Mr. Sam Ginsberg  
Safe Organic Environment, Inc.  
9110 So. Hampton  
Dallas, TX 75232

Dear Mr. Ginsberg:

Subject: Amendment - Final Labeling  
Insect-Away  
EPA Registration Number 56194-#2  
Your Letter Dated November 24, 1993

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling.

- The Notice of Registration indicated that you must add a **Pesticide Disposal** statement to the existing statement, not delete the Storage or Container Disposal statements. Please add the Storage and Container Disposal statements to the label as they appear on the stamped accepted labeling dated September 20, 1993.

Submit five copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

George T. LaRocca  
Product Manager 13  
Insecticide-Rodenticide Branch  
Registration Division (7505C)

# Insect-Away!

## CAUTION!

Precautionary statements  
Hazards to Humans  
(and Domestic Animals)

Avoid contact with eyes. Use adequate ventilation and avoid breathing dust. If in eyes, flush eyes with plenty of water. Call a physician if irritation persists. Wear a dust mask when using this product during prolonged exposure.

## PESTICIDE DISPOSAL

Do not contaminate water, food or feed by storage and disposal. Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

## KEEP OUT OF REACH OF CHILDREN

Manufacturer makes no warranty, express or implied, regarding the use of this product for any purposes other than those described on this label.

Manufactured by: Safe Organic Environment, Inc.

## An Effective Addition for the Control of Grain Insects.

### ACTIVE INGREDIENTS: DIATOMACEOUS EARTH (from Fresh Water Diatoms)

Silicon Dioxide .....	85%
Other Element Oxides .....	10%
Moisture .....	5%

## RECOMMENDED FOR COMMERCIAL/INDUSTRIAL USE ONLY!

For Use with Stored Grain, including Barley, Buckwheat, corn, oats, rice, rye, sorghum grain, wheat, and mixtures of these grains.

## KILLS BY PHYSICAL CONTACT!

**Insect-Away!** is formed from tiny, microscopic **FRESH WATER** Diatoms. When an insect is exposed to **Insect-Away!**, the contact causes insects to lose body fluid and die from dehydration!

NET WT. 25 LBS. (11.34 KG.)

**BEST AVAILABLE COPY**

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with it's labeling.

**Insect-Away!** is an effective solution for killing insects such as Red Beetles, Rice Weevils, Granary Weevils, Angoumois Grain Moths, Mediterranean Flour Moths, Indian Meal Moths, etc.

**Insect Away!** should be distributed at approximately one (1) pound per square foot on all interior surfaces of empty storage areas. It is recommended that previously untreated areas be undisturbed for one to two days to allow any existing insects to die. **Insect-Away!** should be re-applied each time a storage bin is emptied.

**Insect-Away!** is also effective for In-Transit. To apply, clean and dust cars, ship holds and truck beds before loading. Thoroughly treat walls and floors, then dust lightly after grain is loaded.

**TREATMENT OF STORED GRAIN**  
Adjust moisture content of grain to below 12% by weight, and add 7 lbs of this product per ton of grain at the time of entry into storage. Treated grain can be reduced to a lower grade, but reduced flowability and test weight. For best results, treat grain immediately after harvest.
