ACCEPTED

FEB 1 1989

Under the Federal Insecticide, Fungicide, and
Rodenticide Act, as amended, for the
pesticide registered under
EPA Reg. No. 8845-64

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin, or clothing. In case of contact, immediately flush skin and eyes with plenty of water. Get medical attention if irritation persists.

Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Cover or remove exposed foods when used in household areas. Avoid contamination of cooking utensils and food preparation surfaces. Remove birds, pets, and cover aquariums before spraying. Do not use on edible crops.

PHYSICAL HAZARDS

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

DIRECTIONS FOR USE

It is a violation under Federal law to use this product in a manner inconsistent with its label.

STORAGE AND DISPOSAL

Storage: Store in a cool area away from heat or open flame.

Disposal: Replace cap and discard container in trash. Do not incinerate or puncture.

Shake well before each use. Aim spray opening away from person. Push actuator to spray.

For Use Only in Households and Non-Feed Areas of Industrial Plants.

Flies, Mosquitoes and Gnats: Close all doors and windows. Point nozzle upward. Direct spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed. Sweep up and destroy fallen insects. Repeat as necessary.

Wasps and Hornets—Space spray: Before applying, close all doors, windows and ventilator openings. In unfinished attics and crawl spaces where direct spray cannot reach pests, point nozzle upward and fill the area with mist at the rate of 35 seconds per 1,000 cu. ft. of space. Leave treated area immediately after application is completed, closing off area for at least 30 minutes. Ventilate area when treatment is complete. Repeat as necessary.

Crawling Insects: Roaches, earwigs, grain mites, sowbugs, spiders and centipedes: Spray thoroughly into cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible as a contact spray. Repeat applications as necessary.

Ants: Spray trails, nests and points of entry.

Outdoors—Reduce Annoyance From Flying Insects Around Recreational Areas and Homes.

Kill Mosquitoes, Gnats (Midges), Houseflies, Deer Flies and Small Flying Beets (Millers) by spraying their nesting areas. Hold container 18 to 24 inches from shrubs, bushes, and grassy areas. Spray these areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic yard of space while moving away from the treated areas. To reduce annoyance from these flying insects treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

Nuisance Pests—On or Entering Buildings

Wasps and Hornets: Applications should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible. Spray directly on stray wasps that enter buildings.

Spiders: Direct short burst of spray on spiders.

IMPORTANT—Sweep up all dead insects and deposit these sweepings into a closed garbage container within two hours after each treatment.

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit to all data required for registration/reregistration of your product under FIFRA section 3(c)(1) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 56336-1" to your label before you release the product for shipment.
3. Your 40-day storage stability data were reviewed and found acceptable, but the requirement is for a 1-year storage stability study at room temperature, which must be conducted and submitted within 15 months of the date of this Registration Notice. The formulated product must be analyzed for its active ingredient at time zero and during a year of storage. The storage should be in warehouse conditions of temperature and humidity and stored in similar containers you will be using in the trade. Note: For the Storage Stability study you cannot reference the concentrate you are using to formulate your product.
4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

CAUTION**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust. Avoid contact with skin, eyes or clothing.

STATEMENT OF PRACTICAL TREATMENT: In case of eye or skin contact, immediately flush with plenty of water. Get medical attention if irritation persists. If swallowed, drink large quantities of water and induce vomiting by placing finger in back of throat. Call a physician or contact local poison control center. Never give anything by mouth to an unconscious person. Avoid alcohol. In case of inhalation exposure, move from the contaminated area.

ENVIRONMENTAL HAZARDS: Do not apply directly to water or wetlands. Do not contaminate water when disposing of equipment washwaters.
