**DIRECTIONS:** Place Flea Collar around dog's neck. Adjust for proper fit and snap in place. The collar must be worn loosely and in addition to the regular collar. If collar is worn too tightly, it may produce neck irritation. Cut off and dispose of the excess length. Flea collar begins to release and will continue for 3 months while the collar is worn. Collar are harder to kill, but those on the neck area will soon be killed and easily removed. Collar will continue to kill ticks for eight weeks. For continuous protection, replace collar every 3 months.

Flea Collar can be worn with regular collar. Remove collar when washing dog, replace when dry.

**CAUTION:** Do not use protective pouch until ready to use. Do not allow children to play with this collar. Do not use on cats, white rats and greyhounds. Some dogs may be sensitive to this collar. Remove collar at first signs of irritation or adverse reaction. Do not use on sick, convalescing dogs. Do not use any other product on dog while collar is worn. Collar is intended for use only as an insecticide and is not to be taken internally by man or animals.

**STORE** in original container. Do not reuse empty container. Wash container (and spray collars) and **DISPOSE** in trash.
