INSECT KILLER

Use Wet or Dry • Indoor & Outdoor Use
Only for Homeowner Use

CHINCH BUGS

ROACHES

FIRE ANTS

TICKS

APHIDS

CRICKETS

ANTS

BEDBUGS

FOR USE OUTDOORS

Around Domestic Dwellings

General Insect Control

Controls: Ants, Chinch Bugs,
Fire Ants, Fleas and Ticks

Rose and Floral Insecticide

Controls: Aphids, Caterpillars, Leafhoppers,
Mites, White Flies and Other Insects on
Flowers and Ornamentals

Tomato and Garden Insecticide

Controls: Ants, Aphids, Armyworms,
Caterpillars, Cabbage Worms, Leafhoppers,
Mites, Thrips, Webworms, White
Flies and Other Insects as Listed on
Garden Plants

FOR USE INDOORS

In Domestic Dwellings

General Insect Control

Controls: Ants, Flies, Roaches
and Other Insects as Listed

For Use on Pets

Kills Fleas, Lice and Ticks on
Dogs, Cats and Pets

Active Ingredients:

Pyrethrins 0.1%

*Piperonyl Butoxide, Technical 1.0%

Silicon Dioxide
(from Diatomaceous Earth) 97.5%

Inert Ingredients 1.4%

Total 100.0%

*Equivalent to 0.8% (butylcarbityl)(6-propylpiperonyl)
ether and 0.2% related compounds.

Keep Out of Reach of Children

CAUTION

See back panel for additional precautionary statements.

NOTIFICATION

FEB 14 2003

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Use in adequate ventilation and avoid breathing dust.

Statement of Practical Treatment (First Aid)

If Swallowed: Call a physician or poison control center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person. **If Inhaled:** Remove person to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. **If on Skin:** Remove contaminated clothing and wash affected areas with soap and water. **If in Eyes:** Flush with plenty of water. Call a physician immediately if irritation persists.

Environmental Hazards

This product is toxic to fish. Do not apply directly to any body of water. Do not apply when weather conditions favor drift from the treatment area. Do not contaminate water by disposal of equipment wash rinses. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in original container in a cool, dry place (preferably locked) out of sunlight and inaccessible to children and pets. **Disposal:** If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

INDOOR USES

Apply with a hand duster or other suitable means, to hiding and running areas, and places where pests are found. To apply into cracks and crevices, use a bulbous duster or other suitable equipment. Apply lightly and uniformly in treatment area. The amount to be applied will vary with the site, but should usually be 8 to 16 ounces per 1,000 square feet. Repeat treatment as necessary to maintain adequate control.

Roaches and Silverfish: Dust lightly, paying special attention to cracks and hidden surfaces, around pipes, sinks and moldings. **Ants, Crickets and Box Elder Bugs:** Dust lightly areas around windows, doors and other places where these pests may enter premises. **Bedbugs:** Treat liberally baseboards, moldings, cracks, bedstead and both sides of mattress. **Flies:** Lightly coat window frames and sills so flies lighting will contact dust.

To Kill Fleas, Lice and Ticks on Dogs, Cats, Pets and Pet Premises

READ ENTIRE LABEL BEFORE EACH USE

For Use Directly on Pets or Around Pets' Living and Sleeping Areas

Lightly work the material into the hair of the animal, down to the skin. Pay special attention to places where the animal cannot reach, such as the scalp. Dust the ears of the animal with care. Individual ticks observed on the animal should be thoroughly dusted.

Reapply as infestation warrants, but no more frequently than once per week. Do not use on puppies, kittens or other young animals under 12 weeks of age. Consult a veterinarian before using this product on debilitated, medicated, aged, pregnant or nursing animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. In case of an emergency, contact a veterinarian or local animal poison control center.

Dust the animal's bedding and areas where the animal sleeps, as well as cracks and crevices adjacent to them. Repeat once a month or as necessary.

