

2 of 2

Upholstery: Remove loose cushions. Sprinkle along creases and into corners. Brush lightly to work powder into folds and creases. Vacuum to remove visible powder on surfaces. Do not use on exposed fabric without first testing on a hidden surface for effects on color (staining) or texture. If powder adheres to a spot, brush out and vacuum that area immediately.

When emptying vacuum bag after use, wrap contents or disposable bag in several layers of newspaper and discard in trash. Treat pets with a registered flea and tick control product prior to re-entry.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry area inaccessible to children and pets.

Disposal: Do not reuse container. Wrap and put in trash.

This container is sold by weight, NOT by volume. You can be assured of the proper weight even though some settling of contents normally occurs during transportation and handling.

PRECAUTIONARY STATEMENTS

Hazards To Humans and Domestic Animals

CAUTION

Harmful if swallowed. Avoid breathing dust and contact with eyes, skin or clothing. Wash hands after handling and before eating or smoking. Do not contaminate feed, water or foodstuffs. Do not apply to food processing surfaces or use in food processing areas where food is exposed. Cover fish aquariums before use. Keep children and pets off treated carpet and upholstered furniture during treatment and while powder is still visible on their surfaces.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call physician or Poison Control Center immediately. Induce vomiting by giving victim 1 or 2 glasses of water and touching back of throat with finger. Never give anything by mouth to an unconscious person.

If In Eyes: Flush eyes with plenty of water. Get medical attention if irritation persists.

If On Skin: Wash with soap and water.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with this label.

Mr. Gary N. Clark
Manager of Regulatory Affairs
Consep Membranes, Inc.
213 S.W. Columbia Street
Bend, Oregon 97702-1013

Dear Mr. Clark:

Subject: Revised Checkmate™ TPW Labels Submitted with 3/18/93
Letter Regarding Placement of Dispensers on Plants
EPA Registration No. 56336-6

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act is acceptable provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) or 4(a) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling.
 - a) Replace "Codling Moth" with "Tomato Pinworm" on the front left panel of the label.
 - b) Replace "..., store unused product in refrigerator or freezer." with "..., store unused product only in refrigerators or freezers not used for food storage."
 - c) Modify the Storage and Disposal block to comply with item 2c of the registration notice for this product dated 11/13/92.
 - d) Make the statement "Take necessary steps to insure that dispensers do not enter shipping and harvest containers during harvest." more prominent on the label via boldface.

- 3. Submit five (5) copies of your final printed labeling before you release your product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Phil Hutton
 Product Manager 18

CheckMate™ - TPW
 A Biochemical Pesticide for Mating Disruption of
 Codling Moth (*Keiferia tyopersicella*).

ACCEPTED
 with COMMENTS
 in EPA Letter Dated

APR 27 1993

Under the Federal Insecticide,
 Fungicide, and Rodenticide Act
 recommended, for the pesticide
 registered under EPA Reg. No.

56336-6

Active Ingredients:	
(E)-4-Tridecen-1-yl Acetate	2.84%
(Z)-4-Tridecen-1-yl Acetate	0.09%
Inert Materials	<u>97.07%</u>
TOTAL	100.00%

Net Weight: 48 mg Active Ingredients per Dispenser

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF ON SKIN OR IN EYES - Avoid contact of circular release area with skin, eyes or clothing. In case of contact with circular release area or the pheromone reservoir inside a dispenser, flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

DIRECTIONS FOR USE - General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE - Store container in cool place until used.

DISPOSAL - Do not contaminate water, food or feed by storage or disposal. Wastes resulting from use of this product may be disposed of on-site or at an approved waste disposal facility.

CONTAINER DISPOSAL - Do not reuse box or bag.

CheckMate™ TPW is a behavior modifying biochemical pesticide (pheromone), which functions by mating disruption, to be used in control of tomato pinworm (*Keiferia lycopersicella*).

RECOMMENDED APPLICATION: For use on tomatoes. THE RECOMMENDED RATE OF APPLICATION OF CHECKMATE™ TPW IS 200 DISPENSERS PER ACRE (500 DISPENSERS PER HECTARE). Each application is effective for 70-75 days. Apply the first application early in the season, after the first tomato pinworm moth is detected with a pheromone trap, such as BioLure™. The first application should be within 2 weeks after seedlings have been transplanted. For directly seeded tomatoes, the first application should be made within 30 days after planting. The BioLure™ Technical Bulletin contains suggestions for trap placement. Monitor for insect infestation

with traps and by visual inspection of leaves and fruit. Re-apply CheckMate™ TPW every 75 days or sooner, as based on monitoring results and field scouting. CheckMate™ TPW is best used to treat low populations of tomato pinworm and prevent their increase. Treatment of high pest populations may be less effective.

METHODS OF APPLICATION: Apply one dispenser by hand to plants, support poles or wires every 15 feet (4.5 meters). Gently slip the dispenser onto the plant's main stem, or the support poles or wires. Place dispensers at or near the top of the plants, or 3 to 4.5 feet (1 to 1.5 meters) above the ground. Special equipment is not required to apply CheckMate™ TPW. Best results occur when dispensers are evenly distributed throughout the field.

Wash hands after completion. Do not handle other types of insect lures before or after lure placement without thoroughly washing hands. Set tomato pinworm monitoring traps before handling CheckMate™ TPW. Monitor treatments carefully, especially for secondary pests such as tomato hornworm or tomato fruitworm.

Re-seal containers immediately after use, store unused product in a refrigerator or freezer. Do not use CheckMate™ TPW from damaged, punctured or unsealed containers.

Take necessary steps to insure that dispensers do not enter shipping and harvest containers during harvest.

WARRANTY AND LIMITATION OF DAMAGES

Consep Membranes, Inc. warrants that this material conforms to the chemical description on the label. Consep Membranes, Inc. neither makes, nor authorizes any agent or representative to make, any other warranty of fitness or of merchantability, guarantee or representation, express or implied, concerning this material.
