### DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

1. For best results, start with a clean bowl.
2. Peel off blister. With scissors, cut open blister along dotted line and remove wrapped tablet.  DO NOT REMOVE PROTECTIVE WRAPPING FROM TABLET - it dissolves in the tank.
3. Remove tank cover and flush. When water level is low and valve is closed, drop tablet in tank near the right sidewall, and not near the water inlet. (See diagram.)
4. Do not flush for 10 minutes or longer after installation to allow the tablet to settle properly.
5. No removal is necessary. When color fades, add a new TY-D-BOL GERM KILLING TABLET.
