Ms. Debi Evans
Capo Industries Ltd.
1200 Corporate Drive
Burlington, Ontario L7L 5R6

Subject: Formula 500
EPA Registration No.: 54998-4
Notification Date: 07/27/2011
EPA Receipt Date: 08/11/2011

Dear Ms. Evans:

This letter acknowledges receipt of your notification submitted under the provision of FIFRA section 3(c)9 and PR Notice 98-10.

Proposed Notification

- Revised Storage and Disposal statements as per PR Notice 2007-4

General Comments

Based on a review of the submitted materials, your notification for the revised Storage and Disposal statements as per PR Notice 2007-4 is acceptable and has been a part of your file.

Should you have any questions or comments concerning this letter, you may contact me by telephone at (703) 308-6416 or by e-mail at campbell-mcfarlane.jacqueline@epa.gov or Jaclyn Carl by telephone at (703) 347-0213 or by e-mail at carl.jaclyn@epa.gov. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Jacqueline Campbell-McFarlane
Product Manager (34)
Regulatory Management Branch II
Antimicrobials Division (7510P)

FIRST AID

If in Eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes then continue rinsing eye.
- Call a poison control center or doctor for further treatment advice.

If on Skin, Clothes:

- Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

- Call a poison control center or doctor for treatment advice.

If Ingested:

- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water, if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If inhaled:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not contaminate water by cleaning of equipment or disposal of waste. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labelling. FORMULA 500 is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs and decorative fountains that do not contain fish. For maximum effectiveness pools, spas, whirlpools, hot tubs and decorative fountains containing heavy growth of algae should be cleaned prior to using FORMULA 500.

For pools having just visible algae growth add an initial dose of 18 to 27 fluid ounces of FORMULA 500 per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of freshly

cleaned and filled pools add initially 10 to 18 fluid ounces of FORMULA 500 per 10,000 gallons of water. Subsequent additions of 3.5 to 7 fluid ounces of FORMULA 500 per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance. Spas, whirlpools, hot tubs and decorative fountains having just visible algae growth require an initial dose of 2 to 3 fluid ounces of FORMULA 500 per 1000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, hot tub, decorative fountain, add initially 1 to 2 fluid ounces of FORMULA 500 per 1,000 gallons of water. Subsequent additions of 0.4 to 1 fluid ounces of FORMULA 500 should be made every 5 to 7 days after initial treatment for maintenance. FORMULA 500 will prevent growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 10 to 17 fluid ounces of algaecide per 10,000 gallons of water. If at the end of the swimming season, pools have some visible algae growth, add 20 to 27 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of algaecide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

FORMULA 500 is compatible with those chemicals normally used to treat pools, spas and decorative fountains and is effective at both acid and alkaline pH. FORMULA 500 can be used in pools, spas, and decorative fountains treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix FORMULA 500 with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: Keep container closed when not in use. Mop up spills with clear water. Keep out of reach of children and store away from food.

Container Handling: Nonrefillable container. Do not reuse or refill container. Securely wrap container in several layers of newspaper and discard in trash or offer for recycling if available.
