ACCEPTED

APR 10 1988

APR 10 1988
EPA Reg. No. 56493-78

EctoGard House & Carpet Spray contains a unique combination of ingredients that attack the flea life cycle plus controls ticks, cockroaches, crickets, silverfish, earwigs, sowbugs, confused flour beetles, ants, spiders and flies. 1) Permethrin provides insecticidal activity by knocking down and controlling fleas in carpet. 2) Tenocide, a new insect growth regulator, is the most important active ingredient in EctoGard House & Carpet Spray. Tenocide inhibits development of the immature stages of the flea for at least 21 weeks, preventing them from reaching the biting adult stage.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Harmful if swallowed or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

STATEMENT OF PRACTICAL TREATMENT

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For use in homes, garages, attics, apartments and hotels. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

SHAKE WELL BEFORE USING

Fleas: For maximum effectiveness, the entire carpeted area should be treated at the rate of 1/2 gal. per 1000 sq. ft. Adjust spray nozzle to create a fine spray. Apply evenly as a spray for spot treatment to infested areas such as pet beds and resting quarters, carpets, rugs and drapes near by cracks and crevices, along and behind baseboards. Old bedding of pets should be removed and replaced with clean, fresh bedding prior to treatment of pet area. **DO NOT TREAT PETS WITH THIS PRODUCT.** To control the source of flea infestation, pets inhabiting the treated premises should be treated with a product registered for application to animals. Avoid wetting furniture and carpeting. A fine spray applied uniformly is all that is necessary to kill fleas. To kill ticks and other labeled insects, apply directly to pests. Leave treated areas and do not return for at least one hour. Do not allow children or pets to walk on treated surfaces until completely dry. Do not spray on pets or humans. Remove birds, nursing puppies and cats and cover food, water, fish bowls and aquariums before spraying. This product may leave a white residue on waxed surfaces which can be removed with household ammonia. Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed.
