Dear Dr. Joseph:

Subject: Pigeon Grain Strychnine Corn  
EPA Registration No. 56228-8  
Your Submission of October 15, 1992

The proposed revised label submitted on October 15, 1992, is acceptable, subject to your making the minor change required by this paragraph. In the first sentence of the second paragraph under "DISPATCH," insert "whole-kernal" between "untreated" and "corn."

Because the injunction against above-ground uses of Strychnine-containing pesticides remains in effect, this product's registration remains "temporarily canceled" despite our acceptance the proposed revised label submitted on October 15, 1992.

Sincerely yours,

Robert A. Forrest  
Product Manager 14  
Insecticide-Rodenticide Branch  
Registration Division (7505C)

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND  
DOMESTIC ANIMALS**

**DANGER**

**Convulsive Poison!** Poisonous if swallowed. Do not breathe dust. Do not contaminate feed and food-stuffs. Keep away from children, pets and domestic animals. Wash thoroughly with soap and water after handling and before eating or smoking. Clean clothing should be used daily.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish, birds, and other wildlife. Baits exposed on soil surface may be hazardous to birds and other wildlife. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment, or disposal of wastes.

**ENDANGERED SPECIES  
CONSIDERATIONS**

**NOTICE:** The killing of an endangered species during strychnine baiting operations may result in a fine and/or imprisonment under the Endangered Species Act. Before baiting, the user is advised to contact the regional U.S. Fish and Wildlife Service (Endangered Species Specialist) or the local Fish and Game Office for specific information on endangered species. Strychnine baits should not be used in the geographic ranges of the following species except under programs and procedures approved by the USEPA, California Condor, San Joaquin Kit Fox, Aleutian Canada Goose, Morro Bay Kangaroo Rat, Gray Wolf, Grizzly Bear, and Salt Marsh Harvest Mouse.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**USE RESTRICTIONS**

For use against pigeons in nonagricultural areas (in and around buildings). The use to control pigeons will be prohibited in the following areas for the protection of endangered species

| <u>Species</u>              | <u>Prohibited Areas</u>  |
|-----------------------------|--|
| Yellow-shouldered blackbird | Puerto Rico  |
| Puerto Rican plain pigeon   | Puerto Rico  |
| Peregrine falcon            | Do not use within 5 miles of aeries or critical habitats. Do not use when migratory falcons may be present. Consult with local fish and game agencies or regional Fish and Wildlife Service. |

**RESTRICTED USE PESTICIDE**

**Due to hazard to nontarget species**

For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicators certification.

**KEEP OUT OF REACH OF CHILDREN  
DANGER-POISON**

ACCEPTED with COMMENTS  
EPA Letter #  
NOV 23 1999  
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 56228-8

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED: CALL A PHYSICIAN OR POISON CONTROL CENTER IMMEDIATELY!**

If less than ten (10) minutes have passed since the poison was taken, give 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Repeat until vomit fluid is clear. Have patient lie down in quiet, darkened room and keep him warm and quiet. Do not induce vomiting or give anything by mouth to an unconscious person.

**IF INHALED** - Remove victim to fresh air. Apply artificial respiration if indicated.  
**IF ON SKIN** - Remove contaminated clothing and wash affected areas with soap and water.  
**IF IN EYES** - Flush eyes with plenty of water. Get medical attention if irritation persists.

**NOTE TO PHYSICIAN**

A. Administer 100% OXYGEN by positive pressure to provide as much pulmonary gas exchange as possible, despite seizures.  
B. Administer ANTICONVULSANT DRUGS intravenously to control convulsions.  
**CAUTION:** It may be difficult or impossible to stop the seizure activity without stopping respiration. Be prepared to maintain pulmonary ventilation mechanically. Tracheotomy may be necessary if seizures are prolonged.
