPONENT

Use with cold water only

This product inhibits the growth of bacteria in the filter to prolong the life of the filter.

This product is designed to remove objectionable tastes, odors, and color from municipally treated tap water.

This filter is only to be used with municipally treated tap water or well water that is regularly tested to be microbiologically safe (Max. 85°F).

Contents: One bacteriostatic water filter unit.

Disposal: Wrap used filter in paper and dispose in trash.

- if water ever runs out, resorb for 15 minutes.
3. Hold filter under cold running tap water for a few seconds.
  4. Insert filter into reservoir by lining up groove in filter with notch in reservoir. Press down firmly to ensure tight seal.  
(Note: This unit uses only the filter model packed with the unit. Previous filter models will not fit correctly.)
  5. Place calendar dial on top of filter and push firmly.
  6. Set the blue tab into the current month.
  7. Hold system under faucet and fill reservoir with cold tap water (filtration occurs as tap water passes through the Brita filter). Note: Do not use hot water.
  8. It is normal for carbon dust to appear in your first 1 or 2 pitchers. Use this water for your plants or discard.
  9. After each use, refill the reservoir. It is important that the bottom of the filter always be in contact with the filtered water to keep from drying out.
  10. Wash pitcher, lid, and reservoir periodically.
  11. For maximum efficiency, process no more than 2 gallons (4 pitchers) daily.

#### **FILTER REPLACEMENT:**

Filter replacement is essential for the product to perform as represented. The average family should replace filter every 35 gallons (70 pitchers) or 2 months, whichever comes first.
