| | Term of Issuance: Conditional | |
| | Name of Pesticide Product: Pell-Chlor Drinking Water Disinfecting Tablets | |

NOTICE OF PESTICIDE:
☒ Registration
☐ Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):
Krudico, Inc.
308 E. 4th Street
Auburn, IA 51433

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

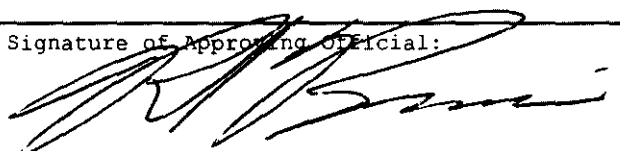

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 55304-4."
3. Submit two copies of the revised final printed label for the record

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

**PRECAUTIONARY
STATEMENTS
HAZARDS TO HUMANS
AND
DOMESTIC ANIMALS**

DANGER: Highly Corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or regional office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of fire and explosion. In case of contamination or decomposition, do not re-seal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water if necessary.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

EMERGENCY DISINFECTION: When boiling water for one minute is not practical, water can be made potable by using this product. Prior to addition of the sanitizer, remove all suspended material by filtration or by allowing it to settle to the bottom. Decant the clarified, contaminated water to a clean container and add 1/10 gram or 1/4 gram Pell-Chlor Tablets in accordance with the Dosage Charts in the second column to the right. Pell-Chlor Tablets are scored and can be divided into halves or quarters. Allow the treated water to stand for 30 minutes. Then test the water with a titration kit or test strips for a free chlorine residual between 0.2 ppm and 0.6 ppm. If a test kit or test strips are not available, sniff the water for a slight odor of chlorine. Properly treated water should have a slight chlorine odor. If your testing equipment shows less than 0.2 ppm of free chlorine, or if a slight odor cannot be detected, repeat the same dose and then repeat the testing after another 15 minutes of standing time. Continue with this process until proper results are obtained. The treated water can then be made palatable by pouring it between clean containers several times.

See additional directions at top of 2nd column to right.

**Pell-Chlor
Drinking Water
Disinfecting Tablets**

ACTIVE INGREDIENT: Calcium Hypochlorite..70%

INERT INGREDIENTS:30%

MINIMUM AVAILABLE CHLORINE: 70%

Tablet Weight: 1/10 gram

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 and give artificial respiration, mouth-to-mouth if possible. Call a doctor or a poison control center for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN

Probably mucosal damage may contraindicate the use of gastric lavage.

NET CONTENTS:

DIRECTIONS FOR USE

(CONT'D FROM COLUMN ONE)

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

WATER SYSTEMS: This product is intended to treat well water, cisterns, holding tanks or other water supplies by sanitizing until consumed. It is not intended to replace safe and properly constructed wells. EPA recommends for human consumption a 0.2 ppm - 0.6 ppm free available chlorine residual to be determined by using a suitable chlorine test kit. Use 1/10 gram or 1/4 gram Pell-Chlor Tablets in accordance with the Dosage Charts below. Allow the treated water to stand for 30 minutes. Then test the water with a titration kit or test strips for a free chlorine residual between 0.2 ppm and 0.6 ppm. If a test kit or test strips are not available, sniff the water for a slight odor of chlorine. Properly treated water should have a slight chlorine odor. If your testing equipment shows less than 0.2 ppm of free chlorine, or if a slight odor cannot be detected, repeat the same dose and repeat the testing after another 30 minutes of standing time. Continue with this process until proper results are obtained.

DOSAGE CHART - 1/10 gram tablet

| Volume of Water | Pell-Chlor Tablets |
|----------------------|--------------------|
| 2 quarts | 1/4 tablet |
| 4 quarts (1 gallon) | 1/2 tablet |
| 8 quarts (2 gallons) | 1 tablet |
| 4 gallons | 2 tablets |
| 10 gallons | 5 tablets |

DOSAGE CHART - 1/4 gram tablet

| Volume of Water | Pell-Chlor Tablets |
|---------------------------|--------------------|
| 5 quarts (1 1/4 gallons) | 1/4 tablet |
| 10 quarts (2 1/2 gallons) | 1/2 tablet |
| 15 quarts (3 3/4 gallons) | 3/4 tablet |
| 20 quarts (5 gallons) | 1 tablet |
| 10 gallons | 2 tablets |
| 20 gallons | 4 tablets |

**ACCEPTED
with COMMENTS
EPA Letter Dated:**

JUL 16 2002

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No. 55304-4

STORAGE AND DISPOSAL

Do not contaminate food or feed by storage or disposal or cleaning of equipment.

PESTICIDE STORAGE: Keep this product dry in the enclosed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container(s), (if possible), and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection.

CONTAINER DISPOSAL: Do not reuse empty container but place in trash collection after rinsing with water. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of the smoke.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
