ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDE PROGRAMS
REGISTRATION DIVISION (TS-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO. 56216-4
TERM OF ISSUANCE
NAME OF PESTICIDE PRODUCT

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

Glacide 535

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Glacier Laboratories
P.O. Box 2154
Yorba Linda, CA 92686

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

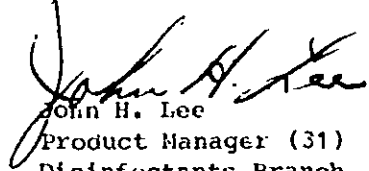

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 56216-4" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.
A stamped copy of the label is enclosed for your records.

GLACIDE 535

SEP 05 1986

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

56216-4

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 12.5%

INERT INGREDIENTS 87.5%

This product contains 1.1 lb. of active ingredient per gallon and
weighs 8.77 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN
DANGER**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician. Never induce vomiting or give anything by mouth to an unconscious person.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

NET CONTENTS

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner not consistent with its labeling.

GLACIDE 535 is used in recirculating cooling tower systems and industrial air-washing systems. Prior to the use of GLACIDE 535 in recirculating cooling tower systems, systems showing microbiological slime, and other deposits. Then measure 14.2 fl. oz. of GLACIDE 535 per 80 to 120 ppm of GLACIDE 535 per gal. of water in the system. Repeat initial dosage until control is achieved. Repeat addition of 4.7 to 14.2 fl. oz. of GLACIDE 535 per gal. of water (40 to 120 ppm GLACIDE 535) days or as needed. The frequency of addition depends upon the severity of the microbiological problem and the sump of recirculating cooling tower systems.

GLACIDE 535 is used to maintain effective mist-eliminating components cleaned to remove bacterial slime and other deposits. Repeat initial dosage until control is achieved. Repeat initial dosage until control is achieved. Repeat addition of 16.5 to 28.4 fl. oz. of GLACIDE 535 per gal. of water should be employed every 1 to 5 days, or depends upon the relative amount of bleedoff and additions may be made to the sump or the water.

GLACIDE 535 is used to control bacteria, including sulfate-reducing organisms, in waterflooding operations. In systems fouled with bacteria, GLACIDE 535 should be added as a slug dose of 32 to 64 ppm (3.9 to 7.1 fl. oz. per 1000 gal. of water treated). This should be repeated every 30 days. GLACIDE 535 employing a concentration of 32 ppm, based on total volume of water, should be added in continuous additions to the heater-treater dump, gathering lines, or receiving tanks upstream to the filter.

GLACIDE 535 is also used to control bacteria in water-based drilling muds, completion fluids containing starch, gums, sugar, and other solids. GLACIDE 535 is used for purposes of 0.28 to 0.47 gal. per 100 barrels of fluid (0.28 to 0.47 gal. per 100 barrels of fluid).

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **STORAGE:** Do not expose to extreme temperatures. Do not store in drums should be placed in overpack drums for disposal. Spills of this product should be cleaned up immediately. Keep container closed when not in use. **PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. If these wastes are spilled, or if these wastes are otherwise released, contact your State Pesticide or Environmental Control Agency or your EPA Regional Office for guidance.

CONTAINER DISPOSAL:

PLASTIC: Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state and local authorities, by landfill.

METAL: Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state and local authorities, by landfill.
