45 1

PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

CANTION: May be harmful if swallowed, inhaled or "hoorbed through skin. Avoid breathing spray mist and provide ade the ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid.

Do not use in commercial food processing preparation, food storage or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed.

Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact theated surfaces until spray has dried.

STATEMENT OF PRACTICAL TREATMENT:

٠, ۰,

(:

IF IN Eyes, flush with plenty of water. Get medical attention if irritation persists.

If on Skin or Clothing, remove contaminated clothing. Wash skin with soap and warm water. Get medical attention if irritation persists.

If Swallowed, call a physician or Poison Control Center. Do not induce vomiting because of aspiration hazard.

PHYSICAL OR CHEMICAL HAZARDS: FLAMMABLE. Contents under pressure. Do not use or store near heat or flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE AND DISPOSAL: Storage: Store in a cool dry area away from heat or open flame. Disposal: Do not reuse empty container. Wrap container and put in trash collection.

DIRECTION FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use as a spot treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Hold container upright about 12" from the surface to be sprayed. Spray surfaces until wet. Repeat as necessary.

For Spot Treatment: Ants, Cockroaches, Crickets, Silverfish, Spiders, Sowbugs and Carpet Beetles: Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators, and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat as necessary.

The second secon

(3

Brown Dog Ticks and Fleas: Thoroughly apply as a spot treatment to infested areas such as pet bads and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. Do Not Spray Pets With lis Product.

6.1

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

Flies and Mosquitoes: Use only out of doors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surface will be killed. Repeat treatment when necessary.
