YEA!™

PRECAUTIONARY STATEMENTS

CAUTION

Avoid ingestion or excessive contact with skin or eyes. If swallowed drink 8 ounces or more of water. For skin or eye contact. flush with water.

ENVIRONMENTAL HAZARDS

Do not apply directly to water sources. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For seed treatment (per hundredweight)

1) For user application apply 16 fluid ounces undiluted treatment to seed so that treatment thoroughly coats. A metering pump and small auger may be used. While premature germination should not be a problem, moisture content of treated seed will be increased by about 1.05%.

2) If treatment is too viscous for your treatment equipment, it may be diluted by any fractional amount as long as the application rate for treatment is increased proportionately. For example, dilute by 50% by adding 1 part water to 1 part treatment and use 32 fluid ounces per hundred weight of seed. This will increase moisture content by about 2.1%. Seed should then be planted as soon as

Poly-D-glucosamine solution

WHEAT SEED TREATMENT

A natural yield enhancing agent to be applied to both Winter and Spring varieties of wheat seed prior to planting. Yield enhancing activity is accomplished by stimulating plant root and stem growth thereby decreasing lodging.

INGREDIENTS:

ACTIVE INGREDIENT POLY-D-GLUCOSAMINE	2.50%
INERT INGREDIENTS	97.50%
Total	<u>100.00%</u>

This product contains 0.2 lb. of poly-D-glucosamine per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENT

DISTRIBUTED BY:

Natural Ag, a division of Bentech Laboratories, Inc.
635 Water Avenue
Albany, Oregon 97321
Establishment No.
EPA Registration No. 56437-1

NET CONTENTS:

30 Gallons (treats 240 hundredweight or 12 tons)
