Subject Dispatch® Hospital Cleaner Disinfectant with Bleach EPA Reg# 56392-7 Notification Date August 15, 2012 Receipt Date August 16, 2012

Dear Ms Lawson

This acknowledges the receipt of your notification, submitted under the provision of PR Notice 98-10 and FIFRA section 3(c)9

# **Proposed Notification**

Minor label text corrections and changes including directions associated with the opening and adjusting the sprayer bottle mechanism for applying Dispatch® Hospital Cleaner Disinfectant with Bleach product (EPA Reg# 56392-7)

# **General Comment**

Based on the review of the material submitted, the notification application for various proposed labeling text changes are acceptable. This notification and this letter have been inserted in your file for future reference.

On page 2 of the label, it was noted a website addition <u>www cloroxhealthcare com</u> Should you wish to retain a reference to the company's website on your label, then please be aware that such a reference transforms the website into labeling under the Federal Insecticide Fungicide and Rodenticide Act sec 2 (p) (2) and then the website is subject to review by the Agency If the website content is false or misleading, the product would be misbranded and its sale or distribution unlawful to sell or distribute under FIFRA section 12(a)(1)(E) In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process Although EPA has not yet determined the extent to which it will routinely review company websites, if the Agency finds or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from claims approved through the registration process, the website may be referred to the EPA's Office of Enforcement and Compliance Assurance If you have further question on this letter, please contact David Liem by email at <u>liem david@epa gov</u> or by calling at 703-305-1284

# **DIRECTIONS FOR USE continued**

KILLS HIV, HBV and HCV ON PRE CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS IN healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids and in which the surfaces/objects likely to be soiled with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV 1) (associated with AIDS) Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV)

Special instructions for Cleaning and Decontamination Against HIV 1 (AIDS Virus), HBV and HCV on Surfaces/Objects Soiled with Blood/ Body Fluids Personal Protection When handling items soiled with blood or body fluids use disposable gloves gowns masks and eye coverings Cleaning Procedure Blood and other body fluids must be thoroughly cleaned from surfaces and objects before applying this product Contact Time Let stand [for] 1 or one min[ute] For [ali] other organisms see directions for contact times Disposal of Infectious Materials Use disposable impervious gloves gowns masks and eye coverings Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body either into or in contact with the bloodstream or normally sterile areas of the body or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi critical medical devices prior to sterilization or high level disinfection.

Special Instructions for Cleaning Prior to Disinfection against Clostridium difficile spores Personal Protection Wear appropriate barrier protection such as gloves gowns masks or eye covering Cleaning Procedure Fecal matter/waste must be thoroughly cleaned from surfaces/ objects before disinfection by application with a clean cloth mop and/or sponge saturated with [*Product Name*] [*this product*] Cleaning is to include vigorous wiping and/or scrubbing until all visible soil is removed Special attention is needed for high touch surfaces Surfaces in patient rooms are to be cleaned in an appropriate manner such as from right to left or left to right on horizontal surfaces and top to bottom on vertical surfaces to minimize spreading of the spores Restrooms are to be cleaned last. Do not reuse soiled cloths

**Infectious Materials Disposal** Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal

**Disinfection Procedure** Spray 6 – 8 from surface until surface is completely wet Let stand for five or 5 min[utes] Wipe with a clean damp cloth or paper towel or allow to air dry
