Mr. Gary N. Clark  
Manager of Regulatory Affairs  
Consep Membranes, Inc.  
213 S.W. Columbia Street  
Bend, Oregon 97702-1013

Dear Mr. Clark:

Subject: Checkmate™ PBW Labels Submitted with 5/13/92  
Letter from Walter Talarek  
EPA Registration No. 56336-1

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act is acceptable provided that you modify the ENVIRONMENTAL HAZARDS block to read "Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters."

A stamped copy of the label is enclosed for your records. Submit five (5) copies of final printed labeling.

Sincerely,

Phil Hutton  
Product Manager 18  
Insecticide-Rodenticide Branch  
Registration Division (H7505C)

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

MIXING:

DO NOT use CheckMate PBW from damaged, punctured or unsealed containers.

Use piston, diaphragm or centrifugal pumps ONLY. DO NOT use roller or gear pumps as they will damage CheckMate's controlled release system. Remove all screens before mixing and/or application.

Add sticker of choice approved for growing crops, according to the label, to the recommended amount of water (see METHODS OF APPLICATION) and agitate. Lastly add CheckMate PBW to the tank and mix thoroughly. For best results, apply immediately after mixing.

METHODS OF APPLICATION:

GROUND EQUIPMENT: Apply CheckMate FBW in 5-15 gal water/acre. Apply to foliage directly over the top of every other row using 30-45 psi and FloodJet nozzles, type TK 5, D-6, or larger.

AERIAL EQUIPMENT: Apply CheckMate PBW in 3-10 gal water/acre. Apply to fields from a height of 10-30 feet using 30-60 psi and 406 FloodJet nozzles, type TK 5 to TK 30 or without nozzles.

RINSE ALL EQUIPMENT WITH CLEAN WATER IMMEDIATELY AFTER APPLICATION TO REMOVE REMAINING STICKER.

COTTON: To disrupt the mating of pink bollworm moths, apply 5 grams for light to moderate infestations, 6 grams for moderate to heavy infestations, 8 grams for severe infestations, based on field history, of CheckMate PBW per acre. Begin application at pinhead square stage. Reapply every 20 days or sooner, as needed, based on insect monitoring and field scouting programs.

STORAGE AND DISPOSAL

DO NOT contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool place until used. Freezing will extend product shelf life indefinitely.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water when disposing of equipment washwaters.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local auctorities.

WARRANTY: CONSEP MEMBRANES, INC. warrants that this product conforms to the chemical description on the label. CONSEP MEMBRANES, INC. neither makes, nor authorizes any agent or representative to make any other warranty of fitness or of merchantability, guarantee or representation, express or implied, concerning this product. CONSEP MEMBRANES, INC.'s maximum liability for breach of this warranty shall not exceed the purchase price of this product. Buyer and User acknowledge and assume all risks and liability resulting from the handling, storage and use of this material, whether in accordance with directions or not.

STATEMENT OF PRACTICAL TREATMENT: In case of eye or skin contact, immediately flush with plenty of water. Get medical attention if irritation persists. If swallowed, drink large quantities of water and induce vomiting by placing finger in back of throat. Call a physician or contact local poison control center. Never give anything by mouth to an unconscious person. Avoid alcohol. In case of inhalation exposure, move from the contaminated area.
