Mr. Richard Fresh  
Suterra, LLC.  
213 SW Columbia Street  
Bend, OR 97702

Subject: Product Name: Checkmate SF Dispenser  
EPA Registration No. 56336-27  
Label Amendment to add EPA phrase and Logo "For Organic Production;" update  
precautionary statement, warranty statement, container disposal per PRN 2007-4, and  
add batch code number.  
Application Dated: June 23, 2008

Dear Mr. Fresh:

The amendment referred to above, submitted in connection with registration under FIFRA section 3(c)(5),  
is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment. Final printed labeling means the label or labeling of the product when distributed or sold. Clearly legible reproductions or photo reductions will be accepted for unusual labels, such as those silk-screened directly onto glass or metal containers or large bags or drum labels.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions. If you have any questions contact Andrew Bryceland at 703-305-6928 or by e-mail at: [bryceland.andrew@epa.gov](mailto:bryceland.andrew@epa.gov). A stamped copy of the label is enclosed for your records.

Sincerely,

Linda A. Hollis, Chief  
Biochemical Pesticides Branch  
Biopesticides and Pollution  
Prevention Division (7511P)

## DUAL DISPENSER SYSTEM

FOR ORGANIC PRODUCTION

### Active Ingredients (OFM Dispenser):

(Z)-8-Dodecen-1-yl acetate ..... 8.06%  
 (E)-8-Dodecen-1-yl acetate ..... 0.52%  
 (Z)-8-Dodecen-1-ol ..... 0.09%  
**Other Ingredients:** ..... 91.33%  
**Total:** ..... 100.00%

**Net Weight:** Active ingredient total of 180 mg pheromone blend per dispenser.

### Active Ingredients (PTB Dispenser):

(E)-5-Decen-1-yl acetate ..... 8.34%  
 (E)-5-Decen-1-ol ..... 1.73%  
**Other Ingredients:** ..... 89.93%  
**Total:** ..... 100.00%

**Net Weight:** Active ingredient total of 200 mg pheromone blend per dispenser.

**A BIOCHEMICAL PESTICIDE FOR MATING DISRUPTION OF  
ORIENTAL FRUIT MOTH (*Grapholitha molesta*) and PEACH TWIG BORER (*Anarsia lineatella*)**

**KEEP OUT OF REACH OF CHILDREN**

## CAUTION

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**Caution:** Harmful if absorbed through the skin or inhaled. Causes moderate eye and skin irritation. Avoid contact with skin, eyes and clothing. Avoid breathing vapor. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

### FIRST AID

**IF INHALED:** Move person to fresh air. If not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

**HOT LINE NUMBER:** Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. You may also contact 1-866-326-6737.

### ENVIRONMENTAL HAZARDS

For terrestrial uses: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

# ACCEPTED

JUL 30 2008

Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended, for  
the pesticide registered under  
EPA Reg. No.

56336-27

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **CheckMate® SF Dispenser** is a behavior modifying biochemical product (pheromone) which functions by mating disruption. It is to be used in pest management programs for control of oriental fruit moth (*Grapholitha molesta*), and peach twig borer (*Anarsia lineatella*). The OFM and PTB pheromones are each contained in, and released from, separate solid matrix hand applied dispensers, included on the same attachment device, for ease of application.

**METHOD OF APPLICATION:** For use on peaches, nectarines, apricots, plums, prunes, cherries, almonds, and any other stone fruit and tree nut crops where these pests are a common problem. The rate of application of **CheckMate SF Dispenser** is 150 to 200 dispenser attachment devices (each containing two dispensers) per acre. Apply the first application early in the season, after detection of the first oriental fruit moth and prior to detection of the first peach twig borer moth, using separate OFM and PTB pheromone traps such as **BioLure®**. This product only affects adult male moths and will have no effect on female moths, eggs or larvae. If application occurs following biofix of PTB (the first date PTB moths are found consistently in pheromone traps such as **BioLure**) or during the growing season, the orchard must be treated with insecticide treatments that will effectively control hatching larvae until egg laying by previously mated female moths has ceased to occur. In moderate to high insect pressure situations, supplemental insecticide applications during the season to protect developing fruit must be made based on trap monitoring, field scouting, and appropriate degree-day models for the local growing area and must be timed to control emerging larvae. Follow the **BioLure Technical Bulletins** for trap placement. Monitor for insect infestations with traps and by visual inspection of trees, shoots and fruit. Re-apply **CheckMate SF Dispenser** based on monitoring results and field scouting. **Do not exceed 150 grams a.i./acre/year for either of the pheromone active ingredients (a total of 750 dispenser attachment devices/acre/year).**

Apply dispensers to thumb-size limbs of crop to be protected. Place dispensers in the upper one-third of the canopy of the tree. Distribute dispensers uniformly throughout the block. If there is a persistent and prevalent wind, apply one dispenser attachment device to every tree on the upwind side of the orchard and then evenly distribute the remaining dispensers in the block.

Wash hands after application. Do not handle other types of insect lures before or after dispenser placement without thoroughly washing hands. Place monitoring traps in the orchard before handling **CheckMate SF Dispenser**. Monitor treatments carefully for secondary pests.

Do not use **CheckMate SF Dispenser** from damaged, punctured or unsealed containers.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store container in cool place until used. Reseal containers immediately after use. Store unused product in a refrigerator or freezer not used for food storage.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on-site or at an approved disposal facility.

**CONTAINER DISPOSAL:** Plastic Containers: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke. Bag/Cardboard Box: Nonrefillable container. Do not reuse or refill this container. Dispose of empty bag/cardboard box in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke.
