APHIS is submitting this information to the United States Environmental Protection Agency's Office of Pesticide Programs (EPA) to correct a conversion error on the existing label.

APHIS realized this error on page 1 of the current label in the "Directions for Use" section that has an incorrect conversion rate between acres and hectares. The enclosed label corrects that conversion error. The label has also been reformatted, but no additional text changes have been made aside from the conversion correction.

Attached are the following documents in support of this notification:

- EPA Form 8570-1;
- Two (2) copies of the final printed label for EPA Reg. No. 56228-34 with the conversion correction highlighted for your reference.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.
