No spray. No mess

Dual Lure Active Ingredients

ACCEPTED
OCT 01 2004
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 56336-8

ACTIVE INGREDIENTS:

(R,Z)-5-(1-Decenyl) dihydro-2(3H)-furanone: Japanese Beetle Sex Pheromone:.....	0.017%
Eugenol: Japanese Beetle Floral Lure.....	25.233%
Geraniol: Japanese Beetle Floral Lure.....	10.698%
2-Phenethyl Propionate: Japanese Beetle Floral Lure.....	10.698%
OTHER INGREDIENTS:.....	53.354%
Total:.....	100.000%

This product contains 1.5 mg of the Japanese Beetle Sex Pheromone and a total of 4.2 grams of the Floral Attractant per lure.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS**

Caution: Harmful if absorbed through the skin or inhaled. Causes moderate eye and skin irritation. Avoid contact with skin, eyes and clothing. Avoid breathing vapor. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for advice.

IF INHALED: Move person to fresh air. If not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-858-7378

EPA Reg. No. 56336-8. EPA Est. No. 56336-OR-1 Manufactured in USA by: Suterra LLC, 213 SW Columbia Street, Bend, Oregon 97702-1013. Under License: US Pat. No. 4,179,446; US Pat. No. 3,761,584; US Pat. No. 4,445,641.

BACK PANEL

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

TRAP ASSEMBLY:

1. Slide vanes together at the slots to form a cross.
2. Attach the twist tie by inserting about 4" through the holes in the top vane assembly as shown in the diagram and twist to secure the trap.
3. Attach one of the disposable collection bags to the vane assembly by gently sliding the holes in the bag over the cutout hooks on the lower end of the trap vanes.

BAIT PLACEMENT

4. Remove the bait from its protective package. Peel the protective cover (marked "peel") from the BioLure Japanese Beetle Trap Lure.
5. Peel the paper from the adhesive strip on the back of the sex/floral lure (bait) and stick the bait onto the trap vane. **DO NOT ATTEMPT TO PEEL APART THE BAIT.** Best results are obtained by attaching the bait to the lower third of the trap vane.

TRAP PLACEMENT, APPLICATION RATE AND USE

1. Place traps as beetles emerge or in mid-May to early June in Georgia and South Carolina; early June to mid-June in North Carolina and Tennessee; mid-June to early July in Kentucky, Delaware, Washington DC, Virginia and West Virginia; early July to mid-July in Illinois, Indiana, Ohio, Pennsylvania and New Jersey; Mid-July in New York, Connecticut, New Hampshire, Rhode Island, Vermont and Maine.
2. Place traps on the generally upwind side of vegetable gardens, flower gardens, ornamental shrub plantings and other outside landscape plantings attacked by the beetles. Apply traps at the rate of one trap per 50 linear feet along two sides of plant perimeters. For example, if the site is 1-50 linear feet place only one trap on each of the two sides; if the site is 51-100 linear feet place two traps on each of the two sides, etc. Do not enclose the treated sites with traps.
3. Hang traps from any suitable post or stand in sunny areas 3 to 5 feet above the ground.
4. Place traps at least 10 feet away from the plantings as they may attract beetles to the foliage if placed closer.
5. Replace bags when full. If trap catches decline and beetles are still present replace pheromone/floral dispensers. Remove traps from site when beetles are no longer present.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE: Store unopened pheromone/floral dispensers in a cool dry place or refrigerate until ready to use.

PESTICIDE DISPOSAL: **If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local waste agency or 1-800-424-9346 for disposal instructions. Never place unused product down any indoor or outdoor drain.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration or, if allowed by state or local authorities, by burning. If burned stay out of smoke.

WARRANTY AND LIMITATIONS OF DAMAGES
