STORAGE AND DISPOSAL**Not For Storage In or Around the House**

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Disposal: Pesticide wastes are hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Do not use container in connection with food, feed, or drinking water. Completely empty container into application equipment. Wrap empty container in several layers of newspaper and discard in trash.

Storage: Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original containers and out of the reach of children, preferably in a locked storage area.

Handle and open container in a manner as to prevent spillage. If the container is leaking or material spilled for any reason or cause, carefully dam up spilled material to prevent runoff. Refer to Precautionary Statements on label for hazards associated with the handling of this material. Do not walk through spilled material. Absorb spilled material with absorbing type compounds and dispose of as directed for pesticides above. In spill or leak incidents, keep unauthorized people away. You may contact the Miles Emergency Response Team for decontamination procedures or any other assistance that may be necessary. The Miles Kansas City Emergency Response Telephone No. is 816-242-2582, or contact Chemtrec at 800-424-9300.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER

Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with eyes, skin, or clothing. Handle only with protective gloves, clothing, and face mask, or respirator. Wash hands with soap and water after handling.

ENVIRONMENTAL HAZARDS

This product is toxic to birds. Do not expose in areas accessible to waterfowl, poultry, and other non-target birds. Keep out of lakes, ponds, streams, tidal marshes, and estuaries. Do not apply where runoff is likely to occur. Do not contaminate water by the cleaning of equipment or disposal of waste.

ENDANGERED SPECIES CONSIDERATIONS

Before undertaking any control operations with the product, consult with local, State, and Federal wildlife authorities to ensure the use of this product presents no hazard to any endangered species.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Read the entire label. Use strictly in accordance with precautionary statements and directions and with applicable State and Federal Regulations.

GENERAL INFORMATION: Compound DRC-1339 98% Concentrate is a slow acting avicide for the control of crows and ravens preying on newborn livestock or on the eggs/young of Federally designated Threatened or Endangered Species or other species requiring special protection. Birds ingesting treated bait(s) die within one to three days.

USE RESTRICTIONS

For the preparation of meat-cube or egg baits to control common ravens (*Corvus corax*), white-necked ravens (*Corvus cryptoleucus*), common crows (*C. brachyrhynchus*) and black-billed magpies (*Pica pica*) in rangeland and pastureland areas where these species prey upon newborn livestock, and in refuges or other areas under direct control of Federal or State agencies where ravens and/or crows prey upon eggs/young of Federally-designated Threatened or Endangered Species, or upon eggs/young of other species which Federal or State wildlife agencies have determined to be in need of protection from nest predators due to documented sharp declines in numbers and/or in nesting success.

SEE RIGHT AND BACK LABELS FOR ADDITIONAL DIRECTIONS FOR USE.

PM 14

RESTRICTED USE PESTICIDE

For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicators certification.

For use exclusively by U.S. Department of Agriculture personnel trained in bird control or persons under their supervision.

COMPOUND DRC-1339
98% CONCENTRATE - Livestock Depredations

For control of crows, ravens, and magpies preying on newborn livestock, or on the eggs/young of Federally-designated Threatened or Endangered Species or on the eggs/young of other species designated to be in need of special protection.

ACTIVE INGREDIENT:
 3-Chloro-p-toluidine hydrochloride 98.0%

INERT INGREDIENTS: 2.0%

TOTAL 100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER—POISON

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: CALL A PHYSICIAN OR POISON CONTROL CENTER IMMEDIATELY!

IF SWALLOWED: Induce vomiting and immediately call a physician.

IF INHALED: Move patient from contaminated area and immediately call a physician.

IF ON SKIN OR IN EYES: Immediately flush eyes or skin with large quantities of water. Call a physician immediately.

ACCEPTED
MAY 11 1993
 Under the Federal Insecticide, Fungicide, and Rodenticide Act, this pesticide is exempt from registration under EPA Reg. No. 56228-29

Net Weight

STORAGE: Do not contaminate disposal.

STORAGE: Store in place inaccessible to animals.

PESTICIDE DISPOSAL: Do not burn. Do not mix with other wastes. Do not place in household waste. Do not place in incineration unless approved by the Environmental Protection Agency representative at the site.

CONTAINER DISPOSAL: Do not shake and tap. Do not empty. Empty then dispose of by incineration if approved by the Environmental Protection Agency representative at the site.

DIRECTIONS FOR USE:

TARGET SPECIES: Common raven (*Corvus corax*), White-necked raven (*Corvus cryptoleucus*), Common crow (*Corvus brachyrhynchus*), Black-billed magpie (*Pica pica*)

USE RESTRICTIONS: Before applying this product, observe the habits of ravens, crows, and magpies at the times of day when they are most likely to find and ingest bait. Do not apply to nontarget species or to treated baits. Precautionary statements may be required for target species and nontarget species.

DO NOT apply to areas where there is a danger that they will consume baits unless you can maintain constant observation and use appropriate tactics to frighten or remove them. Species that other than the target species are likely to be present should be observed and treated accordingly.

Dispose of unused or dying birds by approved methods authorized by applicable State and Federal Regulations.

NOTE: WHEN APPLYING TO RAVENS, IT MAY BE NECESSARY TO OBTAIN A KILL-PERMIT FROM THE STATE WILDLIFE AGENCY.

SEE BACK LABELS FOR ADDITIONAL DIRECTIONS FOR USE.
