PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed. If swallowed, drink 1 or 2 glasses of water and induce vomiting by sticking finger down back of throat. Never induce vomiting or give anything by mouth to an unconscious person. Avoid breathing spray mist. Avoid contact with skin, eyes, or clothing. In case of contact, wash exposed skin with plenty of soap and water; for eyes flush with water for 15 minutes and get medical attention. When handling this product wear chemically resistant gloves.

When mixing, loading, or applying this product or repairing or cleaning equipment used with this product, wear eye protection (face shield or safety glasses), chemical-resistant gloves, long-sleeved shirt, long pants, socks and shoes. For aerial applicators in enclosed cockpits and applicators applying this product from a tractor that has a completely enclosed cab, eye protection is not required.

Wash hands, face and arms with soap and water as soon as possible after mixing, loading, or applying this product. Wash hands, face and arms with soap and water before eating, smoking, or drinking. Wash hands and arms before using toilet. After work, remove all clothing and shower using soap and water. Do not reuse clothing worn during the previous day's mixing and loading or application of this product without cleaning first. Clothing must be kept and washed separately from other household laundry. Remove saturated clothing as soon as possible and shower.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. ~~For terrestrial uses~~, do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

Apply this product only as directed on label.

Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing or transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

Subject: Compliance Notification - PR 93-3

Dear Product Manager:

Sandoz Agro, Inc. herein submits notification of compliance with PR 93-3, Labelling Statement Prohibiting Application to Water, for all Sandoz Products under the Environmental Hazards section of the Precautionary Statements.

Mr. Jeff Kempter of Registration Division has allowed use of this master letter and a single 8570-1 amendment form (# 202685) for all Sandoz Products listed on the following pages. For each product under your responsibility (highlighted on list) there is attached a copy of the amendment form and the labelling with the addition of "For terrestrial uses," to the previous water application prohibition under Environmental Hazards.

Final printed labelling including the "For terrestrial uses," will be submitted for each product as new label stock is printed. All production released after April 21, 1994 will include the revised statement. Would you please add this notification to the appropriate registration jacket? Thanks for your assistance.

Sincerely,
SANDOZ AGRO, INC.
