NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Hisco, Inc.  
 P.O. Box 6830  
 Huntsville, TX 73340

**NOTE:** Changes in labeling formules differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Section 3(c)(5) provides that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
  - a. Change the label to read: "See side panel for . . ."
  - b. Delete the label statement: "See side panel for . . ."
  - c. Move the referral statement "See side panel for . . ." to appear directly below the statement:
 

Call a physician immediately.
  - d. Refer to PR Notice 83-3 for acceptable Storage and Disposal statements for the larger size containers you propose to market (5-gallon and 55-gallon containers).

Product Manager (31)  
Disinfectants Branch  
Registration Division (TS-767C)

Enclosures

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**FOR GENERAL DISINFECTION** of hard, non-porous surfaces (glass, metal, plastic, glazed porcelain, linoleum, tile, leather, vinyl, enamel and finished wood surfaces) on walls, floors, appliances and furnishings in industrial and commercial offices, rest-rooms and work areas.

**CLEANING.** Whenever practical, flush away gross soils with water. For cleaning, use 1 to 4 ounces of THIS PRODUCT per gallon of water. Cleaning may be accomplished with a clean mop, sponge, squeegee, wet vacuum system, or a mechanical spraying device. After cleaning, remove suspended soils with a clean water rinse, vacuum pick up or by wiping with a clean mop, sponge, squeegee or cloth.

**DISINFECTING.** Before disinfecting, preclean surfaces as directed above. Then, prepare 2 ounces of THIS PRODUCT per gallon of water and thoroughly wet the surfaces to be disinfected. The disinfecting solution must contact the surface for 10 minutes for proper disinfection. If desired, the surfaces may then be rinsed with clear water or wiped with a clean damp cloth.

**FOR DEODORIZING GARBAGE CANS, GARBAGE TRUCKS, INDUSTRIAL WASTE RECEPTACLES AND OTHER GARBAGE HANDLING EQUIPMENT.** It is especially important to preclean, preferably using a mechanical spraying device, in order for the disinfectant to perform properly. Then apply a wetting solution of 3-6 ounces of THIS PRODUCT per gallon of water.

**FOR CLEANING OF WALLS, FLOORS AND INDUSTRIAL WORK AREAS.** Use 2-4 ounces per gallon of water. The use of rubber gloves is recommended for personnel doing continuous hand cleaning.

THIS DISINFECTANT may be used through automatic floor scrubbing equipment.

This product must not be used on food contact surfaces.

THIS DISINFECTANT reduces the surface tension of water, improving its wettability. Microbes are capable of mass reproduction in sub-visible pores, scratches and cracks of surfaces. The excellent wettability of THIS PRODUCT improves the penetration of the use solution into areas that otherwise might not be reached.

**HISCO 44 DISINFECTANT**

**ACTIVE INGREDIENT:**  
 Alkyl (C<sub>14</sub>, 58%; C<sub>16</sub>, 28%; C<sub>12</sub>, 14%)  
 dimethyl benzyl ammonium chloride ..... 5.00%  
**INERT INGREDIENTS** ..... ~~95.00%~~  
**TOTAL INGREDIENTS** ..... 100.00%

When applied as directed to precleaned hard, non-porous surfaces, this disinfectant also kills the following organisms at 2 ounces per gallon: Candida albicans, Escherichia coli, Streptococcus pyogenes, Enterobacter aerogenes, Shigella sonnei.

**KEEP OUT OF REACH OF CHILDREN  
 DANGER:**

(See side panel for additional precautionary statements.)

**STATEMENT OF PRACTICAL TREATMENT:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. If irritation persists, get medical attention. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, raw egg whites, gelatin solution or, if these are not available, drink a large quantity of water. Avoid alcohol. Call a physician immediately.

EPA Reg. No. 56203- EPA Est. No. 56203-TX-1

**FOR INDUSTRIAL AND COMMERCIAL USE ONLY.**

Manufactured by: **NET CONTENTS:**

Hisco, Inc.
