WW-MMT-20

ACCEPTED

NOV 15 1988

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 59872-4

ACTIVE INGREDIENTS:

Methylene bis(thiocyanate) 10%
2-(Thiocyanomethylthio)benzothiazole 10%

INERT INGREDIENTS 80%

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive, causes irreversible eye damage and causes skin damage. Harmful or fatal if swallowed or absorbed through the skin. This product is a potential skin sensitizer. Workmen handling this product or treated material should wear impervious gloves, goggles or face shield, and protective clothing. All protective clothing, work shoes or boots, and equipment must be left at the work site at the end of the day. Eating, drinking, or smoking during use of this product is prohibited.

FIRST AID: In case of skin contact, wash promptly and thoroughly with soap and water and finally with glycerin. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for 15 to 30 minutes. Get medical attention immediately. If product is swallowed, call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: Do not use or store near heat or open flame.

EPA Est. No.

NET CONTENTS

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

COOLING TOWERS: WW-MMT-20
wood against soft or surface rot and internal or dry rot. If used in a recirculating system containing 0.5 to 0.7% by weight WW-MMT-20 on wood surfaces. The amount applied should provide 0.8 to 1.0 lb. per 1000 ft.2 of wood surface. Soft or surface rot can also be controlled by WW-MMT-20 to the recirculating system. The dosage should provide 1.25 lb. of WW-MMT-20 per 1000 gal. of water, and the bleedoff should be stopped for 24 hours. Treatment should be repeated every four months.

COOLING WATER: WW-MMT-20
and fungi in industrial recirculating cooling water systems should be cleaned thoroughly to remove old algal growth. System should then be drained, flushed, refilled with water. Add 3.7 fl. oz. of WW-MMT-20 per 1000 gal. of water. Subsequent additions of 0.2 to 1.2 fl. oz. per 1000 gal. should be made after each amount of bleedoff and severity of microbiological fouling.

DRILLING FLUIDS: To inhibit bacterial and fungal degradation of wells, WW-MMT-20 concentrations of 0.05 to 0.25% based on the total wet weight of drilling fluid should be maintained. PETROLEUM SECONDARY RECOVERY WW-MMT-20 should be made continuously or intermittently by means of injection wells, before or after injection pumps and injection valves. When system is noticeably fouled, add 3.9 to 13.0 fl. oz. of WW-MMT-20 per 1000 gal. of water continuously until desired degree of control is achieved. Intermittent or Slug Method: To maintain control, add 3.9 to 13.0 fl. oz. of WW-MMT-20 per 1000 gal. of water for 4 to 8 hr. per day and 1 to 4 times per week.

CRUDE AND REFINED OILS: WW-MMT-20 is a fungicide for the control of bacteria and fungi that cause the corrosion of storage tanks. It should be added to the oil as it is being pumped into the storage tank at the rate of 0.6 to 6.0 fl. oz. per 1000 gal. of oil. Addition should be made batchwise where possible at the transfer pump.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Do not expose to extreme temperatures. Do not store in well ventilated areas. Leaking or damaged drums for disposal. Spills should be absorbed in sawdust or other inert material. PESTICIDE DISPOSAL: Pesticide wastes are acutely toxic. Do not use according to label instructions, contact your State Pesticide Control Authority or the Hazardous Waste representative at your EPA Regional Office. CONTAINER DISPOSAL: Triple rinse (or equivalent). Then recycle or dispose of in a sanitary landfill, by incineration, or by other approved methods. If burned, stay out of smoke.
