Eliminator House & Carpet Spray contains a unique combination of three insecticides that attack the flea life cycle from three directions, plus controls ticks, cockroaches, crickets, silverfish, earwigs, sowbugs, confused flour beetles, ants, spiders and flies. 1) The first action is provided by the extremely effective quick-killing activity of pyrethrins. Pyrethrins kill insects they come in direct contact with but will not provide residual activity. 2) Permethrin is the second active ingredient in Eliminator House & Carpet Spray. It takes over as the pyrethrins lose effectiveness by providing a residual control of fleas in carpet. 3) The third and most important ingredient in Eliminator House & Carpet Spray is the new insect growth regulator, Tenocide. It inhibits development of the immature stages of the flea for 21 weeks preventing them from reaching the biting adult stage.

#### PRECAUTIONARY STATEMENTS

##### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

##### STATEMENT OF PRACTICAL TREATMENT:

**IF SWALLOWED:** Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

**IF IN EYES:** Flush with plenty of water. See a physician immediately.

**IF ON SKIN:** Wash with soap and water. Get medical attention if irritation persists.

##### PHYSICAL OR CHEMICAL HAZARDS:

Flammable. Keep away from heat and open flame.

##### ENVIRONMENTAL HAZARDS:

This product is toxic to aquatic organisms. Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters.

#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For use in homes, garages, attics, apartments and hotels. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

#### SHAKE WELL BEFORE USING

Fleas: For maximum effectiveness, the entire carpeted area should be treated at the rate of 1 qt/500 sq ft. Adjust spray nozzle to create a fine spray. Apply evenly as a spray for spot treatment to infested areas such as pet beds and resting quarters, carpets, rugs, and drapes; nearby cracks and crevices; along and behind baseboards. Old bedding of pets should be removed and replaced with clean, fresh bedding prior to treatment of pet area. **DO NOT TREAT PETS WITH THIS PRODUCT.** To control the source of flea infestation, pets inhabiting the treated premises should be treated with a product registered for application to animals. Avoid wetting furniture and carpeting. A fine spray applied uniformly is all that is necessary to kill fleas. To kill ticks and other labeled insects, apply directly to pests. Leave treated areas and do not return for at least one hour. Do not allow children or pets to walk on treated surfaces until completely dry. Do not spray on pets or humans. Remove birds, nursing puppies, and cats, and cover food, water, fish bowls and aquariums before spraying.

Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed.

#### STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Store in a cool dry place, away from children. Store above freezing (32°F) and protect from high temperatures. Do not reuse empty container. Rinse thoroughly before discarding. Securely wrap original container in several layers of newspaper and discard in trash.

NOTE: Changes in labeling format differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration for this product under FIFRA section 3(c)(1) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

- a. Add the phrase "EPA Registration No. 56493-81."
- b. The interim storage stability study submitted for 1 month is acceptable. Submit a one year storage stability study when complete.
