If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 5(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

In reference to the comments in your May 24, 1989 letter, you should note that it is imperative that sites be defined for all use patterns, regardless of the class of users to which a product is restricted. Defining sites is critical to the Agency's assessments of environmental and human hazards associated with the use of particular pesticide chemicals or products. If space on the container label is limited, you should consider the "Technical Bulletin" approach when developing use directions for your intended expanded labeling for the DRC-1339 Concentrate product. Please note that if you add new sites to your label you will need to submit the enclosed "Certification With Respect to Citation of Data" form.

The Confidential Statement of Formula dated July 18, 1989 is acceptable.

We appreciate the copy of the settlement agreement reached between the Humane Society and the U.S. Department of the Interior. The agreement is stored in the subject file for future reference.

If you have any questions, please contact Steve Palmateur at (703) 557-4403.

Sincerely yours,

William H. Miller
Product Manager (16)
Insecticide-Rodenticide Branch
Registration Division (H7505C)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS **DANGER**

Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with eyes, skin, or clothing. Handle only with protective gloves, clothing, and face mask, or respirator. Wash hands with soap and water after handling.

ENVIRONMENTAL HAZARDS

This product is toxic to birds. Do not expose in areas accessible to waterfowl, poultry, and other non-target birds. Keep out of lakes, ponds, streams, tidal marshes, and estuaries. Do not apply where runoff is likely to occur. Do not contaminate water by the cleaning of equipment or disposal of waste.

ENDANGERED SPECIES CONSIDERATIONS

Before undertaking any control operations with the product, consult with local, State, and Federal wildlife authorities to ensure the use of this product presents no hazard to any endangered species.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION: Compound DRC-1339 Concentrate is a slow acting avicide for the control of blackbirds, cowbirds, grackles, and starlings. Birds ingesting treated bait(s) die within one to three days.

USE RESTRICTIONS

Application of treated bait(s) in any problem area should be made only after careful observation of bird feeding habits to locate preferred feeding sites, determine the optimum time of application, and evaluate hazards of the application to desirable or protected animals. **DO NOT** apply bait(s) in areas where there is danger of consumption by endangered species. Prebaiting may be necessary to obtain successful results. When baiting is completed, remove all unconsumed bait material and dispose of in accordance with applicable state or federal laws. Carcasses of dead or dying birds that are found should be collected and either burned or buried according to applicable laws.

NOTE: WHEN CONTROLLING BLACKBIRDS, COWBIRDS, AND GRACKLES, IT MAY BE NECESSARY TO OBTAIN A KILL-PERMIT FROM THE U.S. FISH AND WILDLIFE SERVICE AND/OR THE APPLICABLE STATE WILDLIFE AGENCY.

RESTRICTED USE PESTICIDE

For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicators certification.

For use only by U.S. Department of Agriculture personnel trained in bird control or persons under their direct supervision.

COMPOUND DRC-1339 98% CONCENTRATE

ACTIVE INGREDIENT:

3-Chloro-p-toluidine hydrochloride 98.0%

INERT INGREDIENTS: 2.0%

TOTAL 100.0%

KEEP OUT OF REACH OF CHILDREN DANGER-POISON

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: CALL A PHYSICIAN OR POISON CONTROL CENTER IMMEDIATELY!

IF SWALLOWED: Induce vomiting and immediately call a physician.

IF INHALED: Move patient from contaminated area and immediately call a physician.

IF ON SKIN OR IN EYES: Immediately flush eyes or skin with large quantities of water. Call a physician immediately.

STORAGE

Do not contaminate water. Do not dispose of in drains.

STORAGE: Store in original container. Do not place in inaccessible areas where accessible to animals.

PESTICIDE: This product is highly toxic. Do not spill. If spilled, do not wash into drains. These wastes should be labeled and disposed of in accordance with Environmental Protection Agency Waste Reporting Office for guidance.

CONTAINER: Do not shake. Do not inhale dust particles. Empty container should be disposed of by incineration if not burned, stay in place.

DIRECTIONS

Brewers blackbird
Brown-headed nuthatch
Common grackle
Great-tailed grackle
Red-winged blackbird
Starling (*Sturnella vulgaris*)

FORMULATION: 1.6 oz of Concentrate (1.3 pt) of water. Amount can be used to obtain 4.5 kg (10 lb) of bait. Bait may contain rice, corn, or other feed. More than 2500/lb.

Dilute treated bait with untreated bait to reduce the possibility of a lethal bait and to consume a lethal dose.

APPLICATION: Apply by hand in feeding areas. Bait thinly (1 lb/1000 ft²) in alleyways between trees. Pens occupied by birds should be baited to feeding birds.

APPLICATION FEEDLOTS: Bait thinly at rate of 2.5 kg of the lot of feed and swine. Do not use in areas where swine are present.
