Your Submission Dated December 29, 1987

Enclosed is a Notice of Registration for the above-named product.

When labels are printed, the following corrections must be made.

- The words, Active Ingredient and Inert Ingredients must be given equal prominence and must be of the same type size.

The net weight must be stated in terms of U.S. measure. There would then be no objection to an additional statement in terms of metric measure. It should be (net weight 0.56 oz) (26 grams).

Also, submit a revised Confidential Statement of Formula which would agree with the proposed label, and would be filled out completely.
