Swimming Pool Algae Control:

Initial dose should be 2 quarts PHYSAN 20 per 50,000 gallons of water (or 13 ounces per 10,000 gallons of water) followed by cleaning out settled algae next day and retreatment at the same dosage. This is repeated until the pool is clear of visible algae. Then 1 pint of PHYSAN 20 per 50,000 gallons of water (or 3 1/5 ounces per 10,000 gallons of water) is used every 5-7 days to maintain control.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Keep out of the reach of children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

STORAGE AND DISPOSAL:

- Do not contaminate water, food or feed by storage or disposal.
- Do not store on side.
- Do not reuse empty container.

PESTICIDE DISPOSAL:

Pesticide wastes are acutely hazardous. Improper disposal of pesticide spray or mixture of residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for Guidance.

CONTAINER DISPOSAL:

Do not reuse container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in sanitary landfill, or incineration, or if allowed by state and local authorities by burning. If burned, stay out of smoke.

**DISINFECTANT · SANITIZER · DEODORIZER
FUNGICIDE · ALGAEICIDE**

ACTIVE INGREDIENTS:

- n-alkyl (80% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈) dimethyl benzyl ammonium chloride 10%
- n-alkyl (68% C₁₂, 32% C₁₄) dimethyl ethylbenzyl ammonium chloride 10%

**INERT INGREDIENTS: 80%
100%**

PHYSAN 20 is a concentrate and must be diluted before using.
DANGER — KEEP OUT OF REACH OF CHILDREN

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or — if these are not available — drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiration depression, and convulsion may be needed.

See left panel for additional precautionary statements.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Rule # 1:
Pre-cleaning Surfaces Must Precede Sanitizing or Disinfecting.

Hospitals:
Disinfecting Solution — Mix 1 1/4 ounces of PHYSAN 20 in 3 gallons of water. Effective against *Pseudomonas aeruginosa* PRD-10. After thorough pre-cleaning and rinsing, use on floors, walls, other hard surfaces, sink tops, telephones, rest rooms, and garbage pails.

This solution when used on environmental inanimate hard surfaces is effective against Influenza A₂ (flu virus), Herpes Simplex (cold sores, fever blisters), Adenovirus type 5 (acute respiratory disease), and Vaccinia viruses (smallpox).

Household:
Sanitizing Solution — Mix 1/4 ounce PHYSAN 20 in 4 gallons of water. Disinfecting Solution — Mix 1 ounce PHYSAN 20 in 3 gallons of water. After thorough pre-cleaning and rinsing, use on floors, walls, and inanimate hard surfaces as in Schools, Homes, Locker Rooms, Classrooms, Offices, Corridors, and garbage pails.

Food Processing Equipment:
Sanitizing Solution — Mix 1/2 ounce PHYSAN 20 in 4 gallons of water. Clean and rinse equipment thoroughly — then apply sanitizing solution.

Dairies:
Sanitizing Solution — Mix 1/2 ounce PHYSAN 20 in 4 gallons of water. Clean and rinse equipment thoroughly — then apply sanitizing solution. No final potable water rinse required.
Follow recommendations of Local Health Board.
