Mr. Edward W. Schafer, Jr.  
U.S. Department of Agriculture  
Animal and Plant Health Inspection Service  
Animal Damage Control  
Building 16, Denver Federal Center  
P.O. Box 25266  
Denver, CO 80225-0266

Dear Mr. Schafer:

Subject: 1339 Gull Toxicant 98% Concentrate  
EPA Registration No. 56228-17  
Your Application Dated July 29, 1988

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable subject to the comments listed below.

1. In the third sentence under "BAIT PREPARATION," insert "marked 'POISON'" between "plastic bag" and "for transportation."
2. Under "TREATMENT," state the techniques that may be used to "broadcast" bait (prior to April 20) and prohibit any "broadcast" techniques that are inappropriate (for reasons of accuracy, safety, or feasibility) for treating gull breeding areas or colonies. Describe the procedures to be used for the (presumably) manual applications to be made after April 20.
3. The "Environmental Hazards" label states "Do not contaminate water by cleaning of equipment [or] disposal of waste." This should now be phrased "Do not contaminate water when disposing of equipment washwaters."

Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

William H. Miller  
Product Manager (16)  
Insecticide-Rodenticide Branch  
Registration Division (TS-767C)

Enclosures

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
DANGER**

Harmful if swallowed, inhaled, or absorbed through the skin. Contact with eyes may cause a severe reaction. Handle only with protective gloves and clothing. Use a face mask or respirator which are approved by the Mining Enforcement and Safety Administration and the National Institute for Occupational Safety and Health. Wash hands thoroughly with soap and water after handling and before eating or smoking. Remove contaminated clothing and wash before reuse.

**ENVIRONMENTAL HAZARDS**

This product is toxic to birds. Do not expose in areas accessible to waterfowl, poultry, and other non-target birds. Keep out of lakes, ponds, streams, tidal marshes, and estuaries. Do not apply where runoff is likely to occur. Do not contaminate water by the cleaning of equipment or disposal of waste.

**ENDANGERED SPECIES CONSIDERATIONS**

Before undertaking any control operations with the product, consult with local, State, and Federal wildlife authorities to ensure the use of this product presents no hazard to any endangered species.

**RESTRICTED USE PESTICIDE**

For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicators certification.

For use only by U.S. Department of Agriculture personnel trained in bird control or persons under their direct supervision.

**STORAGE**

Do not store in inaccessible to children.

**STORAGE:** Store in inaccessible to children.

**PESTICIDE DISPOSAL:** See label for disposal instructions. Do not be disposed of in any manner except as directed on the label. For more information contact the nearest EPA Regional Office.

**CONTAINER DISPOSAL:** Empty container into a double lined bag in a sanitary location and dispose of in accordance with local, State and Federal authorities.

**DO NOT USE AS FEED**

**DIRECTIONS**

It is a violation of Federal law to use this product in a manner inconsistent with the label.

**USE RESTRICTIONS**

Concentrate for use on nesting gulls (*Larus marinus*, *Delawarensis*) on nesting colonies of other colonial nesting birds. Do not use on other colonial nesting birds.

**BAIT PREPARATION**

Gull Toxicant 98% Concentrate, 1/2 cup melted, stick margarine, 1/2 cup standard sandwich bread, immediately cut into cubes. Prepared bait for transportation within 12 hours.

**PRE-TREATMENT**

will be prohibited within 12 hours of application.

**TREATMENT:**

Treat in or near nesting colonies. Treated bread cubes in the same area during pre-treatment. However, no bread cubes should be applied April 28. Application in gull nests. The number of bread cubes determined by the previous application should be reduced. The number of bread cubes must not exceed 100 per nest. **POST-TREATMENT:** Treated bread cubes must be removed by appropriate means. A 48-72 hour period of bird presence, disturbance of nesting, or other factors must be avoided.
