U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

56336-33

Date of Issuance:

AUG 27 1999

Term of Issuance:

Conditional

Name of Pesticide Product:

Checkout 40/60

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Consep, Inc.
213 SW Columbia Street
Bend, Oregon 97702-1013

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c) (7) (A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c) (5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following labeling change before you release the product for shipment: Add the phrase "EPA Registration No. 56336-33".
3. Submit one copy of the final printed label before you release your product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec.6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Signature of Approving Official:

CheckOut 40/60

Active Ingredient:
Sulfur 40.00%
Other Ingredients* 60.00%
TOTAL 100.00%
* Includes Lime (calcium hydroxide).

FOR USE ON FRUITS AS LISTED:
GRAPES, PEACHES, NECTARINES, PLUMS, AND PRUNES.

KEEP OUT OF REACH OF CHILDREN DANGER- PELIGRO

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Precaucion Al Usuario: Si usted no entienda la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail).

Corrosive. Causes irreversible eye damage or skin burns. Harmful if swallowed or absorbed through the skin or inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing dust.

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

IF IN EYES: Hold eyelids open and flush with steady, gentle stream of water for 15 minutes. Get medical attention.
IF ON SKIN: Wash with plenty of soap and water. Get medical attention. **IF SWALLOWED:** Call a Physician or Poison Control Center. Do not induce vomiting. Drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. If person is unconscious, do not give anything by mouth. Avoid alcohol. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.
IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Get medical attention.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Pesticide handlers: during mixing, loading and application of this product must wear coveralls over long sleeved shirt and long pants, socks and chemical resistant footwear, goggles or face shield and waterproof gloves. When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40CFR, 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of rinsate or equipment washwaters. Do not apply when weather conditions favor drift from treated areas.

PHYSICAL AND CHEMICAL HAZARDS

Sulfur dust suspended in air ignites easily. Keep away from heat, sparks and flame. Do not smoke while applying this product.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with the labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirement specific to your State or Tribe, consult the Agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instruction and exceptions pertaining to the statements on this label about personal protective equipment (PPE). The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated area during the restricted entry interval (REI) of 24 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water is coveralls over long sleeved shirt and long pants, socks and chemical resistant footwear, goggles or face shield and waterproof gloves.

CheckOut 40/60 is to be applied as a dust and in such a manner as to obtain a light uniform dusting on foliage and fruit. Apply label recommendations of CheckOut 40/60 when air is calm using ground equipment, aircraft or hand dusters.

When to Use: Apply to crops when mites or diseases first appear and/or when mite "buildup" and plant disease damage is imminent. Repeat every 7 to 14 days or as directed for continued control. Contact your State Agricultural Extension Service for crop dusting schedules giving the proper timing to make applications in your locality.

How to Use: Use the lower rate, as indicated, during periods of minimal to moderate disease or insect infestation for regularly scheduled seasonal applications or when treatments are necessary and the temperatures are at, and above 90° F. Use the higher rate, as indicated, when mites or diseases are damaging the crop and weather conditions are favorable for continued plant damage and when temperatures will not exceed 90° F within the following 3 days after application. Sulfur will burn most plants in sunny 95° F temperatures and above.

GRAPES: For "Powdery Mildew," use 15 to 20 lbs. per acre when new shoots are 6, 12, and 18 inches long. Thereafter, repeat each 10 to 14 days to harvest. **NOTE:** Concord and Labrusca type grapes may be injured by sulfur. Do not apply if temperatures during or shortly after treatment are expected to exceed 100° F. **PEACH, NECTARINE:** For "Powdery Mildew," use 15 to 20 lbs. per acre at petal fall, 2 weeks later, and again at beginning of pit-hardening. For "Rust" and "Powdery Mildew," use 15 to 20 lbs. per acre after pit-hardening. For "Peach Silver Mite," use 15 to 20 lbs. per acre after thinning. For Brown Rot blossom blight use 15-30 lbs. per acre at pink, bloom, petal fall, and at 10 to 14 day intervals as long as necessary. For Brown Rot of fruit apply when fruit starts to ripen. **PLUM, PRUNES:** For Brown Rot and Prune Rot of fruit use 15 to 20 lbs. per acre 5 weeks before harvest and at 7 to 14 day intervals as necessary.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Store in original labeled closed package. Store in a cool dry place. Do not store near food or feedstuffs or within reach of children. **Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instruction, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. **Container Disposal:** Completely empty bag contents into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

NOTE

This product contains one or more chemicals known to the State of California to cause cancer, birth defects, and other reproductive harm. The chemicals are in naturally-occurring limestone used to make this product and occur in trace amounts. No chemicals are introduced in the manufacturing process. Pursuant to Proposition 65, the above warning must be given in the absence of definitive testing to prove that the defined risks do not exist.
