	TERM OF ISSUANCE Aqua King	
	NAME OF PESTICIDE PRODUCT	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Sparkling H<sub>2</sub>O Systems  
 3118 South Canal Drive  
 Palm Harbor, FL 33563

**NOTE:** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name to its use if it has been covered by others.

This product is conditionally registered in accordance with provisions of section 3(c)(7)(A) Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), since you have agreed that you will submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e).

The EPA establishment number must be put on the front panel of the label. Make the following labeling revisions:

- Place the "Directions for Use" statement on the label.
  - Place the "Installation Instructions" on a separate sheet of paper.
- A stamped copy of the label is enclosed for your records.

AQUA-KING  
Bacteriostatic Water Filter  
DIRECTIONS FOR USE

Note: It is a violation of Federal law to use this product in a manner inconsistent with the labeling.

The new Aqua-King bacteriostatic water filter improves the taste of drinking water, tea, soups, beverages and ice cubes. The Aqua-King bacteriostatic water filter removes bad taste, chlorine, sediment, odor and filters up to 4,000 gallons of municipally supplied water depending on local water quality and chlorine content. REPLACEMENT: The Aqua-King water filter should be replaced after approximately 4,000 gallons or when reduction in chlorine is noticed, or detection of taste and odor or chlorine reappears in the filtered water.

INSTALLATION INSTRUCTIONS

1. Locate & turn off the cold water line under sink by turning valve clock-wise.
2. Either cut in tee and valve or use tapping valve to supply 1/2 inch copper tubing to inlet connection to Aqua-King Bacteriostatic Water Filter.
3. Mount dispensing water fountain on top surface of sink through existing or drilled 1/2 inch hole.
4. Connect 1/2 inch brass unions and tubing to outlet of filter to inlet faucet under sink.
5. Turn on cold water supply valves and flush lines 5 to 10 minutes to expell air and carbon fines.
6. Your new Aqua-King Bacteriostatic Water Filter is now ready to enjoy.
