Wash thoroughly with soap and water after handling.

## STATEMENT OF PRACTICAL TREATMENT

If in eyes - Flush with plenty of water. If irritation persists, seek medical attention.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

## REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR

To activate collar hold  
at each end...STRETCH!  
...it's ready to work.

It is not advisable to use this collar or similar pesticides on puppies less than 6 weeks of age. Do not unroll collar until ready to use. Place the Americare Rabon Flea & Tick Collar around the dog's neck, adjust for proper fit, and secure in place. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move about the neck. Generally, a properly fitted collar is one that when fastened will snugly slide over the dog's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length. Some animals may become irritated by any collar if it is applied too tightly. If this occurs, loosen the collar. If irritation continues, remove the collar from the animal. This collar is intended for use only as an insecticide generator.

Kills fleas and ticks common to dogs. The Americare Rabon Flea & Tick Collar will begin to kill fleas and ticks immediately. Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet. For continuous fleas and tick protection under normal conditions replace the collar every five months. Under conditions where dogs are exposed to severe flea or tick infestations it may be necessary to replace the collar more frequently. Wetting will not impair the collar's effectiveness or pet's protection. If the dog goes swimming or is out in the rain, it is not necessary to remove the collar. The Americare Rabon Flea & Tick Collar may be worn with a regular collar.

DISPOSAL - Do not use empty pouch. Dispose in trash collection.
