Dear Mr. Keane:

Subject: Revised labeling
Protack Mosquito Mats
EPA Registration Number 56175-1
Submission dated July 25, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

1. As per the Agency letter dated June 4, 1991, concerning the Confidential Statement of Formula, correct the upper and lower certified limits such that the % by weight (column 13b) falls within these upper and lower limits. In addition, columns 14a and 14b of the CSF for the Pynamin Forte should reflect the % by weight of the pure active ingredient (90% of the technical product, not 100% of the technical product).
2. The statement "It is a violation of Federal Law to use this product in a manner inconsistent with its labeling" should follow the heading DIRECTIONS FOR USE, not precede it.

Sincerely,

Richard F. Mountfort
