Washington, DC 20240

Dear Dr. Riffe:

Subject: Amendment - Update Label
Compound DRC-1339 98% Concentrate
EPA Registration No. 6704-56
Your Application Dated March 22, 1985

The amendment referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A) is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - a. Align "Inert Ingredient" with active ingredient.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

William H. Miller
Product Manager (16)
Insecticide-Rodenticide Branch
Registration Division (TS-767)

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
(& DOMESTIC ANIMALS)**

DANGER

Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with eyes, skin, or clothing. Handle only with protective gloves, clothing, and face mask, or respirator. Wash hands with soap and water after handling.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to birds. Do not expose in areas accessible to waterfowl, poultry, and other non-target birds. Keep out of lakes, ponds, streams, tidal marshes, and estuaries. Do not apply where runoff is likely to occur. Do not contaminate water by the cleaning of equipment or disposal of waste.

**ENDANGERED SPECIES
CONSIDERATIONS**

Before undertaking any control operations with the product, consult with local, State, and Federal wildlife authorities to ensure the use of this product presents no hazard to any endangered species.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS

A slow acting avicide for the control of starlings and blackbirds.

DIRECTIONS: Mixing—10 lbs. of 1339 pelleted starling bait, grains, or other applicable bird foods may be prepared as follows: Dissolve 45 grains of 1339 concentrate in 600 ml. of water or an edible oil (amount can be adjusted to get uniform coverage). Pour mixture over 10 lbs. of bait, mix or tumble slowly until mixture is evenly distributed.

Poultry pellets number approximately 7,000 per lb. Larger pellets require less 1339, smaller pellets require more. When using bait of different size, amount of 1339 must be adjusted to make one particle lethal.

APPLICATION: Starlings ingesting treated bait die one to three days later. Application of bait should be made only after careful observation of starling and blackbird habits on the problem area to establish preferred feeding sites, best timing for application, and hazards of application to desirable or protected birds.

RESTRICTED USE PESTICIDE

For retail sale to and use only by certified applicators or persons under their direct supervision and only for those uses covered by the certified applicator's certification.

For use only by U. S. Fish and Wildlife Personnel trained in Bird Control or persons under their Direct Supervision.