OUTDOOR USES - GENERAL INFORMATION

Carefully follow the directions for each type of use. When used as directed, allowable tolerance levels will not be exceeded. May be used where resistant insects are a problem. Use rates will vary with insect populations. Keep the material agitated during application for all liquid spray applications. Reapply only as necessary.

For Control of Ants, Chinch Bugs, Fleas and Ticks in Domestic Areas

Use Rate: Use 6 ounces per 375 square feet of area.
As a Dust: The best results are obtained when applied with a hand or power duster or other suitable means of application to the infested area. Apply lightly and uniformly to the treatment area.
Hose End Sprayer: Use a hose end sprayer for lawns. Add a small amount of water to the jar and add the amount of this product needed for the measured area. Stir to make a slurry, then add the remaining water to the top of the jar. Empty the entire contents of the jar on the premeasured area.
Hand Sprayer: Use 0.6 ounces (4 tablespoons) to one gallon of water. Apply the contents to a premeasured area.

For Control of Fire Ants

As a Dust: For best results, dust the perimeter of the mound first. With a stick, disturb the mound, then dust mound in a circular motion working toward the center until the entire mound is thoroughly dusted. Do not exceed 6 ounces per 375 square feet.
Mound Drench or "Water Method": Use 0.6 ounces (4 tablespoons) to one gallon of water. For best results, saturate the perimeter of the mound first working toward the center of the mound in a circular motion (you may want the mixture to puddle). An ant mound 12-14 inches in diameter requires approximately one gallon of the mixture.
Hose End Sprayer: Use 6 ounces per 375 square feet of area. Use a hose end sprayer for lawns. Add a small amount of water to the jar and add the amount of this product needed for the measured area, stir to make a slurry, then add the remaining water to the top of the jar. Empty entire contents of the jar on the premeasured area.

For Control of Insects on Flowers, Ornamentals and Garden Plants

Use Rate: 6 ounces will cover approximately 3,000 square feet, depending upon the insect population. **As a Dust:** The best results are obtained when the plants are wet or dew still remains on the leaf surface. It is suggested that the plants are misted prior to application to obtain the maximum benefits and use the least amount of product for control. **As a Wettable Powder:** Apply in sufficient water to obtain maximum coverage. Dilution of the material should be at the rate of 6 ounces to one-half gallon of water for approximately 3,000 sq. ft. It is best to keep the material agitated during application. Apply the material uniformly to both the upper and lower leaf surfaces.

For Control of Insects on Flowers and Ornamentals

Controls Insects Such As: Aphids, Armyworms, Caterpillars, Chinch Bugs, Flea Beetles, Fleahoppers, Flies, Fruitflies, Japanese Beetles, Leafhoppers, Leafminers, Leafrollers, Looper, Lygus Bugs, Mealy Bugs, Mites, Thrips and White Flies.

For Use on Flowers and Ornamentals Such As: Carnations, Chrysanthemum, Dogwood, Elm, Fern, Geranium, Gladiolus, Lily, Philodendron, Roses, Tulips and Zinnia.

For Control of Insects on Garden Plants

Controls Such Insects As: Aphids, Armyworms, Beet Webworms, Blister Beetle, Cabbage Looper, Cabbage Worms, Caterpillars, Celery Leafhoppers, Colorado Potato Beetles, Corn Earworm, Cucumber Beetles, European Corn Borer, Flea Beetles, Garden Fleahoppers, Harlequin Bugs, Imported Cabbage Worms, Japanese Beetles, Leaf Hoppers, Leaf Miners, Leafrollers, Looper, Lygus Bugs, Mexican Bean Beetles, Mites, Plant Bugs, Slink Bugs, Squash Vine Borer, Thrips, Vegetable Weevils, Webworms and White Flies.

For Use On Garden Plants Such As (but not limited to): Beans, Broccoli, Carrots, Cucumber, Lettuce, Melons, Onions, Peas, Peppers, Potato, Squash, Tomatoes and Watermelon.
