The Recipe for Roaches DIRECTIONS FOR USE:

(insert)

To apply:

Remove units from container, and press against surface to be treated until it is flattened and adheres to the surface.

Use at a rate of 2-4 units per 100 sq. ft. of area to be treated.

Repeat every 2 to 4 weeks as necessary.

Insecticide sprays may be repellent to insects controlled by THE RECIPE. Do not use insecticidal sprays in areas where THE RECIPE is to be applied.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To control cockroaches, ants and silverfish, apply under and behind refrigerator, stove, sink, dishwasher, washing machine and dryer, tubs; into openings, around drains, water pipes and electrical conduits, and in cracks / crevices along baseboards and corners of cabinets, cupboards and closets. Remove all drawers in kitchen and bathroom cabinets, bedroom dressers and chests of drawers, then apply in drawer wells.

Apply only in areas inaccessible to children and pets. Avoid contamination of feed and foodstuffs.

This product may be used in homes, restaurants, and other food and feed handling establishments, markets, schools, warehouses, factories, offices, hotels, motels, hospitals, nursing homes, garages, grocery stores, apartment buildings, new construction, industrial plants, theaters, ships, boats, trains, trucks, yachts, camps, mobile homes, buses, zoos, kennels, military bases, l...anes, utilities and sewers.

HERRING, INC.

Route 1, Box 307 Slocumb, Alabama 36375
(205) 886-3347

FOOD AND FEED HANDLING ESTABLISHMENTS FOOD AREAS:

Food area application limited to crack and crevice treatment only.

For places other than private residences in which food or feed is held, processed, prepared or served. Includes areas for receiving, storage, packing (canning, bottling, wrapping & boxing) preparing edible waste storage and enclosed processing systems (mills, dunes, edible oils, syrups). Serving areas (when food is exposed and facility is in operation) also would be considered a food area.

Apply in small amounts directly into cracks and crevices, in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases, conduits, motor housing and electrical switch boxes where roaches hide.

Care should be taken to avoid depositing the product onto exposed surfaces. Avoid contamination of food or food processing surfaces.

SERVING AREAS:

Facilities where prepared foods are served, such as dining rooms, but excluding areas where food may be prepared or held.

Apply as a spot treatment to selective surfaces such as baseboards, under elements of construction into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)

NON-FOOD AREAS:

Including garbage rooms, lavatories, floor drains (to sewer entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Apply to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.

Applications of this product in the food areas of food handling establishments, other than as a crack and crevice treatment, are not permitted.
