Linda C. Watson
Consultant / Regulatory Affairs
Agrol Chemical Products
Route One, Box 143-A
Lakeland, Georgia 31635

Dear Linda:

Subject: Champion Wettable Powder
EPA Registration No. 55146 1
Your letter of December 3, 1990

In our approval letter of November 20, 1990 we indicated that your application of November 5, 1990 adding endive and escarole to your label was acceptable under the Federal Insecticide, Fungicide and Rodenticide Act, as amended (FIFRA). You later discovered that the dosage rates were expressed in liquid measures per area, 1 1/3 to 2 2/3 pints per acre. You now want to revise the rates to express them in weights per area, 1 2 pounds per acre.

We find that this revision is acceptable under FIFRA. A stamped copy is enclosed for your records.

Please submit three copies of your final printed labeling incorporating this amendment.

Sincerely yours,

Joanne I. Miller
Acting Product Manager (23)
Fungicide Herbicide Branch
Registration Division (H7505C)
