# TERMINATOR

## INSECTICIDE CATTLE EAR TAG

Net Weight: 15 Grams Per Tag

### Keep Out of Reach of Children WARNING

This product contains the toxic inert ingredients D & C Red No. 19 (Rhodamine B) and Di-(2-ethylhexyl) adipate.

Active Ingredient:	By Weight
Diazinon [0,0-diethyl-0-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate]	20%
Inert Ingredients	80%
Total	100%

#### Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For optimum pest control, attach one tag to each ear (two per head) when pests first appear. Replace as necessary. TERMINATOR has been proven effective against pyrethroid resistant horn flies for three to four months. Apply with the Allflex® Tagging System (Figures 1-4). Calves less than 3 months of age should not be tagged as ear damage may result. Tags should be removed prior to slaughter.

#### Storage and Disposal

Store in a cool place in original container. Opened pouches containing ear tags should be resealed for storage. Do not contaminate water, food, or feed by storage or disposal. **Pesticide Disposal:** Waste (spent tags) resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal:** Dispose of empty container in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**Figure 1.**  
Disinfect pliers prior to use. Place female tag under clip by depressing lever. Collar on tag must be pointing down.

**Figure 2.**  
Slide male button on pin until it projects through tip. Align tip of male button with female portion of tag. Tag and button are now ready for application.

**Figure 3.**  
Position tag on the flat surface in center of ear. Do not allow shaft of the male button to penetrate any cartilage rib or blood vessel or ear damage may result.

**Figure 4.**  
When properly positioned, the tag should hang as shown with COLLARS in EPA Letter Dated:

JUL 3, 1990

#### Environmental Hazards

This pesticide is toxic to fish. Do not apply directly to water. Do not contaminate water by disposal of used tags.

#### Warranty and Limitation of Damages

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty, including any other express or implied warranty of Fitness or of Merchantability, and no agent of Seller is authorized to do so except in writing and with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

#### Statement of Practical Treatment

If On Skin - Remove contaminated clothing and wash affected areas with soap and water.  
If In Eyes - Flush eyes with plenty of water. Call a physician if irritation persists.  
If Swallowed - Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with a finger. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person.

**Note to physician:** This product is a cholinesterase inhibitor. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.

#### Precautionary Statements Hazards to Humans Warning

Harmful if absorbed through the skin or if swallowed. Avoid contact with skin and eyes. Wash thoroughly with soap and water after handling and before eating or smoking. Wear clean gloves daily when applying tags.
