HARMFUL OR FATAL IF SWALLOWED

See Side Panel for Additional  
Precautionary Statements

Protecto-Copp adheres to  
the preservative applied to  
the surface and forms a  
protective film.

Soak the rope wood posts  
before using to ensure  
long lasting protection.

Protects and saturates to  
protect against termites.

It's lack of water solubility  
and it's waterproofing qual-  
ity makes Protecto-Copp  
excellent for marine use.

Product weight per gallon:  
6.8 lbs.

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

#### WARNING

CONTAINS PETROLEUM DISTILLATE  
AND COPPER NAPHTHENATE

#### FIRST AID PROCEDURE

Harmful or fatal if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling. Avoid breathing vapor or spray mist. Use in a well ventilated area. If swallowed, do not induce vomiting. CALL PHYSICIAN IMMEDIATELY. — IF ABSORBED THROUGH SKIN, Wash thoroughly with soap and water. — IF IN EYES, Flush with plenty of water and get immediate medical attention. — CONTAMINATED CLOTHING should be removed and washed thoroughly before reusing.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label.

#### PHYSICAL OR CHEMICAL HAZARDS COMBUSTIBLE

Do not use, pour, spill or store near heat or open flame. Use only with adequate ventilation. Close container after each use.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### STORAGE AND DISPOSAL

Do not use empty container. Wrap container and put into trash collection.

#### FABRIC AND CORDAGE PROTECTION

Can be used to protect and preserve fabric against mildew, mold and fabric destroying and staining fungus, including rope, fish net, twine, canvas burlap and other fabrics. Materials should be thoroughly saturated until wet and air dried before use. Material can be either sprayed or dipped for complete saturation. Treats approximately 75 square feet of fabric per gallon. Do not use on fabric intended for food or food contact surfaces or clothing. No for use on fabric or cordage in ground contact situations.

1% COPPER PROTECTO-COPP WOOD PRESERVATIVE  
WOOD SURFACES IN CONTACT WITH SOIL,  
CONCRETE OR WATER INCLUDING FOUNDATIONS,  
SILLS - DOCKS - BOATS - FENCE POSTS

1% Copper Protecto-Copp is only intended for exterior wood. Do not apply to food or feed contact surfaces. Do not contaminate drinking water with treated surfaces.

1% Copper Protecto-Copp Wood Preservative provides protection against moisture, rot and mildew on a wood surface. This copper naphthenate wood preservative and insecticide will preserve, protect and seal wood that will be in contact with soil, water or concrete.

The copper fungicide gives a green cast to the Protecto-Copp Wood Preservative. This product is intended for use as a stain. The green color will last a few months when exposed to sunlight. Oil or alkyl paints can be applied over 1% Copper Protecto-Copp Wood Preservative after overnight dry but the green through lighter colors. Do not over coat 1% Copper Protecto-Copp Wood preservative with latex paint or clear wood finishes until fully cured (6 to 12 months).

#### PREPARATION

Wood should be clean, dry, well seasoned and free of surface contaminants.

#### APPLICATION

1% Copper Protecto-Copp Wood Preservative should be applied liberally by brush, roller, spray or dip into a container.

Dipping-wood should be dipped for 3 to 30 minutes depending on thickness. Fence posts, poles, foundation heavy wooden members should be immersed in solution for 12 to 48 hours.

Do not thin — materials supplied at proper consistency.

Use one coat on materials to be finished with paint. If no finish is to be used, apply two liberal coats. Thoroughly cover ends. The more material absorbed by the wood, the longer and more effective the protection.

Clean painting equipment with mineral spirits or kerosene.

#### NOTE TO USER

Do not apply over painted or varnished surfaces. Do not over bark.

#### COVERAGE

100-300 square feet — Depending on porosity and method of application.
