Mr. August S. Bjornson  
DCV Chitin Technologies L.P.  
3521 Silverside Road  
Wilmington, DE 19810

Dear Mr. Bjornson:

Subject: YEA<sup>™</sup> Yield Enhancing Plant Growth Regulator  
EPA Registration No. 56437-1  
Application Dated January 27, 1997 and Your  
Letter Dated February 7, 1997, Request  
To Amend Registration To Add New Use Sites:  
Beans (all types), Broccoli, Eggplant, Peas (all  
types), Peppers (all varieties), Potatoes (Irish  
varieties), Tomatoes (all varieties); and a  
Revised Confidential Statement of Formula

The proposed revised Confidential Statement of Formula  
(CSF) submitted on EPA Form 8570-4 and dated January 27, 1997  
has been reviewed and found acceptable as the basic formula  
for the subject pesticide product. The revised CFS has been  
placed in this Agency's file for this product registration.

The proposed amendments described in the subject application  
and letter have been reviewed and found to be acceptable for  
registration under the Federal Insecticide, Fungicide and  
Rodenticide Act, as amended, provided that you:

1. Revise the statement under the "General Instructions"  
section that reads: "Treatment should begin when  
the first trifoliar leaves have unfurled, or as soon  
as practicable thereafter." to read: "Treatment should  
begin as described for each use site."
2. Revise the first statement under the section "Specific  
Crop Instructions" by omitting the word "the" from the  
phrase "the growing plants as follows:".
3. Submit one (1) copy of the final printed label before  
you release the product for shipment under the subject  
labeling.

If these conditions are not complied with, the registration  
will be subject to cancellation in accordance with FIFRA, Section

# YEA!™

## Yield Enhancing Plant Growth Regulator For Use In Culture of Vegetable Crops

Used as directed on this label, YEA!™ will stimulate growth and will increase yield of crops listed on this label.

1. Spray plant foliage every two weeks.
2. Apply as a diluted solution, using seven (7) ounces of YEA!™ per gallon of water.
3. Results in healthier, more vigorous plants and increased yield.
4. Use dedicated equipment, or thoroughly cleaned equipment to prevent contamination with other pesticides or chemicals previously used in the equipment.
5. Apply for thorough coverage of leaf surface, without runoff.

### INGREDIENTS:

ACTIVE (POLY-D-GLUCOSAMINE) .....	2.5%
INERT.....	97.5%
TOTAL.....	100%

Product contains 0.21 lbs. of  
poly-D-glucosamine/gallon

## DIRECTIONS FOR USE

It is a violation of federal laws to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

### AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), notification to workers, and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas until sprays have dried.

PPE required for early entry into the treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- (1) coveralls, (2) waterproof gloves, (3) shoes plus socks.

### General Instructions

Prepare spray solutions by diluting seven (7) ounces of YEA!<sup>TM</sup> to one gallon with water.

Apply diluted YEA!<sup>TM</sup> solution every two weeks to vegetable crops listed below. Treatment should begin when the first trifoliar leaves have unfurled, or as soon as practicable thereafter. Apply sufficient spray solution to wet leaf surfaces. Volume of diluted solution of YEA!<sup>TM</sup> required will increase as leaf surface grows.

Spray residues on harvested vegetables may be removed by washing in water.

### Specific Crop Instructions

The diluted solution of YEA!<sup>TM</sup> containing 7 oz. of YEA!<sup>TM</sup> per gallon, should be applied to the growing plants as follows:

**Beans (all types):-** Apply every two weeks, beginning when the first trifoliar leaves have unfurled. Do not apply within three days of harvesting.

**Broccoli:-** Apply every two weeks, beginning when the first true leaves are unfurled. Do not apply within three days of harvesting.

**Eggplants:-** Apply every two weeks, beginning when the first true leaves are unfurled. Do not apply within three days of harvesting.

**Peas (all types):-** Apply every two weeks, beginning when the first true leaves are unfurled. Do not apply within three days of harvesting.

**Peppers (all varieties):-** Apply every two weeks, beginning when the first true leaves are unfurled. For one time harvesting, do not apply within three days of harvesting. When hand-picking is practiced, continue to spray every two weeks, so long as there is fruit to be harvested.

**Potatoes (Irish varieties):-** Apply every two weeks, beginning when the first true leaves are unfurled. Do not apply within three days of harvest.

**Sweet Corn (all varieties):-** Apply every two weeks beginning when the first true leaves are unfurled. Do not apply within three days of harvest.

**Tomatoes (all varieties):-** Apply every two weeks, beginning when the first true leaves are unfurled. For one time harvesting, do not apply within three days of harvesting. When hand-picked is practiced, continue to spray every two weeks, so long as there is fruit to be harvested.

### USE PRECAUTIONS

To prevent contamination of the dilute solution of YEA!<sup>TM</sup> by possible pesticide or other chemical residues in the spraying equipment, use dedicated equipment, or be sure that the equipment is thoroughly clean before use.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS  
(AND DOMESTIC ANIMALS)**

**PERSONAL PROTECTIVE EQUIPMENT  
(PPE)**

Applicators and other handlers must wear:

- Long sleeved shirt and long pants
- Waterproof gloves
- Shoes plus socks

Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

**PRODUCT STORAGE, USE  
AND DISPOSAL**

**STORAGE:**

Store in original container only. Keep product from freezing, contamination, and from excessive heat. In order to prevent contamination, do not return unused material to original container.

**PRODUCT DISPOSAL:**

Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:**

Do not reuse container. Rinse thoroughly before discarding in trash.

**ENVIRONMENTAL:**

Do not apply directly to water sources. Do not contaminate water when disposing of equipment washwater. If spilled on ground-dilute with water to disperse.

**NOTICE OF WARRANTY**
